

WORLD CLASS

SINCE 1919

Proudly manufactured in the United States of America

STOP

OIL TREATMENTS

**STOP®
Oil Treatment**

Reduces friction and increases ring seal for improved compression and fuel economy. This concentrated treatment is compatible with all engine oils and reduces oil burning.

**15 fl. oz. (444 ml)
FIBER CAN #180007**

**15 fl. oz. (444 ml)
FIBER CAN #180028**

STOP

ADDITIVES

**STOP® Fuel Injection
Cleaner and Treatment**

Eliminates engine hesitation and rough idling, reduces power loss caused by spark plug fouling. Keeps combustion chamber clean, keeps injectors, intake valves, ports, PCV valve and fuel system clean. Prevents rusting and corrosion in the fuel system.

**11 fl. oz. (325 ml)
#181011**

**STOP® Octane Booster & Fuel
Conditioner**

Stops knocking and pinging and eliminates engine run-on. Improves combustion by maximizing power and torque. Increases engine efficiency.

**11 fl. oz. (325 ml)
#180212**

**STOP® Fuel Injector Cleaner &
Treatment**

Keeps injectors, intake valves, ports, PCV valve and fuel systems clean. Reduces power loss, engine hesitation and rough idling for smooth, trouble-free performance.

**11 fl. oz. (325 ml)
#181012**

STOP® Power Steering Fluid

Formulated for easy, silent steering. Guards against corrosion, rust and foaming while it conditions seals to prevent fluid loss. Keeps your entire system clean.

**11 fl. oz. (325 ml)
#181212**

STOP® Gas Treatment

Faster starts, better mileage and smoother idling. Frees sticky valves and cleans carburetors. Reduces engine dirt, gum and varnish. Helps eliminate fuel line freeze up. Improves compression and overall performance.

**11 fl. oz. (325 ml)
#180112**

STOP® Diesel Fuel Treatment

Cleans and protects injectors, prevents wax and carbon clogging and cleans out coated fuel systems. 100% combustible. Will not lower octane rating.

**11 fl. oz. (325 ml)
#182012**

STOP

AEROSOLS

STOP® Jet Wrench Penetrating Oil

Fast-acting, penetrating agents lubricate rusted, "frozen" nuts, bolts, fittings and locks. Lubricates auto shocks, manifold heat riser controls and throttle linkages. Cleans and lubricates lawn mowers, hinges, bicycles and boat motors.

**12 oz. (340 grams)
#180320**

STOP® Engine Starting Fluid

Quick and easy way to start engines in cold weather.

**11 oz. (312 grams)
#183320**

STOP® Carb and Choke Cleaner

Quickly dissolves dirt, gum and varnish while removing moisture for easier start-up. Also removes carbon buildup. Improves gas mileage and overall engine performance.

**12.5 oz. (354 grams)
#180420**

STOP

SPECIALTY PRODUCTS

**STOP® Automatic
Transmission Fluid**

Cools and lubricates all moving transmission parts. This scientifically blended formula helps prevent power loss caused by sludge, contaminants and rust particles. Prolongs the life of transmissions.

**32 fl. oz. (946 ml)
#180932**

STOP® Sun Protector

Deep-penetrating formula protects vinyl, leather, rubber and plastic surfaces from cracking, fading and drying. Blocks ultraviolet rays and is non-flammable.

**8 fl. oz. (237 ml)
#180508**

STOP® Head Gasket Shellac

Creates leak-proof gasket seal joints in cylinder heads, manifolds, gear and crank cases and radiator hoses.

**2 fl. oz. (59 ml)
#183902**

QUAKER CITY PRODUCTS

QUAKER CITY® Motor Flush

Specially formulated to help prevent wear. Conditions metal parts. Improves drainage during oil changes. Disperses and removes engine contaminants.

**15 fl. oz. (443 ml)
METAL CAN #181616**

QUAKER CITY® Radiator Coolant

Delivers maximum heat transfer for improved combustion and ensures cooling system stays clean and deposit-free.

**15 fl. oz. (443 ml)
FIBER CAN #181918**

QUAKER CITY® One Step Radiator Cleaner

Flushes rust, grease and silicates. Improves heat transfer efficiency of the entire cooling system.

**12 fl. oz. (355 ml)
#182714**

QUAKER CITY® Radiator Stop Leak

Repairs and seals leaks while it protects water pump and thermostat. Guards against corrosion. Seals head gaskets and engine blocks.

**12 fl. oz. (355 ml)
#181714**

QUAKER CITY® Radiator Anti-Rust

Prevents rust and corrosion in automotive cooling systems. Lubricates water pump and protects cooling system components.

