CATENE DA NEVE

SNOW CHAINS 2021/2022

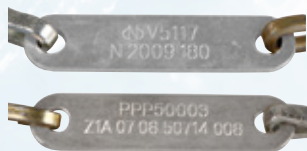

Catene da neve

Catene da neve costruite a regola d'arte e certificate, in ottemperanza al decreto 10 Maggio 2011, (Ministero delle infrastrutture e dei Trasporti, Gazzetta Ufficiale N. 185 del 10 Agosto 2011).

Dispositivi di aderenza supplementare omologati secondo le norme: **ÖNORM V5117 / V5119 EN 16662-1**

L'acciaio, gli spessori, la cementazione e tutti i processi produttivi sono garantiti da sistemi aziendali con processi di gestione e controllo qualità certificati ISO 9001 da oltre 20 anni.

Numero di omologazione stampigliato sulla piastrina, facilmente ispezionabile e leggibile dalle autorità anche con catena montata

In Europa non esiste una normativa unica che regola l'utilizzo delle catene da neve, infatti ogni singolo stato ha una propria legislazione in materia. Pertanto negli stati europei si possono verificare le seguenti situazioni:

- obbligo di catene a bordo
- obbligo di catene a bordo nel periodo invernale
- nessun obbligo di catene a bordo

Si consiglia comunque, prima di iniziare un viaggio, di reperire le opportune informazioni sul paese di destinazione (e dei paesi di transito).

In ogni caso, per fugare ogni dubbio, per la propria sicurezza e per quella degli altri, tenere sempre le catene a bordo nei periodi invernali.

COPPIA CATENE DA NEVE A MONTAGGIO ESTERNO

- Zero mm di ingombro interno, indicata per le vetture non-catenabili o con severe limitazioni di ingombro, tipiche delle vetture sportive di ultima generazione.
- Si fissa ad uno dei bulloni originali del cerchio (esagonali, non a quello antifurto).
- Gli elementi di regolazione permettono di adattarsi perfettamente a diverse misure di pneumatico.
- Battistrada composto da un monoblocco di catena circolare, senza interruzioni e senza giunzioni, mantenuto in posizione da 4 piastre in resina plastica con inserti rompighiaccio in acciaio temprato.

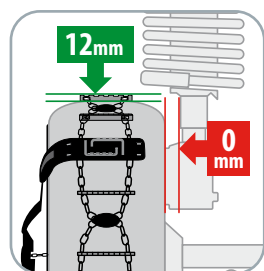

PAIR OF SNOW CHAINS FOR EXTERNAL MOUNTING

- Zero millimeters of internal dimensions, suitable for non-chainable cars or with severe limitations of overall dimensions typical of the latest generation sports cars.
- Attaches to one of the original rim bolts. (hexagonal, not the anti-theft one).
- Adjustment elements allow for perfect adaptation to different tire sizes.
- Tread composed of a single-block of circular chain, without interruptions and without joints, held in position by 4 plastic resin plates with ice-breaking inserts in hardened steel.

CARATTERISTICHE TECNICHE

- Pratico sistema di tensionamento con tirante in gomma. Montaggio facile, rapido e senza fatica.
- Dotate di riduttori di diametro per una adattabilità perfetta su diverse dimensioni di pneumatico.
- Battistrada costituito da un anello monoblocco di catena bifilare in acciaio al manganese mantenuto in posizione sullo pneumatico da 4 traversini "True-Grip" con rompighiaccio incorporato che contribuiscono ad avere una costante trazione sia su neve che ghiaccio.
- I traversini dotati del sistema di fissaggio "Flex-Joint" in acciaio inox passante, assicurano un'ottima flessibilità tra la catena e gli inserti rompighiaccio garantendo una perfetta aderenza tra battistrada, catena ed asfalto.
- Completamente ripiegabili quando non in uso, occupano poco spazio nella pratica ed elegante borsa in nylon.

