# THE IDEAL FOUNDATION FOR ART

We are one of Europe's leading producers of stretched canvas. As specialists of our trade, we manufacture anything from custom-made single units to small and medium batches, and cover large-scale productions of thousands of frames.

MH&P is the premium manufacturer of stretched canvas – Made in Berlin.

Thanks to over 30 years of stretching experience, our skilled team, and flexible automation, we can fulfill almost any request. We specialize in large formats, produce custom sizes down to the millimeter, work with more than five different stretcher bar profiles, and stretch over ten different canvas types for diverse applications, all painting techniques, and unlimited artistic creativity.

MH&P maintains high quality standards and provides excellent service with real people and transparent communication. Thanks to our strong supply chain and modern production, we are one of the most reliable producers in our industry. We manufacture just-in-time and also take care of safe packaging and transport.

Over 20 years ago, we invented canvas stretching and frame assembly machines to automate our own production. Today, our facility also serves as a laboratory and testing site for our sister company [MH+P TECHNOLOGY](#), the leading manufacturer of canvas stretching and frame assembly machines.

MH&P products are developed and produced by artists for artists. For more than 30 years, national and international customers have trusted MH&P for stretched canvas and related supplies and services – proudly made in Berlin, Germany.

## PREMIUM COTTON CANVAS – ALL-TIME CLASSIC AND BESTSELLER

- **Grammage 330 g/m<sup>2</sup>**
- **Premium, durable canvas**
- **Blend 70 % cotton, 30 % polyester**
- **Even, medium texture**
- **Low-absorbent primer**
- **Drum-tight stretch**
- **Stapled on the back**
- **Robust and stable stretcher bars**
- **Wood from sustainable forestry**

MH&P's premium cotton canvas is an all-time CLASSIC and bestseller. This artist favorite is stretched drum-tight on a sturdy wooden frame.

CLASSIC is a high quality, durable cotton canvas with a dark linen optic on the backside. Robust stret-

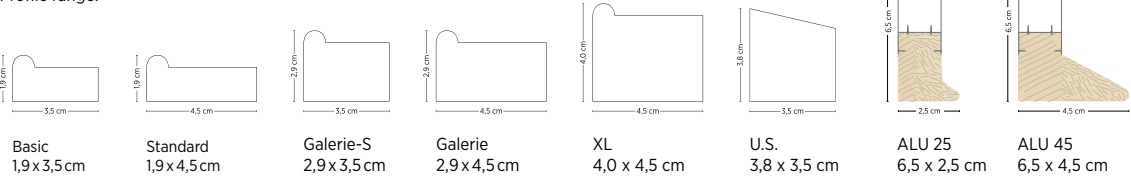

cher bars made of pine or spruce from sustainable, European forestry provide excellent stability.

This is the perfect stretched canvas for acrylic and oil painting. CLASSIC is manufactured in nearly all formats and also available in large sizes.

# For Markers

Image: Profile XL

## THE MODERN ALL-ROUNDER FOR UNLIMITED CREATIVITY AND ALL APPLICATIONS

- Newly developed, special canvas
- Bright-white surface
- Durable and tear-resistant
- Very fine and even surface texture
- Non-absorbent surface primer
- Drum-tight stretch
- Stapled on the back
- Robust and stable stretcher bars
- Wood from sustainable forestry
- Grammage 270 g/m<sup>2</sup>

The perfect canvas for unlimited creativity! For-Markers is a canvas with a special surface for all techniques and applications. ForMarkers handles acrylics, oils, markers of all types, spray-paint, and even watercolors. The drum-tight canvas stretch is also great for pouring.

ForMarkers bright-white surface makes colors appear vibrant. The non-absorbent primer ensures colors stay precisely on the surface where applied. That means no bleeding and less color consumption

compared to conventional canvas materials. Robust stretcher bars give the frame great stability, no warping even with wet painting techniques.

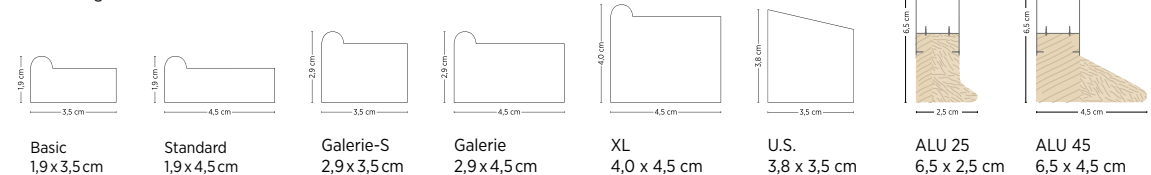

Unlike traditional cotton canvas, ForMarkers is the ideal solution for many modern techniques and applications: markers of all types, spray paints, aqua-drops, finger paints, jumbo-colored pencils, texture pastes, acrylic gels, plaster and modeling paste, acrylic paints, watercolors, oil paints, scribbling, decoupage.

# AQUA

Image: Profile Basic

## THE WORLD'S FIRST STRETCHED WATERCOLOR CANVAS

- Special, premium watercolor paper
- Engineered by MH&P
- Sturdy, thick paper containing rag, acid-free
- Surface structure with a special finish
- Light-fast, high aging-resistance
- Stretched on frame
- Stapled on the back
- Robust and stable stretcher bars
- Wood from sustainable forestry
- Grammage 350 g/m<sup>2</sup>

Formats range:

Square

Rectangle

Panorama

AQUA is the world's first real watercolor canvas stretched on to frame, engineered and made by MH&P in Berlin. AQUA's soft, harmonious surface structure ensures the excellent flow and brilliance of watercolors. The surface is sturdy and even withstands heavy artistic handling thanks to a special finish. Once the paint is completely dry, the canvas tightens itself – like magic!

