

# FRAP ROSSO

## SUSPENSION ARM WITH STIFF TECHNOLOGY FR70™

More control, more performance

The **STIFF TECHNOLOGY FR70™** includes stiffest components which guarantee better braking, acceleration and cornering performance.

Thanks to this improvement, The **Suspension arms and Silentblock** of the **FRAP ROSSO** range have an extraordinary durability and drastically reduce wear and noise even on the most problematic cars.

In some vehicles the original silentblock absorbs stresses only with two small rubber surfaces.

The **STIFF TECHNOLOGY FR70™** of **FRAP ROSSO** range provides a more robust and technologically more advanced Silentblock.

Find out more about the **FRAP ROSSO** range  
on **WWW.FRAP.IT**

# SUSPENSION ARMS WITH STIFF TECHNOLOGY FR70™

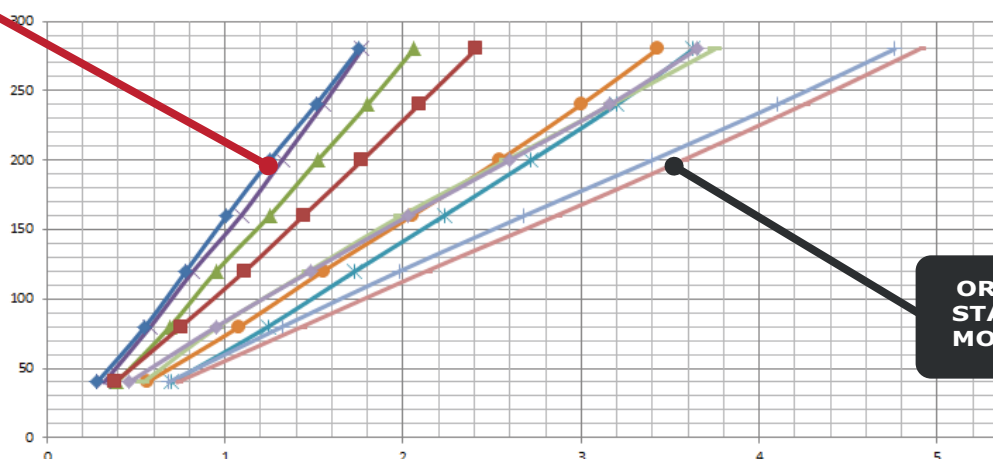

More control, more performance

**FRAP**  
presents you **FRAP ROSSO**  
the range of Suspension arms and  
Silentblock equipped with  
**STIFF TECHNOLOGY FR70™**.

Mounting a pair of **FRAP ROSSO** arms  
means having the highest technological result of  
**FRAP**, result of 90 years of specialization in  
the design and production of suspension components.

Be equipped with the **STIFF TECHNOLOGY FR70™**,  
means to guarantee your car a response up to 70% higher,  
than the original standard mounting.

**FRAP  
CHOICE  
+70%**

**ORIGINAL  
STANDARD  
MOUNTING**

## RESEARCH AND DEVELOPMENT

**FRAP ROSSO**

The **FRAP** research and development  
department has designed and tested the new  
**POM** bushing solution, which drastically reduces the  
premature wear and noisiness of the original standard  
mounting.

This technology is applied on the part numbers  
**F2427FR** and **F2428FR**

The **FRAP** research and development department has designed two innovative solutions regarding **SUSPENSION BALL JOINT FRAP ROSSO**

PEUGEOT 407, 508 - CITROEN C5, C6

**F3666FR**

The suspension ball joint **FRAP ROSSO** allows you to correct the looseness that is created between the pivot and the joint, thanks to the modulation of the thickness between the pivot support and the flange, known defect of the original mounting.

PEUGEOT 407, 508 - CITROEN C5, C6

**F5563FR**
