## HOMEY'S TOOLS FOR LIFE

### BOKTRÄ

What is classy, stylish, playful, and timeless? Something that is eye-catching but at the same time fits in every interior? Beech wood!

The Bokträ series is made of sustainable beech wood. This is a strong and highly durable wood type making it the perfect material for tools that are used frequently, like kitchen knives and cutting boards.

The Bokträ series consists of five essential kitchen knives, a knife block in two versions, and two sets of steak knives.

tools for life

## HOMEY'S TOOLS FOR LIFE BY SCHIFFMACHER

As a Dutch butcher's son, Henk Schiffmacher, one of the world's most famous tattoo artists, learned to appreciate a good, sturdy knife at an early age. In this series he lets his passion for the butcher's trade, tattoos and cuisine speak.

### **Champagne Sabel**

Slightly traditional, somewhat ceremonial, but sabring is above all a stylish way to open a champagne bottle. And it gets even more stylish, artful even, with the Champagne Sabel By Schiffmacher.

### **Steak Knives**

The set consists of four robust steak knives, each with a unique and recognizable pattern. Natural wood provides an authentic appearance – no knife is the same. To embrace this authenticity, each knife has its own tattoo designed by Henk Schiffmacher himself.

### **Chef's Knife**

This chef's knife is made out of one piece of solid German stainless steel, blackened with a special iron oxide treatment. And it wouldn't be a knife by Schiffmacher without a tattoo, right?

### **Chopping Block**

When it comes to cooking, having the right cutting board is just as important as having a good knife. This cutting board is inspired by the official butcher's block, as Schiffmacher knew it from his childhood.

HOMEY'S TOOLS FOR LIFE

## MAN'S RUIN BY SCHIFFMACHER

Man's Ruin • [ man's ru-in]  
(noun) | /mæns ru:in/

All the weaknesses that can ultimately lead to a man's demise.

It's one of the most iconic and timeless tattoos ever – a seductive woman surrounded by bottles of alcohol, playing cards, drugs, and money. All the lusts that are bound to lead men astray in life.

Ever heard of the German sentence "Wein, Weib und Gesang"? Maybe "Sex and Drugs and Rock and Roll" sounds more familiar. Throughout history men have been tempted by this dissolute lifestyle – they still are...

The Man's Ruin tattoo reminds them of all the things they should not succumb to. It's the rulification of men.

The Man's Ruin – Try not to get tempted

tools for life

## HOMEY'S TOOLS FOR LIFE

# CHARCUTERIE

The charcuterie we know today is a combination of cured meats, such as pork, beef, poultry, and game. All these meat delicacies are served together on a wooden board complemented by delicious fruits, cheeses, bread, and seasonings.

Every meat has its own cut and needs its own knife for the full (flavor) experience. We made a selection of knives for all the main components on a charcuterie board, such as a carving knife, block knife, pate-knife, and sausage knives.

## HOMEY'S TOOLS FOR LIFE

### CLOG KNIFE

This knife is named after the typical Dutch clogs because it reflects us Dutchies in some way – work hard and efficiently!

This is our little champion when it comes to cutting foods in the kitchen. This knife is razor-sharp and it will cut right through any vegetables or fruit. It has a handle made of beech wood giving it a timeless look. The clog knife is available as office and paring knife in high quality stainless steel and rock-hard carbon steel.

Keith Haring™

**HOMEY'S**  
tools for life

With the Keith Haring Collection, we bring the memorable works of Keith Haring to your everyday life. Intertwining his passion with ours: bringing people together by creating tools that evoke feelings, experiences, and memories.

Come together through the art of cooking with the Keith Haring collection.

© Keith Haring Foundation.  
Licensed by Artestar, New York.

Keith Haring was one of the most renowned of the young artists, filmmakers, and performers whose work responded to urban street culture of the 1980s. Inspired by the graffiti artists whose marks covered the city's subway cars, Haring began to draw in white chalk over the black paper used to cover vacant advertising panels. Not only was Haring able to reach a large and diverse audience with his subway drawings, but, eventually, the subway became, as Haring said, a "laboratory" for working out his ideas.