AQUA canvas opens the door to even more watercolor creativity and a whole new painting experience. AQUA is stretched on a robust wooden frame and ready to hang after painting. Excellent for all watercolor techniques, especially for wet-on-wet glaze painting. Also successfully proven and perfectly suited for acrylics, gouache, and tempera.

# MOTIF FRAMES

## STRETCHED CANVAS WITH COLORING DESIGNS

Stretched canvas with printed designs on a bright-white surface that makes colors appear vibrant.

MH&P's canvas for coloring designs is ideal for traditional painting techniques and all modern applications: markers of all types, fine liner pens, acrylics, aqua-drops, spray paints, pouring techniques, and many more. No bleeding effect thanks to a non-absorbent surface, which also saves color consumption.

Sturdy frames are either made of pine or spruce from sustainable forestry or MDF depending on size.

The TANGLE series features designs for fun and long coloring sessions. TANGLE can be a therapeutic experience and perfect to relax and reduce stress.

More than 60 designs are available.

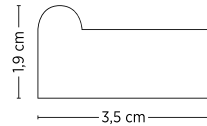

Modern and fun sketches for coloring and embellishing. Exclusive designs by well-known Berlin artist Gris, featuring his unmistakable style exclusively for MH&P Das Keilrahmen Werk®.

More than 50 sketches for creative inspiration and imagination.

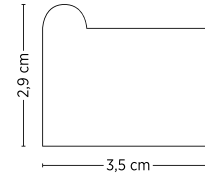

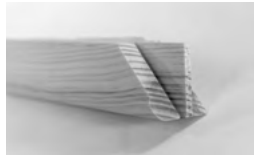

# STRETCHER BARS

## BASIC

## XL

This impressive stretcher bar makes an artistic statement in all formats. Standard sizes: 30 – 400 cm every 10 cm. Custom sizes on request, special designs up to 600 cm length.

## PRECISELY MANUFACTURED FOR CONSISTENT, PREMIUM QUALITY

Our tongue-and-groove stretcher bars are made of carefully selected pine and spruce from sustainable, European forestry. All wood is professionally kiln-dried, finger-jointed, and knot-free to prevent warping and provide highly robust and stable stretcher bars.

Stretcher bars are manufactured on specialty machinery for precise milling of the tongue-and-groove on each end of the stretcher bar. Stretcher bars from MH&P have accurate edges to ensure perfectly right-angled frames. The wood profiles feature smooth and round bevels to provide enough space between the stretched canvas and stretcher bar surface. The thicker stretcher bars XL, Galerie, and U.S. make an impressive statement, especially on large formats thanks to the depth of the profile.

Support and cross bars are available for all profiles. Different wood qualities of wedges are also available.

MH&P also provides finished assembled frames as a service to save customers time and work.

## PRIVATE LABEL AT 3,000+ UNITS

### **Private Label: Expertise, Premium Quality, Reliable Production**

Anything from one-off custom sizes to fully automated large-scale productions under one roof in Berlin, Germany. MH&P is one of Europe's leading and most flexible producers of stretched canvas and related supplies and services. Thanks to over 30 years of stretching experience, our skilled team, and flexible automation, we can fulfill almost any request.

Over 20 years ago, we invented canvas stretching and frame assembly machines to automate our own production. Today, our engineering division MH+P TECHNOLOGY is a well-recognized machine building company that automates factories around the world with machines for digital and artist canvas products – engineered by producers for producers. You can benefit from our expertise in the industry.

In addition to the MH&P product portfolio, we cater to your individual needs and branding. MH&P is your ideal OEM production partner.

MH&P's strengths are your advantages:

- Professional service with real people for transparent communication.
- High production flexibility for small to large orders, and standard to custom products.
- Private label with your logo. We can even check for compliance with labeling requirements.
- Fast turnaround and on-time delivery. We do our best to support urgent orders with speedy production.
- Made in Berlin!

## SERVICE

### **Large Formats**

We are a large format specialist and produce formats like 140 x 200 cm and 160 x 160 cm every day. We manufacture just-in-time with short lead times for a large range of our canvas materials and stretcher bars. MH&P also takes care of safe packaging and shipping.

### **Small, Medium, Large Productions**

Our strong supply chain, high-capacity production, and ideal geographic location in Berlin are the perfect ingredients for short lead times on orders of all volumes. Talk to us about pricing for 20, 200, 2,000, 20,000, and more units.

### **Custom Sizes**

We offer bespoke sizes down to the millimeter for stretcher bars, canvas, and stretched canvas. Contact us with your needs.

### **Special Designs and Materials**

Our engineering team plans museum-level projects with special designs and materials according to your needs. MH&P can plan, produce, assemble, and install sizes up to 400 x 800 cm. Are you looking for special materials for outdoor use, B1 suitability or other unique requirements? Ask our specialists!

### **Drop Shipping**

We offer optional white label drop shipping to your customers. Save yourself the hassle of storage, handling as well as costs and emissions from double shipping.
