

S+S REGELTECHNIK

# RYMASKON®

BUS-CAPABLE ROOM CONTROL UNITS  
FOR INDIVIDUAL ROOM CONTROL

EFFICIENT, INTERCONNECTIVE AND CONVENIENT

PRODUCT RANGE 2022

JAHRE GARANTIE  
★★★★★  
YEARS WARRANTY

MADE IN GERMANY

FÜHLBARE PRÄZISION

## CHARACTERISTICS

- > Modbus RTU interface (RS485)
- > Integrated **temperature and humidity sensors**
- > 3 digital and 1 universal input
- > Compact housing (94.5 x 110 x 19.5 mm)
- > Programmable **LCD** multifunctional display with RGB backlighting - configurable in colour (7 predefined settings possible), intensity and overall brightness
- > 4 to 8 touch **function buttons**
- > International symbols
- > Menu-driven configuration
- > **Buzzer** for operating tone, error and alarm warnings
- > Infrared proximity sensor

THE SELF-SUFFICIENT

# RYMASKON® 400-Modbus

## CHARACTERISTICS

- > Modbus RTU interface (RS485)
- > Integrated **temperature sensor**
- > 2 digital inputs and  
2 digital or analogue outputs
- > Suitable for decentralised individual room control
- > Flat housing (88 x 173 x 15.5 mm)  
with **glass front** panel in piano lacquer finish
- > Programmable **LCD** multifunctional display  
with dimmable backlighting
- > Menu-driven configuration  
via recessed **rotary encoder**  
with input button
- > 6 freely assignable touch **function buttons**
- > International symbols
- > Infrared proximity sensor

THE VERSATILE

# RYMASKON® 500 / 600 / 700

**NEW**

## NEW ROOM CONTROL UNITS WITH TOUCH DISPLAY FOR INDIVIDUAL ROOM CONTROL

In addition to the previous **RYMASKON®** 200 and 400 series, three further innovative product ranges are available for room climate technology.

The new **RYMASKON®** 500 (Thermostat), 600 (Controller) and 700 (Interface) series are characterised by a wide range of configuration and application options. They are particularly suitable for networked applications and enable efficient control of the indoor climate in cross-building energy management systems in accordance with ISO 50001. Typical applications are heating and cooling systems, including cooling ceilings, floor heating and convector fans.

A **colour touch display** with international symbols enables settings to be changed on site according to needs. The user-friendly design in the flat, elegant housing blends harmoniously into any interior design.

RYMASKON® Comparison table (basic model)		Type 510 Thermostat	Type 610 Controller	Type 710 Interface
<b>Outputs</b>	Relay output for heating / cooling	1	–	Bus
	Analogue output (0–10 V) Heating / cooling 6-way valves, fan	–	3	Bus
<b>Function</b>	Sun protection (max. 2 zones)	●	●●	●●
	Light / room lighting (1 zone)	–	●	●
	Air Conditioning (1 Zone)	●	–	●
<b>Sensors</b>	Temperature (°C / °F)	●	●	●
	Humidity (% RH)	●	●	●
	CO2 (ppm)	–	○	○
<b>Inputs</b>	Digital input	1	1	1
	Analogue input (0...10V)	–	2	–
	Resistance input (NTC10K)	2	–	2
More type versions in various configurations available upon request!				○ = optional

## CHARACTERISTICS

- > Controls of heating and cooling valves, even 6-way valves.
- > Fan control (EC fan, fan speeds)
- > Air conditioning and interior light control (on/off) in one zone
- > Sun protection control (shutters, blinds) in max. 2 zones
- > Integrated sensors for temperature, humidity and CO<sub>2</sub> (optional)
- > Connection option for two external temperature sensors (NTC10K)
- > RS485 interface for Modbus RTU or BACnet
- > Different channel configurations and other type versions available upon request
- > Elegant, flat housing in white for assembly on standard in-wall flush box
- > 3.5" touch display (approx. 50x75 mm; 255,000 colours, resolution of 320x480 pixels) with background lighting
- > Graphic user interface with intuitive symbols
- > Configuration tool for convenient setting and transfer of the operating and function parameters

## RYMASKON® 500 Thermostat

The thermostat directly regulates the **heating or cooling valve** via the relay.

The **sun protection** (shutters, blinds) can be controlled in one zone via the bus.

It is also possible to control an **air conditioning** (AC) in one zone.

In addition to the integrated sensor, two **external temperature sensors** (NTC10K) can be connected.

### RYMASKON® 500 / 600 / 700 STATUS DISPLAYS

- °F/°C TEMPERATURE UNITS
- DISPLAY LOCK
- ALARM (INFORMATION)
- BUS NOTIFICATION
- FROST PROTECTION
- ECO MODE
- OFF MODE
- PARTY MODE (BOOST)
- CLEANING MODE

### RYMASKON® 500 / 600 / 700 SENSORS

Room  
**20.1**

Room temperature  
[°C/°F]

Outside  
**10.5**

External temperature  
[°C/°F]

Humidity  
**45**%RH

Relative humidity  
[%RH]

### RYMASKON® 500 FUNCTIONS

Sun protection  
(1 zone)

Air conditioning  
(1 zone)

## RYMASKON® 600 Controller

The controller regulates up to two **heating or cooling valves** and 6-way valves or fans (blower speeds, EC ventilator) via analogue outputs (0-10 V).

The **sun protection** (shutters, blinds) can be controlled in max. two zones via the bus.

Instead of a sun protection zone, a **light zone** can be alternatively controlled.

## RYMASKON® 700 Interface

The interface controls **heating or cooling valves, fans** (blower speeds) and the **sun protection** (shutters, blinds) in max. two zones.

Alternatively a **light zone** and/or an **air conditioning** (AC) can be controlled.

In addition to the integrated sensors, two **external temperature sensors** (NTC10K) can be connected.

### RYMASKON® 600 FUNCTIONS

### RYMASKON® 600 with CO2 SENSOR

### RYMASKON® 700 with CO2 SENSOR

without alarm levels

### RYMASKON® 700 FUNCTIONS

S+S REGELTECHNIK

S+S stands for a fully integral value chain. All products are designed, developed, manufactured and programmed in-house.

The new S+S company headquarters on a total area of 14,000 m<sup>2</sup> in Nordostpark on the outskirts of Nuremberg offers a seamlessly integrated production and development environment with excellent air and road links.

### A PASSION FOR INNOVATION

S+S Regeltechnik defines itself as a flexible and reliable partner for your requirements, from the single device to networked facility and industry automation. To us, innovation means to lead the market both in technology and in quality. This is how we back up your investment in products that express our passion for precision.

### BROAD PORTFOLIO

Our sensors, transmitters, thermostats, hygrometers, monitors, controllers and room climate controllers for facility and industry engineering are designed to be multifunctional. This reduces the diversity of types and expands their application potential. Thanks to microprocessor technology, almost any measuring range can be represented, including custom specifications.

### SUPERIOR QUALITY & CERTIFIED SAFETY

All devices are function tested as well as calibrated in-house prior to shipment and meet strict safety, quality and sustainability standards.

You can find technical data and further information in our web shop or catalogue.
