FIXITYMAXI

FIXITYTRAIL

100% BATTERY OPERATED

Fixity – the compact mobile repair workshop

Take advantage of a fully equipped vehicle to meet the needs of your customers efficiently, conveniently and quickly.

Installed in a commercial vehicle, our equipment and accessories allow you to carry out repairs in places that have until now been inaccessible at times, e.g. car parks, underground spaces, large cities.

Air compressor

- Belt drive
- **Voltage:** 12 VDC
- **Power:** 1,3 kW
- **Actual output:** 200 l/min
- **Pressure:** 10 bar
- Air tank of up to 50 litres depending on the model + FRL
- Reduced noise level
- Li-ion battery
- **Great autonomy:** a full day of operation

Car tyre changer

In a sliding or fixed version

- For tyres up to 22 inches
- Voltage: 12 VDC
- Run flat tyres
- Low profile tyres
- Supplied with aluminium rim protectors
- Axial bead breaker with rim protectors
- Plastic mounting head
- **Autonomy with a full charge:** up to 50 tyres depending on the operating conditions, tyre dimensions and the use of equipment

Car wheel balancer

- For tyres up to 24 inches
- **Modes:** 1 x static, 1 x dynamic, 3 x aluminium
- **Accessories:** weight pliers, calliper, quick release locking nut, 4 cones (up to 135 mm)
- **Voltage:** 230 VAC supplied by a 12–230 VAC converter

FIXITYMAXI

Specially designed for high performance throughout the day, the Fixity MAXI is a great ally.

FixiBox 2-in-1: Car tyre changer + integrated compressor

FixiBox + tank + FRL + reel
The compressor is installed beneath the tyre changer

Car wheel balancer

B212 or F755
Fixed wheel balancer

Lithium batteries

A workshop vehicle that is fully equipped to meet your needs, where the operator has total freedom of organisation with improved useable space thanks to its FixiBox 2-in-1 set.

Mobility for professionals

With the Fixity MAXI, you can use your vehicle like a fixed workshop space and travel to your customers easily while carrying all the necessary equipment with you.

Tyre retailer version

Diversification version

To extend its deployment field, so you can carry out oil changes, replace brake pads, windshields and shock absorbers or even work on air conditioning.

FIXITYTRAIL

The Fixity TRAIL is a trailer that offers mobility at a lower cost and without tying up a vehicle

FixiBox 2-in-1 : Car tyre changer + integrated compressor

FixiBox + tank + FRL + reel
The compressor is installed beneath the tyre changer

Car wheel balancer

B212 or F755
Fixed wheel balancer

Lithium batteries

Complete trailer, including tyre rack: this version offers the advantage of being able to travel to several sites without the need to supply each dealership with a dedicated vehicle for this purpose.

Fixity advantages

100% operation guarantee for the rechargeable lithium batteries and/or solar panels

Allowing greater freedom of working conditions and guaranteeing comfort and unmatched autonomy. Rechargeable from the mains and via the vehicle's alternator while driving (excluding Fixity TRAIL and e-Fixity)

Our R&D department has tested the autonomy of use for a single charge

50 assembly and disassembly cycles depending on the conditions of use, tyre dimensions and use of pneumatic tools (impact wrench, jack, tyre inflation system, blow gun etc.)

Each version has been optimised for space and designed for the operator

Discover a vehicle that has been totally optimised with a functional and ergonomic space design. Work wherever you want despite the constraints of a particular environment (underground spaces, car parks, large cities).

The FixiBox 2-in-1 – a unique product of our combined know-how

Innovative and compact, our assembly of compressor and tyre lever let you work inside the vehicle while retaining useful storage space and a rearranged work space.

Accessories and options

LED LIGHTING KIT

LED technology: economical and practical, unparalleled longevity

PAPER DISPENSER

A simple dispenser attached to the vehicle's wall for quick access

STORAGE CONTAINERS

Ideal for organising your vehicle the way you want
