## >> FACTS ABOUT THE SKIN

### > FACTS ABOUT THE SKIN

#### THE SKIN IN EVERYDAY WORKING LIFE

The skin is with approx. 2 m<sup>2</sup> the largest organ of our body. It is only a few mm thick and reacts extremely sensitively to stress factors. The skin consists of several layers. The epidermis with its outermost horny layer, the stratum corneum, protects the tissue from injuries, pathogens and harmful substances. In addition, a hydro-lipid film on the skin protects it from drying out.

#### FUNCTIONS OF THE SKIN:

1. Regulation of the heat balance of the body
2. Recording of information on pressure, heat, cold and pain
3. Protection of the body from harmful environmental influences

#### RISKS TO THE SKIN THROUGH CONTACT WITH WATER AND CHEMICALS:

1. Frequent contact with wet objects
2. Exposed to moisture for more than 2h, e.g. by wearing liquid-tight gloves
3. Excessive hand washing
4. Intensive cleansing measures due to heavy contamination
5. Contact with skin-irritating, aggressive materials or chemical substances

#### SKIN REACTIONS:

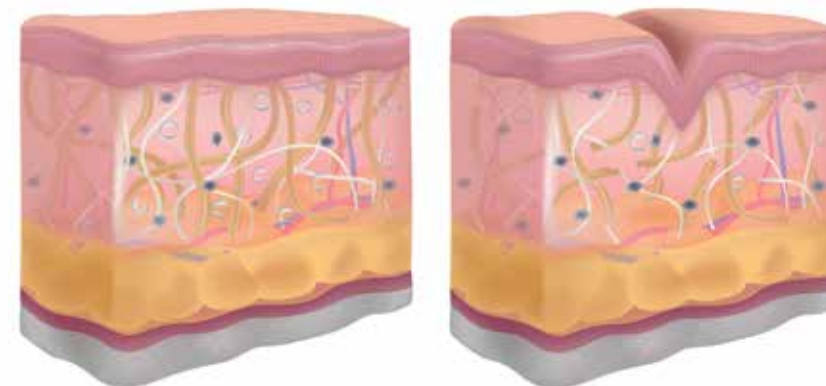

Due to the disruption of the natural barrier function of the skin, the risk of developing eczema is very high. Alarm signals are reddened, itchy and/or swollen skin areas, which can still be cured by early treatment. If other damaging substances penetrate the skin, chronic skin damage may be the result. The barrier is damaged and the sensitivity of the skin is greatly increased.

#### ALARM SIGNALS:

1. Dry, taut skin
2. Redness
3. Scaly skin
4. Blister formation
5. Cracked skin
6. Burning sensation of the skin after disinfection treatment
7. Itching

#### ESPECIALLY IN THE PROFESSIONAL ENVIRONMENT, THE SKIN DESERVES TO BE SUPPORTED. THE FOLLOWING HELP:

- Preventive skin protection
- Gentle skin cleansing
- Regenerating skin care
- Hygienic disinfection

CLEAR - COMPACT - EFFECTIVE

## SKIN PROTECTION CONCEPT

We at **AZETT GmbH & Co. KG** deal with professional skin protection concepts for a wide range of industries, including metal processing, the food industry, chemicals, the trades, etc. According to our slogan "**Clear, Compact, Effective**" we create a manageable concept for you. How to develop a skin protection concept is described in the TRGS 401 Risks resulting from skin contact, which is structured as follows:

- 01.** We support you in the risk hazard analysis through free inspections.
- 02.** In accordance with the risk hazard analysis, a sampling procedure is then performed, including documentation (test sheets). Of course, in addition to the dermatological reports, we also provide proof of efficacy for our skin protection agent and a glove compatibility report for VarioStop (commended for glove wearers).
- 03.** Joint evaluation of the trial.
- 04.** Preparation of a customised offer.
- 05.** Support in the in-house implementation of a skin protection concept, through free skin protection plans, employee instructions and accompaniment of e.g. health days through skin measurements.

