

AUTOMOTIVE SPARE PARTS

PROUDLY MADE IN ITALY SINCE 1946

FACET[®]

TECHNOLOGY IS A **PART** OF US

FACET, FIRST OF ALL MANUFACTURERS

Since 1946, in Facet we design, manufacture and distribute automotive spare parts, predicting international market's need automotive and aftermarket sectors.
From day one, our commitment pursues innovation and grows to develop increasingly complex and sophisticated product lines.

MISSION: EXCELLENCE

We provide our customers **OE equivalent components with very high-quality standards**, come out from the high experience of decades in the field in the industry and proven technological know-how. Every year we place on the global market **4.8 million parts** and we cover **98% of vehicle applications in the European market**.

Our concept of quality builds on four pillars:

- **OE EQUIVALENT**
- **DEVELOPMENT**
- **TESTING**
- **MADE IN ITALY MANUFACTURING**

98% COVERAGE OF
VEHICLE APPLICATIONS
IN THE EUROPEAN
MARKET

A cap with a rotor: a “historical” product from 1966.

A last-generation MAF (Mass Air Flow)

The first historical FACET headquarters, founded in 1946.

The current FACET headquarters, in Collegno.

TECHNOLOGY AND DEDICATION TO INNOVATION

We provide international partners and selected technological **know-how, production efficiency and reliability** to guarantee them **quality standards of Made in Italy products** and the level of innovation they expect from us.

From generation to generation, we have preserved the values of a family business: love for what we do, dedication, commitment to improve.

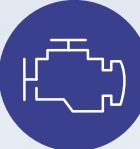

OUR GOAL? BE FLAWLESS!

We face daily work “with philosophy”: Kai-Zen, from Japanese. “change for the better”. At Facet we **organise production processes, technologies and spaces according to the four principles: continuous improvement, simplification, speed and enhancement of the person**. Every day, every attempt to pursue these goals, our every effort represents a step towards perfection.

FROM DESIGN TO THE INTERNATIONAL MARKETS

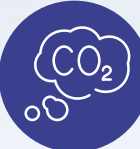

Sensors, thermostats, switches, exhaust management and ignition components: the range of Facet products range is one of the widest on the market and includes more than 4,300 references for all European, Japanese and Korean brands.