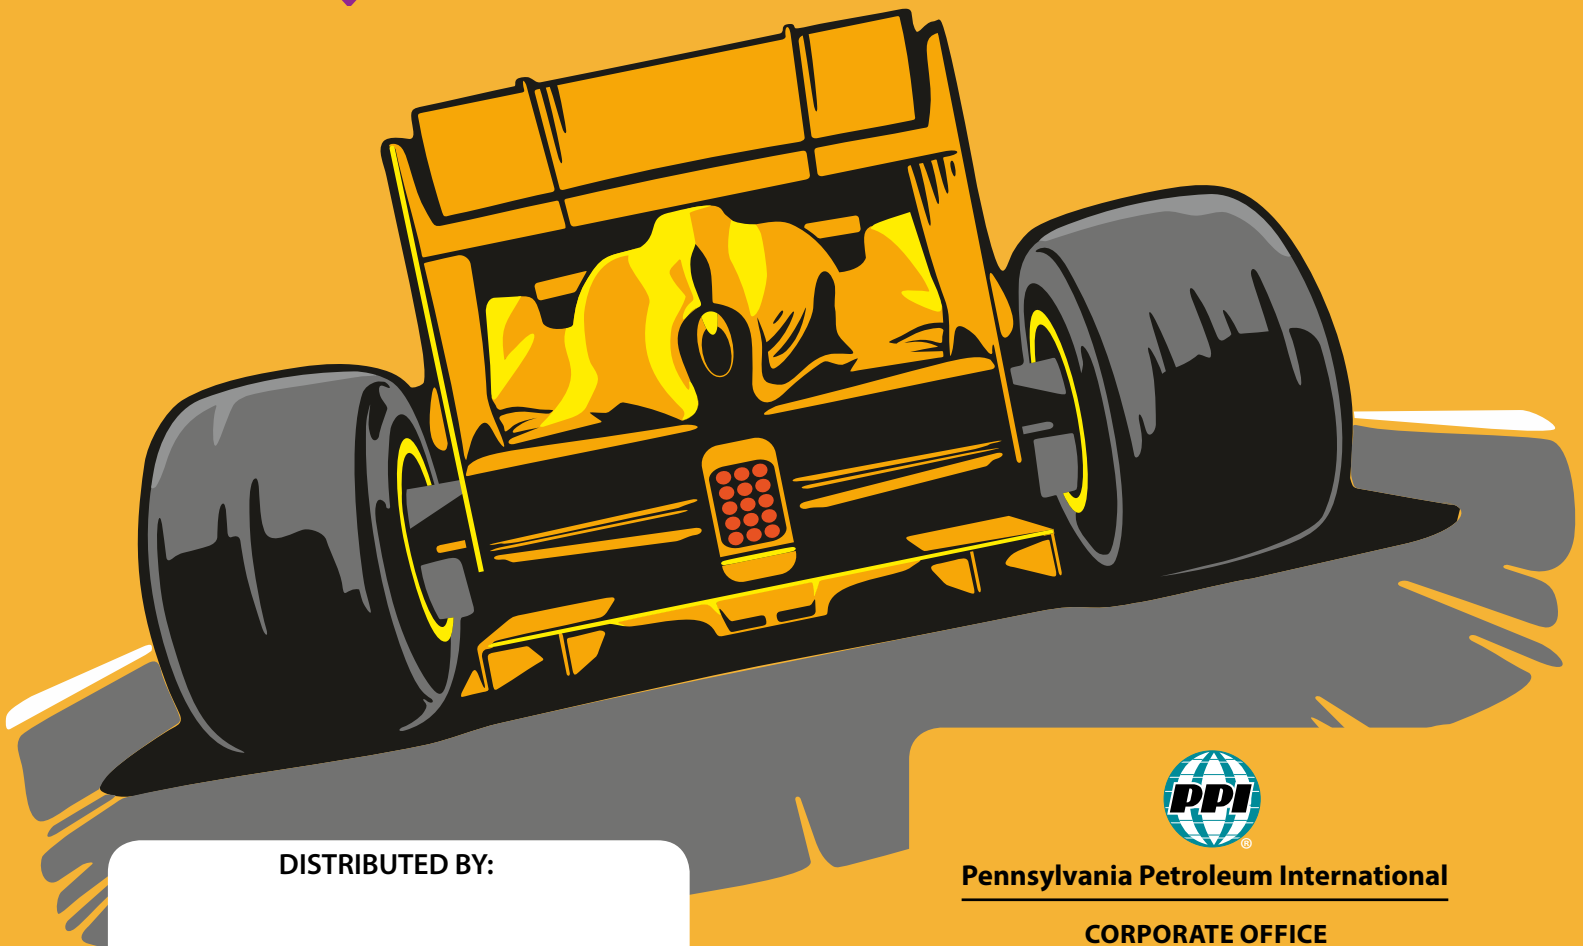

**12 fl. oz. (355 ml)
#180614**

World Class Automotive Lubricants & Specialty Products Since 1919

Our global experience manufacturing automotive products spans nearly a century, so it's no surprise Pennsylvania Petroleum International (PPI) offers one of the most comprehensive and expansive product lines in the industry today. We have built our reputation on fine tuning our products to meet the ever changing specifications of our customers. Our advanced manufacturing facility, located in Ohio, in the United States, allows us the flexibility to customize complete product lines directly to your unique requirements, producing virtually any formulation – liquid, powder, gel or cream. With world-class R&D, a state-of-the-art laboratory, and advanced methods of process control, PPI remains a driving force in international automotive products.
