# PROFESSIONAL POLISH AND PADS

## **SUPER CUT PLUS (STAGE 1)**

has been designed for applications on used and weathered paint surfaces. The unique Powder Technology provides an outstanding cut, a perfect brilliant mirror-like gloss and a minimum of dust. Effortlessly removes scratches and grit P1500 sanding marks in seconds.

## **FINE CUT PLUS (STAGE 2)**

guarantees a perfect end-finish on paint work. Thanks to a microfine, high-purity aluminum oxide powder, light scratches and moderate signs of wear and tear in the top coat, as well as swirl marks and holograms from previous polishing applications, can be eliminated easily and effectively in just one single step.

Our polish line has been created for max performance and outstanding results while keeping the work process intuitive, simple and fast

**IMT**

INTELLIGENT MOLECULE TECHNOLOGY

The HBC Coating polish line contain abrasive agents (powder) based on state-of-the-art intelligent molecule technology.

The powder removes the dirt from the worn paintwork and polishes out micro-imperfections without causing new ones.

At the heart of every polishing compound is the powder therein that cuts the paint surface at the nanoscale when polishing. Most of the rubbing compounds available today do not contain the appropriate powder for modern requirements. The coarse and hard powder mass cuts deep scratches into the paint, often also because the polishing cloth that is used is either too rough or unsuitable for the application.

Other products	HBC Coating Polish
Utilize chalk as a filling agent	Aluminium oxide as abrasive ingredient
Soft abrasive grain = low efficiency	Outstanding handling
Irregular grain size	Consistent grain size, no irregularities
Creates micro scratches	Perfect gloss level
Difficult to clean	Excellent cleaning properties
High usage of compound	Economical use

# POLISH PADS

3D DIAMOND DESIGN

This new generation of intelligent polishing pads combine the advantages of foam and natural lambswool pads!

3D DIAMOND design increases the surface area of the polishing pad significantly.

Diamond design allows you to store compound within the pad doing the polishing.

Higher speeds (RPM) possible and noticeable reduction in actual polishing time.

Intuitive / easy to use  
1. Green Pad & Polish  
2. Purple Pad & Polish.

Open cell foam pads. Lower temperature build-up of the paint surface.

Enhanced cutting performance and greater yield of the abrasive grains.

# BEST IN CLASS FINISH

MADE SIMPLE, FAST AND EASY TO USE

The polish range is available as individual products (400ml or 1000ml containers) or in a complete Polish Package with everything required in a single system.

Professional Polish Package  
Part no. 690

Accessory polish pads

Short Wool Polish Pad  
Size M - 135/25mm  
(690-11PM)

# GLASSCOAT

## PAINT PROTECTION

### HBC Coating presents a revolutionary new paint protection; GlassCoat.

A ceramic glass resin, that when applied to your paint provides a permanent bond that protects and guarantees your vehicle's finish from environmental conditions not covered by the manufacturer's warranty.

GlassCoat is a clear liquid that is applied to the clearcoat of your vehicle. Unlike traditional waxes and sealants that simply "coat the surface", GlassCoat polymerizes and crosslinks onto the surface of the clear-coat.

The end result is a clear and extremely durable ceramic film that adheres so strongly to the surface that not even organic solvents can remove it.

### PROVEN DURABILITY

To determine the durability of the HBC GlassCoat using an Accelerated Weather test, SAE Test J2527-2004, which prescribes wavelength distribution, irradiance, humidity, exposure, and water spray cycles.

### THE TEST RESULT

**Glasscoat showed no failure after 1750 hours**

**The equivalent of 7+ years.**

Easy to apply paint protection which protects paint finishes against damage from machine car washes, acid rain and bird lyme.

Our polish range is available as individual products or as part of our full 360 Protection System for paint, wheels, interior - everything required in a single system.

**GlassCoat is the world's most durable paint protection, scientifically proven and guaranteed to last.**

#### NUMBER OF APPLICATIONS (AVG.)

1/2 a bottle per standard passenger vehicle.  
1 bottle for SUV. \* Depending on size

#### TIME OF REPAIRS (AVG.)

20-30 min. Depending on application size & skill level

**GlassCoat 60 ml**  
Part no. 570

Also available

- 570-1 Applicator Sponge
- 570-2 Clay Bar – 100 grams
- 570-6 Full Protection System for paint, wheels, interior, incl. accessories

# SURFACE PROTECTION

## LEATHER, FABRIC, ALLOYS

### Leather Protection Shield

guards leather seats and other upholstered parts against spills, stains and dirt. Coat any leather with leather Protection Shield to prolong the lifespan.