TECHNICAL FEATURES

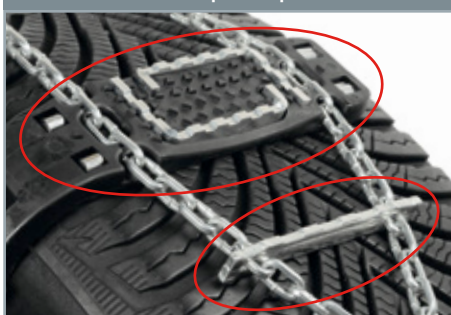

- Practical tensioning system with rubber tie rod. Easy, quick and effortless installation.
- Equipped with diameter reducers for a perfect fit on different tire sizes.
- Tread consisting of a mono-block ring of two-wire manganese steel chain held in position on the tire by 4 "true-grip" crosspieces with built-in ice pick that contribute to constant traction both on snow and ice.
- The plastic resin plates equipped with the "flex-joint" fixing system in stainless steel through, ensure excellent flexibility between the chain and the ice pick inserts ensuring perfect adherence between the tread, chain and asphalt.
- Fully foldable when not in use, they take up little space in the practical and elegant nylon bag.

Montaggio su bulloni da 17, 19, 21, 22 mm
Fits on 17, 19, 21, 22 mm bolts

RX-7

COPPIA CATENE DA NEVE A MAGLIA SPECIALE, 7 MM DI INGOMBRO INTERNO

Ideali per tutte le vetture con problema di catenabilità.

- Prodotte in acciaio speciale al manganese cementato per una maggiore resistenza all'usura.
- Sistema di auto-tensionamento: dopo il montaggio ed il tensionamento manuale, la catena può tendersi ulteriormente in modo automatico evitando ulteriori fermate durante la guida.
- Battistrada a rombo con maglie ritorte.
- Cavo interno flessibile per un montaggio facile senza sollevare e spostare la vettura.
- Cricchetto e ganci di rinvio in resina composita ideali per non graffiare i cerchi in lega.
- Guanti di protezione e maglie di riparazione in dotazione.

PAIR OF SNOW CHAINS WITH SPECIAL TWISTED LINKS, 7 MM ULTRA-SLIM FIT

Special series for vehicles with chain restrictions.

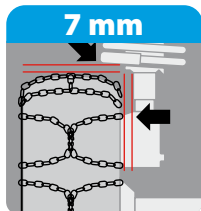

- Manganese steel for extra wear and tear resistance.
- Self-tensioning system: after the installation and the first manual tensioning, the chains tighten automatically while driving.
- No more stops for tensioning.
- Hardened special alloy steel with diamond pattern grip.
- Flexible internal cable for an easy and quick installation without moving or lifting the car.
- Composite plastic tensioning ratchet, ideal for preventing scratches on alloy wheels.

SnowDrive

COPPIA DI CALZE DA NEVE PER AUTO

- Approvate dall'ente di certificazione EN16662-1:2020 e Ö-NORM.
- Facili e veloci da montare, anche in condizioni meteo avverse.
- Incrementano l'efficienza dei sistemi elettronici di sicurezza (ABS, ESP, ETS, ASR, DSC,...).
- Adatte a tutti i veicoli con poco spazio tra ruota, carrozzeria ed ammortizzatori.
- Confortevoli durante la guida, non provocano vibrazioni o rumori (velocità massima 50 km/h).
- Autocentranti, non danneggiano i cerchi.
- Leggere e facili da riporre, riutilizzabili e lavabili in lavatrice.

PAIR OF SNOW SOCKS FOR CARS

- Approved by EN16662-1:2020 and Ö-NORM.
- Perfect temporary winter aid for vehicles.
- Easy to mount and dismount even in cold and difficult weather.
- Works on all vehicles with low clearance between the tyre and the body, as well as with all electronic safety systems (ABS, ESP, ETS, ASR, DSC,...).
- Comfortable while driving, does not cause noise or vibrations (maximum speed 50 km/h).
- Self-centering, no damage to alloy wheels.
- Lightweight and easy to store, reusable and machine washable.

Borsina / Bag 6

UTILIZZABILI PER L'OSSERVAZIONE DELL'OBBLIGO CATENE A BORDO

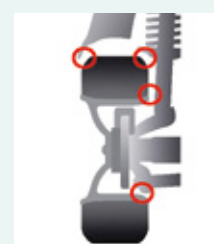

Il nuovo standard descrive i requisiti minimi per la sicurezza operativa, le prestazioni e la durata dei dispositivi di trazione invernale, indipendentemente dal materiale di cui sono fatti i dispositivi di trazione. Ciò significa che i dispositivi di trazione in tessuto, le catene da neve in gomma e metallo saranno d'ora in poi certificati secondo lo stesso standard e dovranno soddisfare gli stessi requisiti minimi.

