SOLUTIONS

Pure from the start

## Q+ RANGE: PURE FROM THE START

Gekatex is one of the very few wipe manufacturers in the world who makes its very own cleanroom products, starting from the fiber and not from an already made cloth.

All the following operations are made in-house: knitting, pre-washing, heat-setting, cleanroom conversion and finally cleanroom laundered and packaging.

Our processes are made to ensure that the products are pure from the start, ensuring cleanroom standards are met.

PROTOCOL

## MOPPING IN CLEANROOM

In controlled environments like pharmaceutical and biotechnology industries, it is essential to regularly remove contaminants from all surfaces, from the floor to the ceiling, including the walls.

### FLAT MOP HEAD COVERS

These folded multilayer mop covers will remove liquids, residues and all contaminants, efficiently. The cleanroom laundered outer fabrics ensures a low level of particles and fibers, and make them suitable for ISO 4/9 environments. The mop covers are compatible with all types of disinfectants and detergents.

For aseptic environments, mop covers available in sterile version.

### POLYESTER FELTED PAD CORE

- High fluid absorption capacity
- Ultrafine distribution to avoid leakage
- Large area cleaning capacity

### STANDARD DIMENSIONS

- 40 x 12cm - 15.6 x 4.7 inches
- Compatible with a large range of flat mop frames
- Custom size availables
- Optional handles available

## Q+ MOP COVERS PRODUCT RANGE

### P1G - POLYESTER KNIT

- Enhanced absorbency
- Scrubby effect for good pick up ability

Basic weight	36	g / mop
--------------	----	---------

Absorbency rate	570	%
-----------------	-----	---

### 2P3 - POLYESTER KNIT

- 2-ply fabric
- Ultrasound pattern to increase residue removal

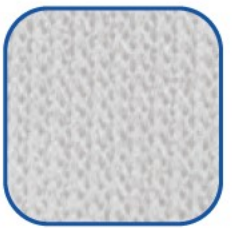

Basic weight	47	g / mop
--------------	----	---------

Absorbency rate	480	%
-----------------	-----	---

### Z3 - MICROFIBRE KNIT

- 70% Microfibre / 30% Polyester-Nylon
- Soft touch avoiding scratching risks

Basic weight	39	g / mop
--------------	----	---------

Absorbency rate	490	%
-----------------	-----	---