**With this approach we offer you a skin protection concept that stands up to any trade association test.**

Preventive skin protection for highest requirements in all professional areas

### > LIPO|STOP

Scope of application: To facilitate skin cleansing and protection in the case of non-water-mixed and highly adhering working materials.

- Silicone-free
- Field of application: when working with stubborn industrial contaminants, in the repair and maintenance area or when working with oil, grease, soot, graphite, varnish, adhesive, etc.
- Apply before and during work

Art. no.	Variant	PU/carton
1805-653-000	100 ml tube	25 tubes
1804-000-990	1000 ml jar	12 jars
1805-210-000	1000 ml soft bottle	6 bottles

### > AQUA|STOP

Scope of application: For work in damp and wet work areas, e.g. frequent hand washing, work with cleaning solutions, water-based cooling lubricants, etc. For protection against water and water-mixed working materials.

- Silicone-free
- Unscented
- Field of application: Working in damp and wet work areas etc.
- Apply before and during work

Art. no.	Variant	PU/carton
1807-000-000	100 ml tube	25 tubes
1807-210-000	1000 ml soft bottle	6 bottles

### > VARIO|STOP

Scope of application: For protection against alternating or unspecific skin exposure in aqueous and non-aqueous work areas.

- Silicone-free
- When the use of special skin protection products is not practical
- Reduces maceration of the skin when wearing gloves
- Field of application: in case of frequent changes between aqueous and non-aqueous work areas, if the application of special skin protection products is not practical as well as in case of unspecific exposure
- Apply before and during work

Art. no.	Variant	PU/carton
1808-000-000	100 ml tube	25 tubes
1808-210-000	1000 ml soft bottle	6 bottles

### > UV|STOP

Scope of application: For protection during work under strong sunlight (UVA and UVB) as well as skin exposure to technical UV sources (UVA, UVB and UVC), e.g. arc welding, drying of varnishes and printing inks, hardening of plastics etc.

- Sun protection factor 50
- Suitable for all skin areas including the face
- Silicone-free
- Waterproof
- Field of application: Protects the skin from UV radiation of the sun and from technical UV radiation
- Apply before and during work

UV Stop Cream SPF 50		
Art. no.	Variant	PU/carton
1826-382-000	100 ml tube	25 tubes

UV Stop Foam SPF 50		
Art. no.	Variant	PU/carton
1829-000-000	125 ml jar	30 jars

## >>> CLEANSING

Gentle skin cleansing for highest requirements  
Light contamination

### > PRECO | FOAM – AURA FOAM

Scope of application: Mild soap- and alkali-free skin cleanser, formulated for sensitive skin, for office and administrative areas

- Silicone-, solvent- and soap-free
- Free from abrasives
- Free from colourants
- Unscented
- Dermatologically tested
- pH skin neutral

Art. no.	Variant	PU/carton
1448-563-000	1000 ml dispenser bottle	6 bottles

### > AURA | NEUTRAL

Scope of application: High-quality unscented and colourless hand cleansing lotion for light contamination. Particularly suitable for hygienic work areas, in which no perfume may/should be used e.g. kitchens, food areas, care areas.

- For sensitive skin
- Free from colourants
- Unscented
- Mild cleansing wash lotion
- Rehydrating
- Silicone-, solvent- and soap-free
- pH skin neutral
- Mild preservation
- With high-quality natural rehydrating agents
- Dermatologically tested

Art. no.	Variant	PU/carton
1403-077-000	500 ml dispenser	9 dispensers
1403-089-000	2000 ml soft bottle	6 bottles
1403-035-000	5 l canister	
1403-060-000	10 l canister	

### > AURA | ROSE

Scope of application: Mild hand cleansing lotion for gentle cleansing of the skin in case of light contamination in administrative and office areas, hotels and restaurants.