Leather Protection Shield enhances the fabric on a molecular level - preventing liquids from being absorbed onto surfaces.

**250ml Part no. 574**

### Alloy Wheel Protection Shield

guards your alloy wheels against dirt, grime and brake dust to keep them looking like new!

Creates a hydrophobic (water repellent) surface on alloy wheels. Harsh wheel cleaners and scrubbing will no longer be required and cleaning time is reduced. For all alloy, steel, chrome-plated, polished & diamond cut wheels.

**100ml Part no. 572-2**

## CLEAN POLISH PROTECT

### Fabric Protection Shield

guards fabric and velour seats, carpets and other upholstered parts against spills, stains and dirt. Coat any fabric with Fabric Protection Shield to prolong the lifespan.

Protection Shield enhances the fabric on a molecular level. The result? Fabric upholstery (interior parts) that resists spills, repels stains and wicks away moisture.

250ml Part no. 575

### Leather Care System

**LEATHER GUARD** is a water based protection cream for all leather types, except nubuck & suede. **INK REMOVER** eliminates stains & pen marks, lipstick from pigmented leather. **LEATHER CLEANER** contains a highly effective detergent for cleaning pigmented leather upholstery. **STAIN REMOVER** removes resistant stains from leather & PVC materials.

Part no. 943

# CLEANING RANGE

Available for interior care such as fabric, leather, vinyl and plastic interior as well as exterior care such as shampoo, alloy wheel and glass cleaners and polishes.

**Our cleaning system has been designed with effectiveness and premium results in mind while ensuring that costings and time usage is low.**