The new standard describes minimum requirements for operational safety, performance and durability of winter traction devices - regardless of the material such traction devices are made of. This means textile traction devices, rubber and metal snow chains will from now on be certified according to the same standard and must meet the same minimum requirements.

VELOCI, PRATICHE E SICURE

Installazione facile e veloce che garantisce la massima sicurezza e migliora l'efficienza dei sistemi elettronici del veicolo.

IDEALI PER VETTURE DI ULTIMA GENERAZIONE

Adatte per tutti i veicoli con poco spazio tra ruota, parti meccaniche e carrozzeria.

Snow Gecko

COPPIA DI CALZE DA NEVE PER AUTO

- Approvate secondo le ultime normative EN16662-1 e Ö-NORM.
- Utilizzabili per l'osservanza dell'obbligo catene a bordo.
- Approvate dalle maggiori case automobilistiche.
- Facili e veloci da montare e rimuovere anche in condizioni meteorologiche avverse.
- Comode durante la guida, non provoca vibrazioni o rumori
- Autocentranti, non danneggiano i cerchi.
- Leggere e facili da riporre, riutilizzabili e lavabili in lavatrice.
- Adatte a tutti i veicoli con poco spazio tra ruota, carrozzeria ed impianto frenante.
- Incrementano l'efficienza dei sistemi elettronici di sicurezza (ABS, ESP, ETS, ASR, DSC).

PAIR OF SNOW SOCKS FOR CARS

- Approved by EN16662-1:2020 and Ö-NORM.
- Perfect temporary winter aid for vehicles.
- Easy to mount and dismount even in cold and difficult weather.
- Comfortable while driving, does not cause noise or vibrations.
- Self-centering, no damage to alloy wheels.
- Lightweight and easy to store, reusable and machine washable.
- Works on all vehicles with low clearance between the tyre and the body, as well as with all electronic safety systems (ABS, ESP, ETS, ASR, DSC,...).

Scatola / Box 12

UTILIZZABILI PER L'OSSERVAZIONE DELL'OBBLIGO CATENE A BORDO

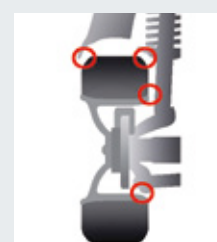

Il nuovo standard descrive i requisiti minimi per la sicurezza operativa, le prestazioni e la durata dei dispositivi di trazione invernale, indipendentemente dal materiale di cui sono fatti i dispositivi di trazione. Ciò significa che i dispositivi di trazione in tessuto, le catene da neve in gomma e metallo saranno d'ora in poi certificati secondo lo stesso standard e dovranno soddisfare gli stessi requisiti minimi.

The new standard describes minimum requirements for operational safety, performance and durability of winter traction devices - regardless of the material such traction devices are made of. This means textile traction devices, rubber and metal snow chains will from now on be certified according to the same standard and must meet the same minimum requirements.

VELOCI, PRATICHE E SICURE

Installazione facile e veloce che garantisce la massima sicurezza e migliora l'efficienza dei sistemi elettronici del veicolo.

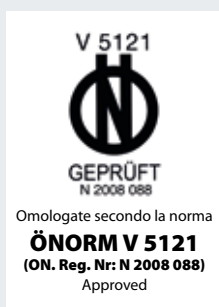

IDEALI PER VETTURE DI ULTIMA GENERAZIONE

Adatte per tutti i veicoli con poco spazio tra ruota, parti meccaniche e carrozzeria.