- Mild cleansing wash lotion
- With pleasant jasmine/lily fragrance
- Rehydrating
- Silicone-, solvent- and soap-free
- pH skin neutral
- With high-quality natural rehydrating agents
- Dermatologically tested

Art. no.	Variant	PU/carton
1400-077-000	500 ml dispenser	9 dispensers
1400-047-000	500 ml dispenser bottle	28 dispenser bottles
1400-143-000	950 ml dispenser bottle	14 dispenser bottles
1400-089-000	2000 ml soft bottle	6 bottles
1400-035-000	5 l canister	
1400-060-000	10 l canister	

Gentle skin cleansing for highest requirements  
Light contamination

### > CLASSIC | CLEAN – AURA CLASSIC

Scope of application: High quality unscented wash and shower lotion for normal contamination. Particularly suitable for hygienic work areas, in which no perfume may/should be used e.g. kitchens, food areas, care areas.

- Unscented
- Shower and wash lotion
- Mild cleansing wash lotion
- Suitable for sensitive skin
- With high-quality natural rehydrating agents
- Silicone-, solvent- and soap-free
- pH skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1447-424-000	250 ml tube	25 tubes
1447-089-000	2000 ml soft bottle	6 bottles
1447-060-000	10 l canister	

### > COMFORT | CLEAN – AURA COMFORT

Scope of application: Mild and gentle wash and shower lotion for the gentle cleansing of body, face and hair.

For light contamination in administrative and office areas, hotels and restaurants and in the industrial and commercial sector.

- Shower and wash lotion for body, face and hair
- With valuable detergent raw materials and pearl lustre
- With a pleasant fresh fragrance
- With high-quality natural rehydrating agents
- Silicone-, solvent- and soap-free
- pH skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1446-425-000	250 ml tube	25 tubes
1446-089-000	2000 ml soft bottle	6 bottles
1446-060-000	10 l canister	

### > AURA | INTENSIVE

Scope of application: Intensive hand cleaner without abrasive agents against strong and persistent contamination.

- For the skin-friendly and intensive cleaning of industrial contamination
- Abrasive-, solvent-, soap- and silicone-free
- Field of application: Trade, industry and agriculture
- pH skin neutral
- Dermatologically tested with 'very good' result
- With high-quality natural rehydrating agents

Art. no.	Variant	PU/carton
1443-077-000	500 ml dispenser	9 dispensers
1443-089-000	2000 ml soft bottle	6 bottles
1443-060-000	10 l canister	

Abrasive skin cleansing for highest requirements in all industrial sectors

#### > REINFIX | NATURE

Scope of application: Flowable, gentle hand cleaner with good cleaning power for medium to heavy contamination. Versatile for thorough cleaning of oil, grease and industrial contamination.

- Strong and at the same time gentle cleansing
- With high-quality natural rehydrating agents
- With natural abrasive agents
- Solvent-, soap- and silicone-free
- For the sake of the environment, "microplastic-free."
- pH skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1343-606-000	250 ml bottle	10 bottles
1343-089-000	2000 ml soft bottle	6 bottles
1343-049-000	2.5 l bottle	6 bottles
1343-053-000	3.0 l WN container	6 WN containers
1343-060-000	10 l canister	

#### > REINFIX | NATURE SENSITIVE

Scope of application: Flowable, gentle yet mild hand cleanser for sensitive skin types. With good cleansing power for medium to heavy contamination. Versatile for thorough cleaning of oil, grease and industrial contamination and in the food sector.

- Strong and at the same time gentle cleansing
- For sensitive skin
- Unscented
- With high-quality natural rehydrating agents
- With natural abrasive agents
- Solvent-, soap- and silicone-free
- For the sake of the environment, "microplastic-free."
- pH skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1344-606-000	250 ml bottle	10 bottles
1344-089-000	2000 ml soft bottle	6 bottles
1344-049-000	2.5 l bottle	6 bottles
1344-053-000	3.0 l WN container	6 WN containers
1344-060-000	10 l canister	

#### > PROFI | CLEAN – REINFIX PROFI

Scope of application: Flowable hand cleanser with skin-friendly, natural abrasive and increased cleansing power for heavy contamination. Ideally suited for trade and industry for the easy and effortless removal of stubborn oil, grease and intensive industrial contamination.