## **Fabric Cleaner**

Part no. 590-1  
250 ml

## **Alloy Cleaner**

Part no. 590-2  
100 ml

## **Leather Stain Remover**

Part no. 942-1  
100 ml

## **Leather Cleaner**

Part no. 940-1  
250 ml

## **Plastic Cleaner**

Part no. 590-4  
100 ml

## **Auto Shampoo Concentrate**

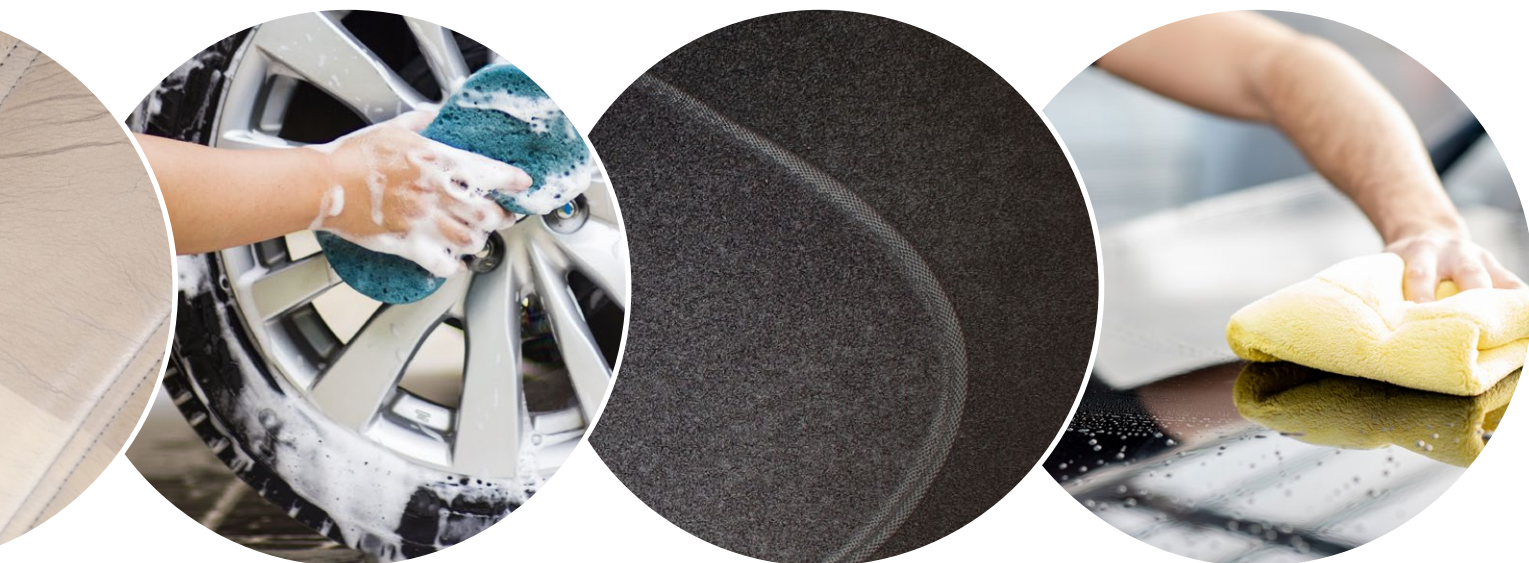

Part no. 590-3  
50 ml

CLEAN POLISH PROTECT

# CLEANING RANGE

## Professional Detailing Cleaning Package

Part no. 590

# 360°

## CLEAN POLISH PROTECT

Designed to sanitize enclosed areas for mold, bacteria, viruses and will eliminate all odours without the use of chemicals

# OZONE PORTABLE AIR CLEANER

### Part no. 109 OZONE Air Cleaner

Lamp: UV-C 16W - Voltage: 220 / 110 VAC 50 Hz -  
Temp: -5/ +25 C - Output: 140 mg/h. 0.01944 ppm/  
sec/m3. - Weight: 4,1 kg. - Dimensions (LxWxH):  
430 x 130 x 130 mm

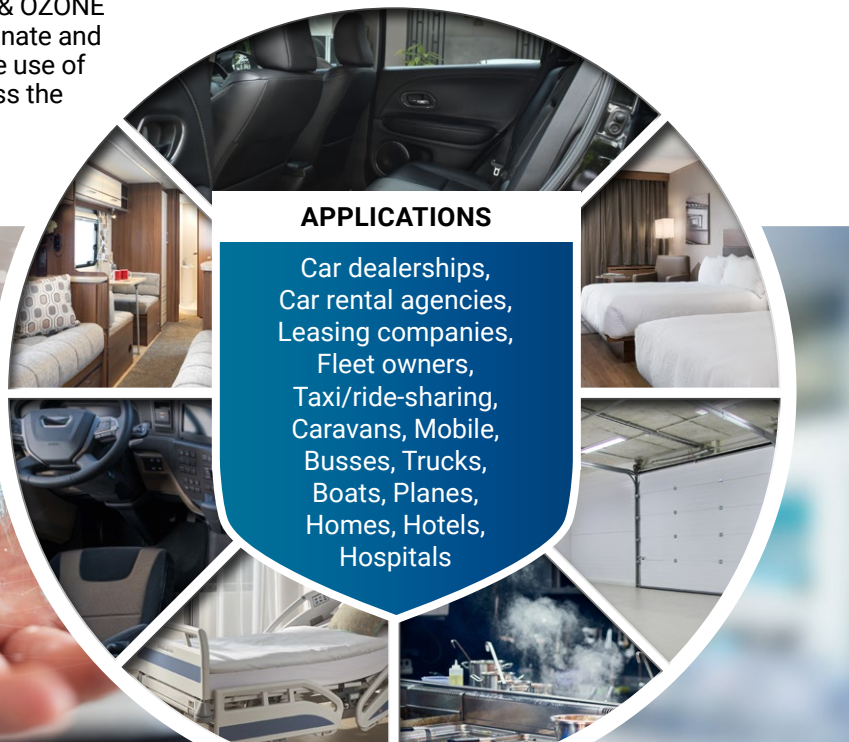

It has never been more important to ensure clean air in all areas where people are present and especially where the risk of disease spreading is high, such as vehicles with several users and passengers.

Utilizing the patented combination of UV-C & OZONE Technology you can now permanently eliminate and remove any unpleasant odours - without the use of chemicals. The odour does not return, unless the pollutant is still present.

