

CONCEALED SOLUTIONS FOR SANITARYWARE

SOLUTION - QUALITY - CERTIFICATION - INNOVATION - SUSTAINABILITY - CUSTOMER SERVICE

All our products are designed and developed in order to meet the most demanding international standards along with voluntary certification schemes. Our approach to quality starts at the design stage and is followed through the manufacturing and distribution process. All SIAMP products are subjected to rigorous and intense tests, using our own, and third party test laboratories; **our supporting frames are subjected to loads of 400 kg or 150 kg and our flushing systems to 200 000 cycles repetitive performance and endurance tests.**

SIAMP is the origin of many innovations in the world of toilets and puts all its resources into designing and manufacturing innovative and eco-efficient solutions that guarantee hygiene, comfort and responsible management of water.

WORLDWIDE PRESENCE

A SPECIALIST AT YOUR SERVICE FOR MORE THAN 75 YEARS

Founded in 1947, SIAMP designs and manufactures innovative sanitary products for the bathroom environment : wall hung solutions, flush plates, flushing technology, cisterns and seat covers. Whether it's a commercial project or the renovation of a domestic bathroom, SIAMP has the solution.

Pioneer of the plastic seat cover and now a global leader of flushing technology, SIAMP is the brand chosen by leading ceramic manufacturers to provide the flushing solution throughout the world.

Besides the head office based in Monaco, SIAMP is present across 5 continents through a network of 9 sales subsidiaries,

7 production sites and hundreds of distributors, for the benefit of millions of users.

To remain a sanitary specialist in this evolving market, we invest in new technologies to develop new products and perfect the efficiency of manufacturing.

Understanding the importance of water sustainability, SIAMP continues to develop technical solutions to protect this resource for future generations.

SIAMP is regularly at the origin of innovation recognised by a large number of international patents.

CONCEALED CISTERNS FOR CONSTRUCTION PROJECTS

The design, functions and reliability of our sanitary solutions impose SIAMP as the everyday partner of architects and building designers.

SIAMP presents **INTRASLIM**, the optimized and universal solution for the toilets. Concealing the cistern brings modernity and lightens your WC room.

A WIDE RANGE OF FLUSH PLATE

Choose the material, the colour, the surface and the design to match your bathroom's decoration.

2 FLUSHING TECHNOLOGIES

- Mechanical actuation: the most popular actuation solution on the market ensuring simplicity and efficiency.
- Pneumatic actuation: offset for diminished people use or for respecting the fire safety regulation, it offers a great flexibility of installation position.

VERSATILE

INTRASLIM concealed cisterns can be coupled with back to wall or wall hung bowls. Robust, our structures

resist to a 400 kg load.

Cisterns can be fixed bricklaying or attached to a supporting wall with a light cladding as plasterboards. They can be flipped to offer a back access to inner active components when installed into a dry riser.

CONFIDENCE

100% of SIAMP's expertise is at the heart of Intraslim. As a world flushing technology specialist, SIAMP provides a high performance concealed cistern in terms of flush efficiency and reliability. INTRASLIM complies with

- 18** flush plates designs
- 48** flush plates options
- 90** mm thick

CONCEALED CISTERNS FOR BACK TO WALL SANITARYWARE

Intended for concealed installations for back to wall WCs.

INSTALLATION

BEHIND CLADDING

Intraslim is the product for this type of installation as the flush plate acts as an access panel that will allow for easy maintenance.

Intraslim is a versatile installation product thanks to its 90 mm depth. It can be fixed into a wet wall via masonry or into a light wall using light cladding.

Intraslim Pneumatic allows for remote flushing up to 2m away. The cistern can be reversed 180° for installation in commercial dry risers, for ease of maintenance access.

FURNITURE INSTALLATION

Intra has been the choice of bathroom furniture manufacturers for many years, with its compact dimensions, pre-assembled fittings, adjustable flushpipe and access panel for easy maintenance.

Intra is the ideal solution.

INGENIO CISTERN FRAME

Designed for the professional installer

Fast installation

- Concealed light wall installation
- Structure load bearing to 400kg
- Feet delivered in the installation position
- Self-braking vertical adjustment accurate height setting
- Snap & click, wall mounting rods
- Dual flush, on site adjustable mechanical flushing
- Inlet valve:
 - Compact 95L
 - QUIETO delayed action ultra quiet inlet valve 9 dB
- Insulated cistern with protection against foreign bodies
- Secure water connection inside the cistern, built-in stop valve accessible through flush plate.