4.8 MILLION PARTS ARE PRODUCED EVERY YEAR

SENSORS

More than 1,000 products

EXHAUST MANAGEMENT

More than 900 products

THERMAL MANAGEMENT

More than 1.300 products

SWITCHES

More than 450 products

IGNITION

More than 750 products

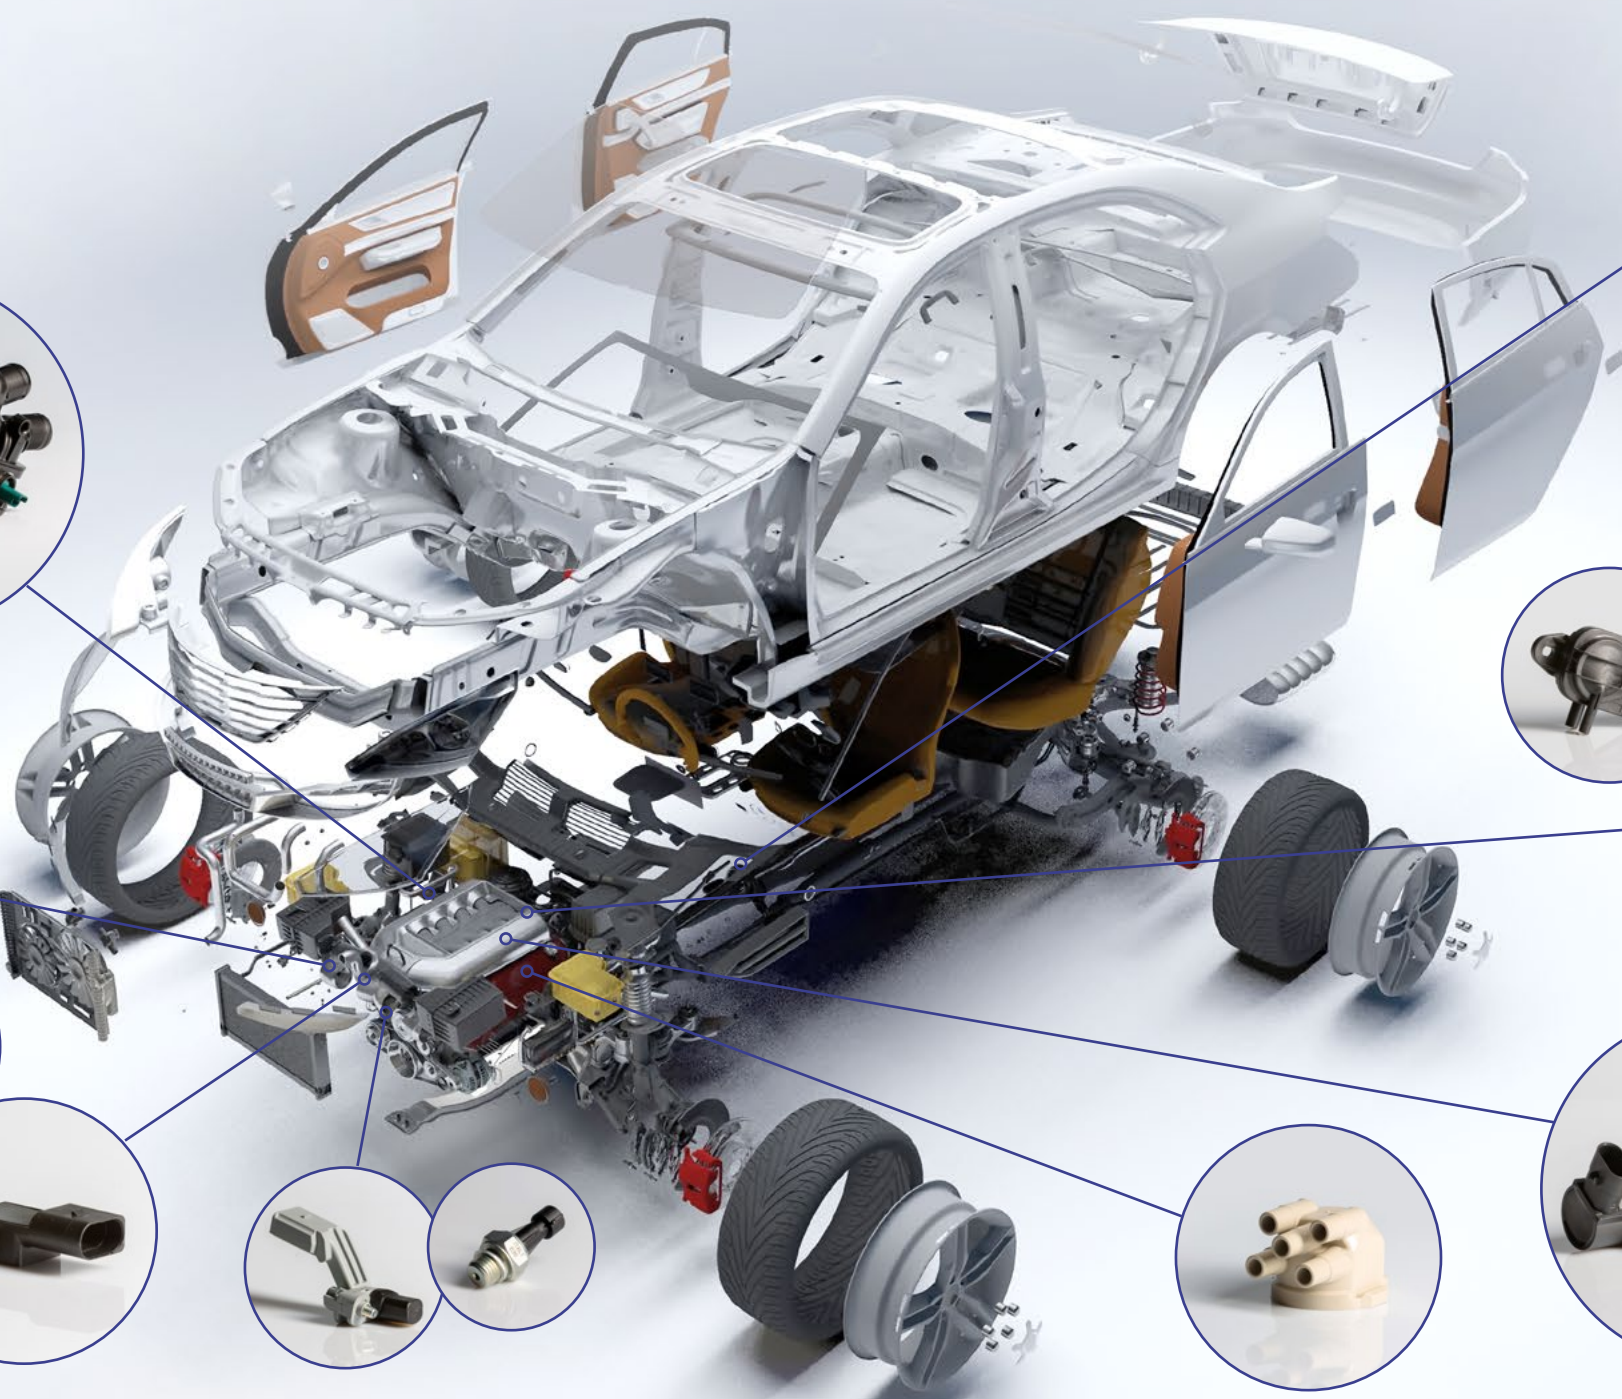

THERMAL MANAGEMENT

GASKETS FOR THERMOSTATS
COOLANT TEMPERATURE SENSORS

IGNITION CABLE SETS

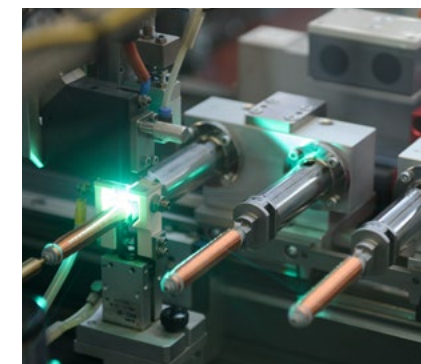

EXPERTISE

Our **highly specialised work team** uses **state-of-the-art technology** - from design to final inspection - applied to **production processes with excellent level of automation**. Since 1995, moreover, **the clean room in the site of Collegno** represents the productive heart of the “end-to-end” process for the **realization of “technological jewels”** such as MAF, DPS, MAP and EGT.

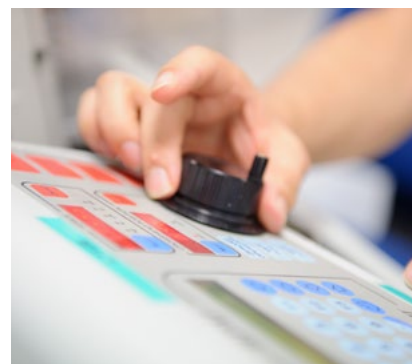

DEVELOPMENT

We guarantee the high performance of for all our products thanks to an **accurate analysis by reverse engineering of the original components**, supported by development processes based on Advanced Product Quality Planning Tools and CSR, allows us to **fully grasp the functionality of the products**. To ensure full control, we have **integrated quality management at every stage of the production process**.

TESTING

During the **testing phase** - in which we invest 12% of the annual turnover and 20% of the company surfaces - **we strictly follow the ISO9001 and IATF standards**. We carry out **more than 1,400 tests per year**. Our products **undergo manufacturer-specific test cycles that simulate repeated and intensive use** to achieve **performance equal, if not superior, of those of original components**.

CERTIFIED QUALITY AND RESPECT FOR THE ENVIRONMENT AND PEOPLE

The utmost attention to the quality of products, for the environmental impact of activities. and for the safety of the workplace are three different aspects of a single value: the respect we owe to those who work with and for us - customers, partners or employees - and to the territory that host us. Facet's Quality Management System is ISO 9001/2015 and IATF 16949:2016 certified.
