# MASTERPIECE serie 107/S

## Secret is on the tip!

- ✓ Extrafine tip:  
extreme precision
- ✓ Perfect shape return
- ✓ Long tufts out of ferrule:  
for a more flexible and sinuous line

- ✓ Longer tufts inside the  
metal ferrule
- ✓ Better balance of tip and  
better balance of «nerve life»
- ✓ high elasticity of fibers

The Sable Kolinsky – high precious hair – is fully replicated with the new Borciani Synthetic Sable Kolinsky MKS in the range 107/S. These new brushes are perfect for the fairly diluted painting techniques such as:

- light glazes with oil
- acrylic color
- gouache
- watercolor

The **greater part of tufts out of ferrule** allows an high absorbency of color with a slower and uniform release.

The nerve life (characteristic of this natural hair) is perfectly replace in MKS Synthetic Sable Kolinsky and it gives a better performance to the brush.

The brush stroke is flexible thanks to the long and tapered tank.
