NITRAMTM MC

TRADITIONAL NITRAM ~ HARD, MEDIUM, SOFT

Nitram H Charcoal (5mm)

Nitram H can be sharpened to an extra fine point for creating fine detail in your drawing. Also, the unique hardness of Nitram H makes lighter and mid tones easier to attain.

Five (5) bâtons per package

Nitram HB Charcoal (5mm)

This medium soft charcoal is the one most preferred for drawing and sketching. Nitram HB's superior hold is perfect for homogenizing tones and retaining tonal detail.

Five (5) bâtons per package

Nitram B Charcoal (5mm)

For the discerning artist that requires a rich black for drawing, then Nitram B is the answer. It is very soft, yet is still able to carry a fine point for working rich blacks into the paper or canvas.

Five (5) bâtons per package

NITRAM ~ EXTRA SOFT

Petits Bâtons (6mm)

For use in figure drawing at the studio

The advantage of Nitram is its ability to not crumble or skip when used expressively. Studio time is precious – you shouldn't have to worry about your charcoal.

Five (5) bâtons per package

Bâtons Moyens (8mm)

Ideal for the visual artist

Nitram Charcoal has the advantage of rich blacks and a wider range of shades. This helps the artist to refine the values that will later define the finished piece.

Five (5) bâtons per package

Bâtons Épais (12mm)

For the artist who works in the large

Nitram's superb quality ensures that it does not crumble under pressure so you can express yourself with confidence. Behind every great painting is an exceptional drawing – Nitram helps.

Five (5) bâtons per package

NITRAM ~ LIQUID & POWDERED CHARCOAL

Nitram Liquid Charcoal

Paint with Charcoal

Nitram Liquid Charcoal is water soluble, so you can adjust the values from very light to a deep, rich black. Straight out of the tube, it is as thick as oil paint - you could even use a palette knife. It dries very fast.

Contains one (1) 50mL Tube of water soluble Liquid Charcoal

Nitram Powdered Charcoal

Extra Fine velvety smooth powdered charcoal

EXTRA FINE, EXTRA SMOOTH
Nitram Powdered Charcoal is milled to an extra fine, uniform 100µ particle size. It is smooth, velvety and consistent. It has no coarse or grainy lumps that can mar the surface of your paper. You can use a brush or a paper stump to create shapes and tones quickly and easily. The uses are limited only by your imagination!

Contains one (1) 175g Tin of Powdered Charcoal
