

# ***DOLZ***

...yes we have!

## **Timing Belt & Water Pump kit**

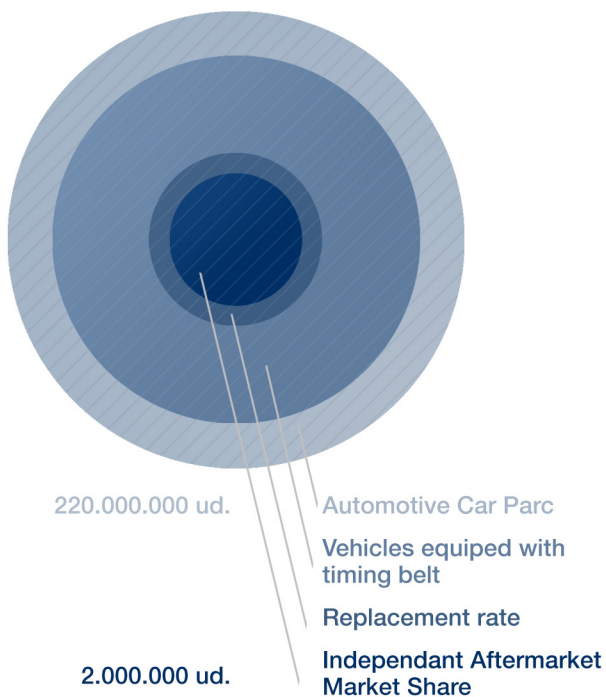

## Market estimation

What is the trend of the market?

The market demand of timing belt and water pump kit is growing over the demand of the kit elements sold separately

No compromise on quality!

Replacing a timing belt takes at least 4,5 hours of labor, and a wrong belt quality can cause the damage of the engine

# Advantages for final users

Up to 240.000 km

**-50%**

Half of interventions:  
vehicle is  
immobilized less  
times

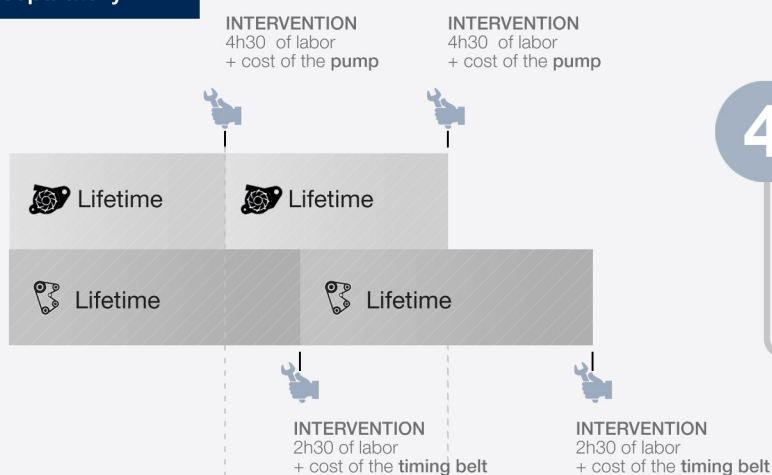

**5h**

Savings for the end  
user (5 hours of  
Labor less)

**+qualitative**

Better repair, since  
each element of the  
timing system is  
replaced at the same  
time

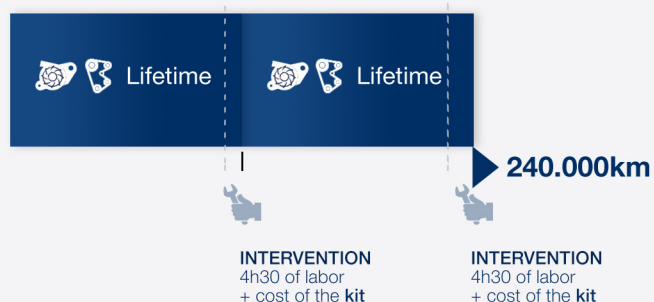

Replacing  
components  
separately

**4** interventions  
on vehicle

**14 hours**  
of labor + cost  
of the  
components

Replacing all  
the components  
at a time

**2** interventions  
on vehicle

**9 hours**  
of labor + cost  
of the  
components

# Recommendations

Replace belt, water pump and iddlers at the same time:

Perfect synchronization and aging between all the elements of the timing system.

Avoid the risk to weaken the water pump bearing

Replacing one element only can damage faster the other elements of the Timing system

1 2  
4 3

Replace belt every 100.000 km or 5 years, always refering to the OE recommendations

1 intervention for a long lasting repair

## DOLZ range summary

All the kits meet the OE quality standards.

Range that covers more than 90% of European sales.

All components required for the mounting are included in the Kit

Pump and gasket when necessary.  
Timing Belt.  
Iddlers and screws.

**DOLZ is one of the water pump leaders in Europe**

Expert and leader in  
manufacturing  
water pumps

## Quality equivalent to OE standards

OE standard timing belts.  
water pump and idlers  
matching to OE standards  
(EC 1400/2002)

## Conclusions

## Why choosing DOLZ kit ?

**For its excellent quality,  
equivalent to OE**

- Timing belt is Premium.
- Water pump and idlers matching to OE standards (EC 1400/2002).

### For its targeted range

More than 100 kits with a coverage over 90% of the European car park.

## For its competitiveness

Choosing DOLZ is being competitive both in water pumps and kits.
