NOTES

The background of the entire page is a grayscale, semi-transparent image of interlocking gears. The gears are of various sizes and are arranged in a way that creates a sense of depth and mechanical complexity. The lighting is soft, highlighting the teeth of the gears. A dark gray horizontal bar is positioned across the middle of the image, containing the product name in white text.

A black and white photograph of a circular gear. The gear has a serrated outer edge and a central hole. The gear is shown from a top-down perspective, highlighting its circular shape and the teeth around the perimeter.[illegible]

A detailed close-up photograph of several interlocking metal gears, likely from a Volvo gearbox. The gears are made of polished metal and are shown in various stages of meshing. The lighting highlights the texture of the teeth and the smooth surfaces of the gear bodies. The background is a soft, out-of-focus grey, emphasizing the mechanical components.

NOTES

The background of the entire page is a grayscale, semi-transparent image of interlocking mechanical gears. The gears are of various sizes and are arranged in a way that creates a sense of depth and motion. The lighting highlights the teeth of the gears, giving them a three-dimensional appearance. A dark gray horizontal band runs across the middle of the image, serving as a backdrop for the text.

NOTES

The background of the entire page is a close-up, grayscale photograph of several interlocking metal gears. The gears are arranged in a way that creates a sense of depth and mechanical complexity. The teeth of the gears are sharp and well-defined. A horizontal white line runs across the middle of the image, separating the top and bottom gear sections.

A detailed close-up photograph of several interlocking metal gears within a gearbox. The gears are made of a dark, polished metal, likely steel, and their teeth are sharp and precisely machined. The lighting creates strong highlights and shadows, emphasizing the three-dimensional texture and the complex geometry of the gear teeth. The background is slightly blurred, focusing attention on the foreground gears.