SNOWGECKO

Coppia dispositivi per la trazione invernale adatti per vetture con pneumatici di dimensioni normali

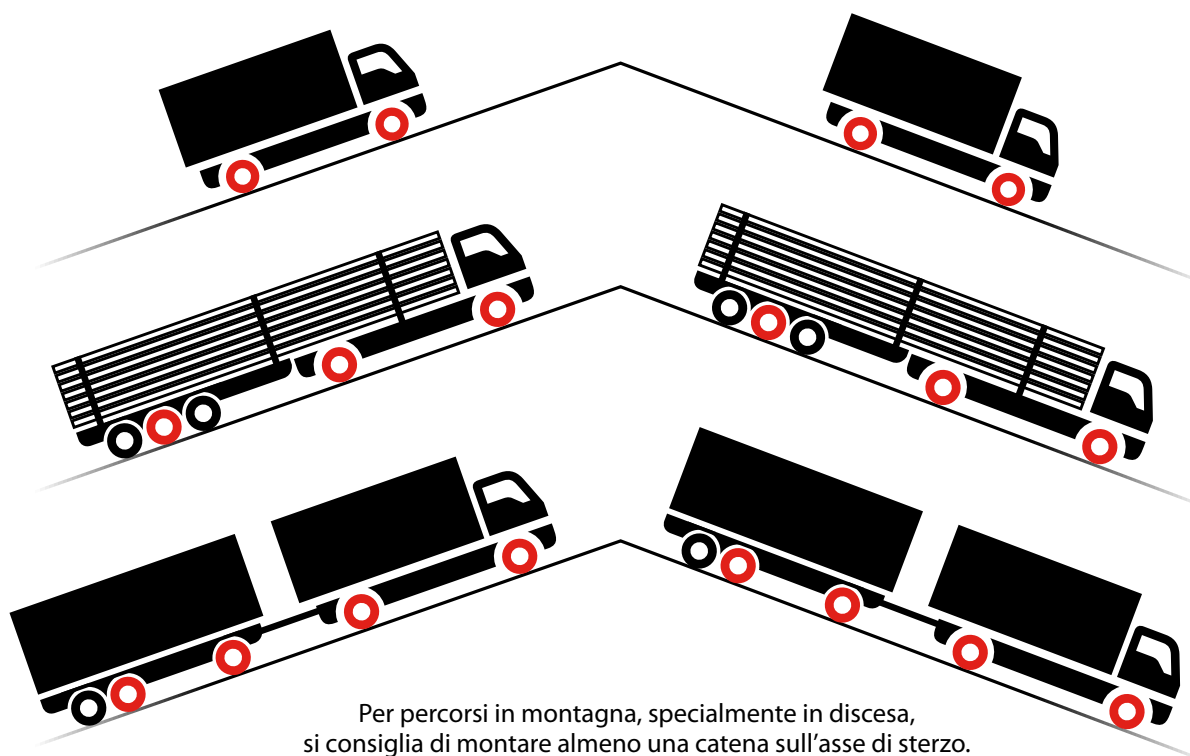

IMPORTANTE

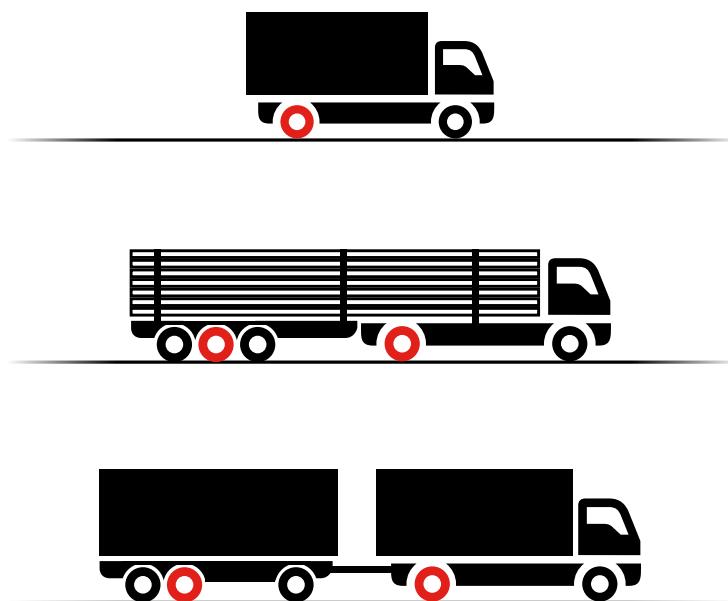

Consultare il libretto di uso e manutenzione del veicolo e verificare le indicazioni relative al montaggio delle catene da neve

Le catene vanno sempre montate sulle ruote motrici. Se il veicolo è a trazione integrale consultare il libretto di uso e manutenzione

Per percorsi in montagna, specialmente in discesa, si consiglia di montare almeno una catena sull'asse di sterzo.