Optional 90° drain connection kit :

- HDPE Ø 90 mm male
- HDPE Ø 100 mm male
- HDPE Ø 110 mm male
- PVC Ø 100 mm male

INGENIO SELF STANDING FRAME

Universal fixation :
Supporting ground and/or supporting wall

QUIETO OD the solution for the quietest filling on the market, acoustic level of only 9 dB

STRAIGHT STOP VALVE

- Allows a continuous water flow unlike an angled stopcock.
- Integrated flexible pipe.

INNOSIAMP

A unique combination that allows the flow of water whilst gradually reducing the pressure.

CURVED

Accompanies the water flow.

TINY MARBLES

A case full of tiny marbles reduces the water flow pressure entering in the inlet valve.

DELAYED ACTION OPENING INLET VALVE

- Water saving.

WALL HUNG SANITARYWARE LOW HEIGHT - LIGHT WALL

VERSO 800 Supporting wall fixation

VERSO 800 CISTERN FRAME

Small & compact

Secure water connection inside the cistern

- Concealed light wall installation
- Structure load bearing to 400kg
- Dual flush, onsite adjustable mechanical flushing
- Insulated to prevent condensation
- Fill valves:
 - Compact 95L
 - Compact 95 L delayed action
- Brass stop valve

Optional 90° drain connection kit:

- HDPE Ø 90 mm male

- HDPE Ø 110 mm male
- PVC Ø 100 mm male

VERSO 800 Supporting ground fixation

Dedicated flush plates for Verso 800

BIDET LIGHT WALL

Ultra adjustable

400 kg resistance

- Concealed light wall installation
- Supporting wall fixing structure load bearing to 400 kg
- Bidet height adjustment
- Variable distance for fixing bolts
- Water supply and drainage connections included

WASHBASIN LIGHT WALL

Ultra adjustable

150 kg resistance

- Concealed light wall installation
- Supporting wall fixing structure load bearing to 150 kg
- Washbasin height adjustment
- Variable distance for fixing bolts
- Water supply and drainage connections included

URINAL LIGHT WALL

Ultra adjustable

150 kg resistance

- Concealed light wall installation
- Supporting wall fixing structure load bearing to 150 kg
- Urinal height adjustment
- Variable distance for fixing bolts
- Water supply and drainage connections included

HYBRID WC - BIDET FRAME

SCB 350

Supporting ground & supporting wall fixation

SCB 350 WC / BIDET FRAME

Multipurpose frame

- Structure load bearing to 400kg
- Accepts flush supply sleeves from Ø30 to Ø50mm
- Accepts WC drain connections from Ø90 to Ø120mm
- Accepts bidet drain connection from Ø38 to Ø45mm

WALL HUNG SANITARYWARE LOW HEIGHT - FURNITURE

INTRA FURNITURE + SCB 350

Compact
Self-supporting

INTRA FURNITURE

- Concealed furniture installation
- **Mechanical or pneumatic**, double or simple flush front commands
- Adjustable double flush outlet valve
- Adjustable noiseless float valve

SCB 350

- Self-supporting structure load bearing to 400kg
- Accepts flush supply sleeves from Ø30 to Ø50mm
- Accepts WC drain connections from Ø90 to Ø120mm

790

Supporting wall fixation

BCM 790

The low height solution

Ideal for below windows & cloakrooms

- Wall fixing structure load bearing to 400 kg
- Dual flush, on site adjustable mechanical flushing
- Inlet valve:
 - Compact 95L
 - Compact 95L delayed action
- Brass stop valve
- Insulated to prevent condensation

Optional 90° drain connection kit :

- HDPE Ø 90 mm male

- HDPE Ø 110 mm male
- PVC Ø 100 mm male

790

Supporting ground fixation

Low Self-supporting

FLUSH PLATES

FLUSHING OPTIONS:

AUTOMATIC OPERATION:

This system is the preferred solution for public places to ensure that the WC will always be clean and available for the next use.

Those touchless flush plates prevent bacteria transmission.

MECHANICAL ACTUATION:

The most popular flushing mode on the market, efficient flushing and simplicity of installation.

REMOTE:

Designed to place the flush actuator at hand reach. To ease the flushing, buttons can protrude for palm or fist pushing. A complete range adapted to diminished people.

INSPIRED COLLECTIONS:

DESIGN: Available in different models and various decorative finishes, lightweight and resistant to shocks.

MATERIAL: The purity of tempered glass with its clean forms, the Reflet range offers elegant control plates with depth effects. Resistant and noble metal alloy bring consistence to SMART.

CREATIVE: Following current trends, our range of creative plates will allow you to achieve a welcoming and original look thanks to a choice of colours and styles.

ESSENTIAL: Simple but effective, lightweight and resistant to shocks.