- With enhanced cleansing power
- With high-quality natural rehydrating agents
- High percentage of natural abrasive agents
- Solvent-, soap- and silicone-free
- For the sake of the environment, "microplastic-free."
- pH skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1335-401-000	250 ml tube	25 tubes
1335-089-000	2000 ml soft bottle	6 bottles

#### > ORANGE PLUS | NATURE – REINFIX INTENSIVE

Scope of application: Special hand cleaner for strongly adhering and extreme contamination. Easily removes varnish, paint, resins, adhesives, graphite, etc. special varnish hand cleaner

- Effortlessly dissolves paints, varnishes and PU foam
- Extremely high cleansing power
- With high-quality natural rehydrating agents
- Against the heaviest contamination
- Contains "low-VOC" solvents
- Dermatologically tested

Art. no.	Variant	PU/carton
1341-606-000	250 ml bottle	10 bottles
1341-089-000	2000 ml soft bottle	6 bottles

Abrasive skin cleansing for highest requirements in all industrial sectors

#### > ULTRA SPECIAL | NATURE

Scope of application: Concentrated creamy special hand cleansing paste with skin-friendly mild cleansing and care substances and high-quality rehydrating agents. Effortlessly dissolves stubborn oil, grease and industrial contamination.

- Extremely economical in consumption
- With natural abrasive agents made from walnut shell grit
- Silicone-, solvent- and soap-free
- Does not cause clogging of drains
- pH-skin neutral
- Dermatologically tested

Art. no.	Variant	PU/carton
1065-068-000	500 ml jar	24 pcs/ctn.
1065-436-000	10 litre bin	

FURTHER HAND WASHING PASTES ON REQUEST!

#### > PRECO | HAND CLEANING WIPES – AURA WIPES

Scope of application: Against strong and stubborn dirt in the industrial and workshop area. Ideal for mobile use, e.g. chimney sweeps, agricultural and forestry work, mobile customer service, etc. - whenever washing areas and other cleaning agents are not available.

- For the effortless removal of heavy and stubborn contamination
- Effortlessly removes grease and dirt
- Pleasant, fresh fragrance
- Practical plastic closure for easy removal of the wipes - in addition protection against drying out
- Rehydrating

Art. no.	Variant	PU/carton
1501-000-000	80 wipes per bin	4 bins

#### > PRECO | WIPES FOR FOOD INDUSTRY

Scope of application: High quality fleece wipes for the gentle removal of light to medium, contamination typical of foodstuffs such as grease, protein and carbohydrates.

- For the effortless removal of contamination typical of foodstuffs
- Effortlessly removes grease and oil contamination
- Unscented
- Practical plastic closure for easy removal of the wipes - additional protection against drying out
- Free from preservatives
- Very good skin compatibility

Art. no.	Variant	PU/carton
1502-000-000	80 wipes per bin	4 bins

## >> DISINFECTION

Disinfection series for surfaces and hands

### Disinfection for hands, skin, surfaces and objects in professional work areas with high requirements on hygiene and quality assurance.

Our high-quality disinfection series for the areas:

- Industry
- Automotive
- Foodstuffs
- Kitchen
- Public facilities
- Pharma
- Surfaces
- Skin

can be found on the special page Disinfection.

## >> CARE

Regenerating skin care for the highest requirements in all professional areas

### > BALANCER

Scope of application: Light and quickly absorbed basic care cream with urea and glycerine as moisturising components. Panthenol supports the regeneration of the skin.

- Moisturising
- Extremely pleasant skin feeling
- Non-greasing
- Quickly absorbed
- Silicone-free

Art. no.	Variant	PU/carton
1830-650-000	100 ml tube	25 tubes
1830-077-000	500 ml dispenser	9 dispensers
1830-210-000	1000 ml soft bottle	6 bottles

### > HYDRO|BALANCER

Scope of application: Skin cream for skin care to emphasize the replenishment of moisture and protection against dehydration.