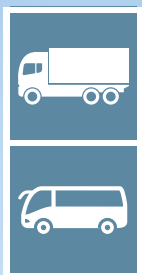

Le catene sono da montare sull'asse motrice e sul penultimo asse del rimorchio.

Autosock

COPPIA DI CALZE DA NEVE PER CAMION

Dispositivi antislittamento che mirano ad aumentare l'attrito delle ruote su strade innevate e con presenza di ghiaccio:

- Facili e veloci da montare e rimuovere anche in condizioni meteo avverse.
- Leggere e facili da riporre.
- Comode durante la guida, non provocano vibrazioni o rumori.
- Autocentranti, non danneggiano i cerchi.
- Riutilizzabili e lavabili in lavatrice.
- Adatte a tutti i veicoli con poco spazio tra ruota, carrozzeria ed impianto frenante.
- Incrementano l'efficienza dei sistemi elettronici di sicurezza (ABS, ESP, ETS, ASR, DSC).

PAIR OF SNOW SOCKS FOR TRUCKS

Developed tyre covers, aimed at increasing tyre-to-road friction when driving on icy or snowy roads:

- Easy to mount and dismount even in cold and difficult weather.
- Comfortable while driving, does not cause noise or vibrations.
- Lightweight and easy to store.
- Self-centering, no damage to alloy wheels.
- Reusable and machine washable.
- Works on all vehicles with low clearance between the tyre and the body, as well as with all electronic safety systems (ESP, ABS).

Borsina / Bag  6

AutoSock® è protetto da brevetto Europeo No. 1.165.329

The AutoSock® product is protected by European patent No. 1.165.329

UTILIZZABILI PER L'OSSERVAZIONE DELL'OBBLIGO CATENE A BORDO

Il nuovo standard descrive i requisiti minimi per la sicurezza operativa, le prestazioni e la durata dei dispositivi di trazione invernale, indipendentemente dal materiale di cui sono fatti i dispositivi di trazione. Ciò significa che i dispositivi di trazione in tessuto, le catene da neve in gomma e metallo saranno d'ora in poi certificati secondo lo stesso standard e dovranno soddisfare gli stessi requisiti minimi.

The new standard describes minimum requirements for operational safety, performance and durability of winter traction devices - regardless of the material such traction devices are made of. This means textile traction devices, rubber and metal snow chains will from now on be certified according to the same standard and must meet the same minimum requirements.

con guida alla scelta del dispositivo

Individuare le tre misure del pneumatico:

indica la larghezza
indica la spalla in percentuale
indica il diametro del cerchio in pollici

205/55-16

Ogni confezione contiene:

- Libretto plastificato con le istruzioni di montaggio
- Maglie di ricambio
- Guanti in plastica
- Certificato di omologazione

Each box contains:

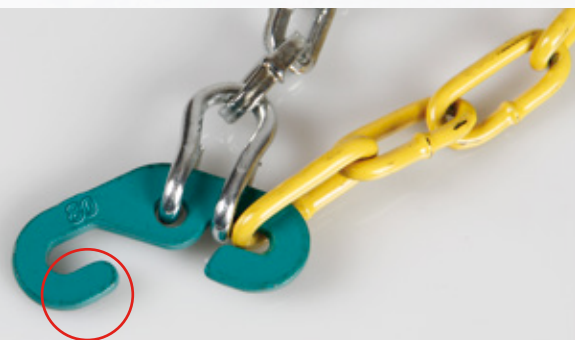

- Plastic-coated instruction manual
- Spare links for repair
- PE gloves
- Copy of approval certificates.

Imballo da 3 serie

Imballo da 1 serie

In caso di smarrimento della confezione, è possibile risalire alla misura della catena leggendo le cifre stampate sul gancio verde (togliere lo zero dal codice stampigliato; esempio: 80 corrisponde alla misura 8)

In absence of box or label size of the chain can easily be identified by reading the number stamped on the green hook (remove the zero from the code; example number "80" correspond to size "8").

ESPOSITORE CATENE (FORNITO SMONTATO)
Per 44 valigette auto o 40 valigette furgone

DISPLAY RACK
Holds 44 boxes (car-chains) or 40 boxes (van-chains)
