2 YEAR WARRANTY

Flip-up InfoSign with 5-9406

5-9305 in Xpress lightbar

5-9305 InfoSign

5-9406 InfoSign

 Controller with backlit LCD display
and illuminated buttons
to aid night-time use

- Display up to 8 or 9 characters without scrolling
- Create and store up to 99 messages plus functions such as scroll, flash and wipe using Haztec Windows software
- Create custom bitmap symbols

Operation:

- Select the required message from the library and activate with the push of a button. The active message is also shown as a confirmation on the handset
- Multi-line display on controller shows the current message and allows the user to scroll through the library and preselect the next message; brightness of the message sign and controller screen can also be adjusted

Mounting:

- Supplied as a complete kit including mounting brackets, bolts, wiring loom and controller
- 9-9305 versions are suitable for fitting in Haztec Xpress lightbars - please see lightbar brochure

Options:

- Electrically controlled flip-up versions (suitable for interior vehicle use only)

Voltage:

- 12V as standard. Please contact sales for 24V options
