

SPARE PARTS FOR  
INDUSTRIAL VEHICLES

# COMPANY BROCHURE

2021 edition

**70 years**  
distributing  
spare parts to  
the industrial  
sector.

## After-sales service.

Always close to you to solve  
whatever you need.

**When tradition and innovation meet, the  
result can only be perfect.**

With these two concepts closely linked to our history, at Casals Material Industrial we have progressively grown to become a solid and reliable company, a reference today in the spare parts sector for industrial vehicles (trucks, buses and vans).

A success that was born from the hand of our founder, Joan Casals Cohí, a self-taught man specialised in the manufacture of compressor valves, clutch pins and brake membranes.

A success that continued after his death under the leadership of his wife, María Claustre Llorens until today, with Néstor and Joan Casals taking over from Paco Casals as responsible for the company's operations and growth.

More than 70 years preserving the best of our family spirit and analysing the market to anticipate the emerging needs of our customers.

## Numbers add up.

**27,000**  
references in stock

**+10,000**  
warehouse space (sqm)

**+25**  
countries to which we export

# Our **products.**

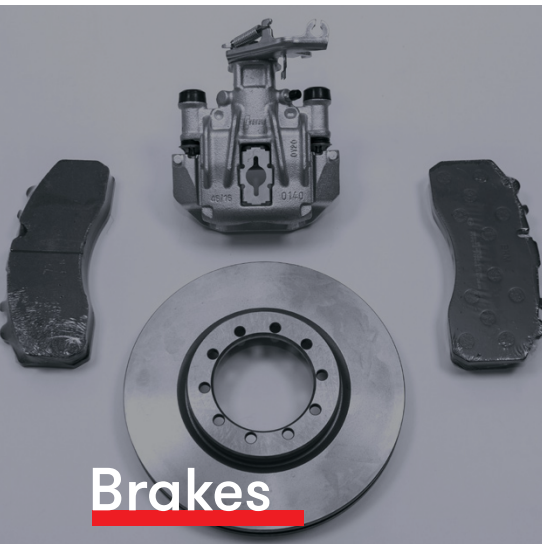

**5<sup>a</sup> wheel**

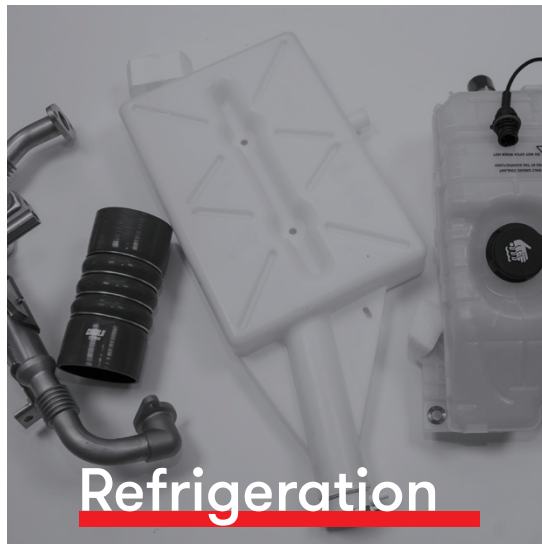

**Cabin**

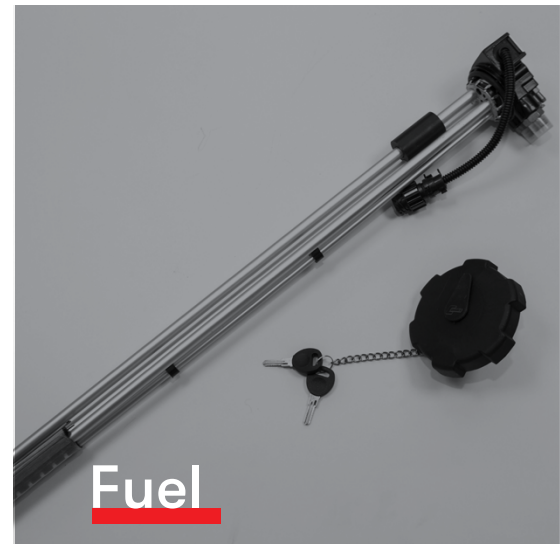

**Direction**

**Brakes**

**Refrigeration**

**Fuel**

**Transmission**

**Rubber  
Metal Parts**

**Various**

## A matter of **quality.**
