

SYMMETRIC

A **QUICK WAY TO PROTECT** THE INTERIOR OF YOUR VEHICLE.

Bossauto's new **SYMMETRIC** masking tape has two symmetrical tape faces to protect the interior of the vehicle and the rubber of the different openings during the repainting process.

The use of **Symmetric** speeds up the entire masking process and reduces the use of materials (weatherstripping, tape, plastic with tape, etc.), improving the profitability of the workshop and **saving** the user **time** in the process of preparing the vehicle.

Symmetric comes in **20 metre x 7,8 cm** rolls with **pre-cut every 12cm** for easy application in curved areas.

Water **resistant**

Drying with **UV** lamps

Heat resistant up to **120°C**

DESIGNED FOR **MASKING RUBBER SEALS** ON WINDOWS, DOORS, BONNETS AND BOOTS.

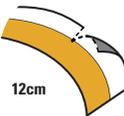

ADVANTAGES

- > Reduces the use of masking materials
- > Speeds up masking process
- > Applicable on all movable areas of the vehicle: doors, rubber doors, door seals, bonnet, boot, etc.
- > Adhesion on sheet metal and glass
- > Total protection of the interior of the vehicle and of the rubber seals of the openings.
- > Improved paint finish in the protected area.