- Moisturising
- Unscented
- Slightly greasing
- Quickly absorbed
- Silicone-free

Art. no.	Variant	PU/carton
1803-000-000	100 ml tube	25 tubes
1803-210-000	1000 ml soft bottle	6 bottles

### > LIPO|BALANCER

Scope of application: For skin care to emphasize the replenishment of lipids and protection against the drying out of dry, occupationally stressed skin.

- Intensive care effect
- Supports the rapid regeneration of the barrier function
- Silicone-free

Art. no.	Variant	PU/carton
1825-100-000	100 ml tube	25 tubes
1825-002-000	1000 ml soft bottle	6 bottles

### > INTENSIVE|BALANCER

Scope of application: Intensive skin care cream for the highest requirements of your skin. The unique natural substances from the Dead Sea, wheat germ oil and avocado oil support regeneration, especially for very dry and sensitive skin. Silicone-free. Also suitable for the face and body.

- Intensive skin care cream
- Strong rehydrating effect
- Silicone-free
- Rich in natural care components

Art. no.	Variant	PU/carton
1832-651-000	100 ml tube	25 tubes

## >> DISPENSER

Hygienic dosing for highest requirements  
in all professional areas

### > PRECOMAT

Robust wall-mounted dispenser for collapsible soft bottles (suitable for all 1000 ml and 2000 ml soft bottles).

- Made of impact-resistant plastic
- Adjustable dosing volume
- Maintenance-free
- Field of application: general workshop and work areas of trade and industry

Art.-no.	Variant
6113	Dispenser

### > PRECOMAT FOAM

Robust wall dispenser for 1000 ml bottles PrecoFoam.

- Made of impact-resistant plastic
- Maintenance-free
- One filling is sufficient for 2,500 applications
- Field of application: hygienic and economical dosing of single portions for the skin care cleansing foam Preco Foam in office and administrative areas

Art.-no.	Variant
6118	Dispenser

### > DISINFECTANT DISPENSER

Robust wall dispenser (suitable for all standard 500 ml and 1000 ml square bottles).

- Made of impact-resistant plastic
- Adjustable dosing volume
- Maintenance-free
- Field of application: hygienic and economical dosing of single portions of the products

Art.-no.	Variant
6126	Dispenser
6127	Drip tray

## >> DISPENSER

Hygienic dosing for highest requirements  
in all professional areas

### > UNIVERSAL DISPENSER

- Universal dispenser
- Suitable for liquid soap, hand disinfectant and lotion
- For commercially available 500 ml and 1 l standard bottles
- Equipped with stainless steel pump and adjustable dosage
- With 2 coloured clips for marking the filling
- Optionally available with closure plate

6156	500 ml
6157	1000 ml non-lockable
6158	1000 ml lockable

### > UNIVERSAL DISPENSER FOR HAND CLEANERS CONTAINING ABRASIVES

Universal dispenser for hand cleaners containing abrasives for 1000 ml and 2500 ml dispenser bottles

- Universal dispenser for abrasive hand cleaners
- Made of matt silver anodised aluminium
- Lockable
- With large viewing window
- With stainless steel operating lever
- Dosing via a high-quality stainless steel pump with adjustable dosing quantity

Art.-no.	Variant
6154	1000 ml lockable
6155	2500 ml lockable

### > 3 LITRE WIDE NECK SYSTEM

3 l system  
High quality metal pump for dosing high viscosity hand cleaners with abrasives and liquid soap.

**Fill content:** 3000 ml

**Dose approx:** 2.5 - 4 ml

**Description:** Wall holder for 3 L wide neck container

Art.-no.	Variant
6011	Pump
6010	Holder

### > 2.5 LITRE SYSTEM

High quality plastic pump for dosing high viscosity hand cleaners with abrasives and liquid soap.

**Fill content:** 2500 ml

**Dose approx:** 4 - 6 ml

**Description:** Wall mounting box for 2.5 L Dispenser bottles

Art.-no.	Variant
6016	Pump
6015	Holder