Haring was deeply inspired by Japan. He traveled to Tokyo numerous times and initiated several public art projects, and collaborations, and opened Pop Shop Tokyo. He produced several unique works that combine his style with Japanese culture. The Keith Haring collection embraces this strong connection.

Haring sought to create a sense of togetherness and forge relationships that transcend borders of all sorts - culture, society, values, and beliefs. He did that through his art, by bridging the gap between fine art and popular culture and spreading his message to all. Public spaces, buildings, and everyday objects were his canvas. Now his legacy lives on in our everyday life tools.

## HOMEY'S TOOLS FOR LIFE

### MÖLTI

One of the biggest struggles in the kitchen? Cutting a tomato. We have all failed at least once. This has nothing to do with your cutting skills. On the contrary, it has everything to do with the knife you are using! Your knife is not sharp enough, it slips off the tomato or you have to apply too much pressure and you end up squashing it.

Homey's, therefore, introduces the first sustainable universal kitchen knife: the Mölti. With a thin blade for precise cutting and micro-serrations that retain their sharpness for a long time. The best thing is, they are not only great for cutting tomatoes... Easily slice through other vegetables and fruits, meat, and bread. A must-have for every kitchen!

## HOMEY'S TOOLS FOR LIFE

### NIPPON

The best sushi is homemade sushi. Not only does it taste good, the preparation of it turns it into a whole experience. And it's actually not that hard to make once you have the right equipment. With the Homey's NIPPON you can turn your home into a sushi restaurant. Make it with friends, family, or make it a dinner for one.

The Nippon consists of two Japanese knives, a Yanagiba (sashimi) knife, and an Usuba (vegetable) knife. This set also comes with a bamboo rolling mat, 3 bowls for sides, and 4 pairs of chopsticks with matching rests. Everything comes in a food-safe can ideal for storage. It is also the perfect present, no gift box needed! All the essentials for making – and eating – the best homemade sushi.

**HOMEY'S TOOLS FOR LIFE**

## **WOOD FIBER CUTTING BOARDS**

Happy knife, happy life! Using the right cutting board is key to keeping your knives sharp. Glass and harder plastics are a big no-no, whereas bamboo and wood are softer – and therefore better – options. They might, however, seem less hygienic compared to plastic cutting boards... What if we told you there is a cutting board which knife-friendly, hygienic, and sustainable?

The Homey's wood fiber cutting boards have the best characteristics of both plastic and wood. Wood fiber is made from multiple sheets of paper which are compressed with heat and pressure. It has the natural appearance of wood and is also a soft material that will not dull your kitchen knives. It is thin, lightweight, and dishwasher-safe like plastic. Wood fiber is more resistant to deeper cuts and will easily restore itself. Although wood fiber is a softer material, due to its high surface density, water and food juices cannot penetrate the top layer and will not be absorbed. This makes our cutting boards hygienic and easier to (keep) clean.

The Homey's wood fiber cutting boards are not-absorbing, heat-resistant up to 50°F/ 180°C, BPA-free, and food-safe. Available in two sizes. All wood fiber cutting boards have juice grooves and detachable silicone corners.

tools for life

## HOMEY'S TOOLS FOR LIFE BAMBOO CUTTING BOARDS

To start living ever greener, you need to do more than just buying organic ingredients. Cook sustainable with a Homey's bamboo cutting board! After bamboo is cut down it will continue to grow faster. That is why bamboo is a very sustainable plant. Besides the fact that bamboo is very beautiful and is produced fairly, it also has many interesting advantages for the hobby chef!

Bamboo is durable, has a high density and is therefore super hygienic! Bamboo hardly absorbs moisture, does not tear and does not warp. Bacteria don't stand a chance, because bamboo has a kind of antibacterial effect on its own.

This cutting board is an eye-catcher in the kitchen and great for presenting snacks. In addition, it is resistant to moisture and no stains from vegetables or fruit remain.