**The OZONE Air Cleaner destroy the particles with UV-C light. Eliminating the cost and time of replacing filters.**

**ELIMINATION OF  
MOULD FUNGUS  
UP TO 99,9%**

### APPLICATIONS

Car dealerships,  
Car rental agencies,  
Leasing companies,  
Fleet owners,  
Taxi/ride-sharing,  
Caravans, Mobile,  
Busses, Trucks,  
Boats, Planes,  
Homes, Hotels,  
Hospitals

When the OZONE unit cleans the air for odours, micro-organisms such as airborne bacteria, viruses, and fungal spores are also removed. Reducing the risk of transmitting infectious diseases.

Small  
investment

# ACCESSORIES

## CLOTHS & TOWELS

### Microfiber Cloth

Part no. 570-3

Premium Microfiber Cloth 320 GSM with usinic wave cut edge perfect for both coating and polishing.

Size: 40 x 40 cm

Packing: 1 pcs in a polybag / Large quantity

Material: 80% polyester 20% polyamide

### Microfiber Water Towel

Part no. 570-5

Premium Water Towel 390 GSM. Perfect for drying; SUPER absorbing powers.

Size: 60 x 40 cm

Packing: 1 pcs in a polybag / Large quantity

Material: 80% polyester 20% polyamide

# ACCESSORIES

## CLAY BAR

Clay bar - 100 gram  
Part no. 570-2

High-quality Clay Bar in plastic case for multiple use.

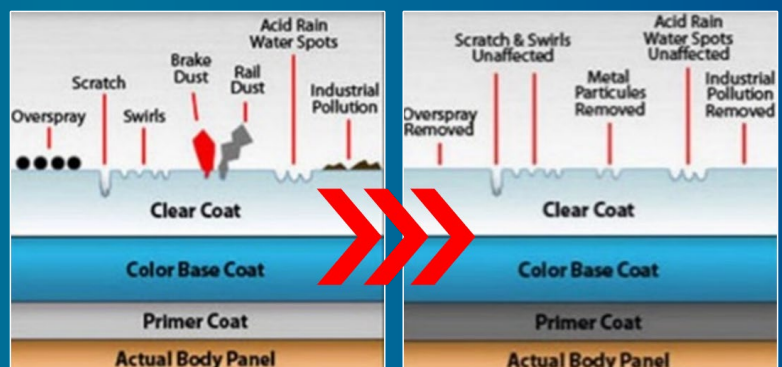

The clay bar absorbs contaminants within the surface leaving it glassy and smooth to the touch

Clay bar is used to remove dust, dirt, industrial fallout, acid rain, and other contaminants from your car's exterior surfaces. The process involves removing particles that stick to the clay when it is rubbed along the car's surface. Claying is most commonly used on paint, but also works on glass, fiberglass, and metal. When done properly, claying is non-abrasive and will not damage your car.

Avg. paint condition after wash

After claying the paint surface

# ACCESSORIES

## SPONGES, BRUSHES

**ClassCoat applicator Sponge**  
Part no. 570-1

### The sponge consist of 3 unique layers

Traditionally a coating applicator needs both the sponge itself and a cloth around the sponge. This specially designed applicator sponge comes all included, so NO need for extra work when applying coatings.

- » Constructed to minimize consumption of products
- » Maximizing usage of the surface coating
- » Easy to use – 2 in 1 applicator
- » Can be used for all types of surface coatings

**Cleaning Brush** Part no. 590-6

This Cleaning Brush is perfect for all types of wheels, interiors and similar cleaning tasks. Universal size + round head is designed to work with all types of cleaners and with a soft plastic collar it will clean the most delicate of finishes without scratching the surface. The brush is made out of high quality chemical resistant synthetic short hairs constructed to minimize consumption.

**Application and Cleaning Sponge**  
10 Pack Part no. 941-1

This Applicator Sponge can be used for all types of creams and liquids. Constructed to minimize consumption of products.

## PROTECTION SHIELD PACKAGES

### PARTIALLY SELF-CLEANING

Easily remove dirt, bugs, mud. Ice does not even stick in temp. down to -8°.

### VIRTUALLY NO NEED FOR WIPERS

At +80 km/h, drops slide off. Washer fluid consumption is reduced by est. 80%.

### IMPROVES VISIBILITY AND SAFETY

In all weather conditions. Less glare from oncoming traffic.

### EASIER BATHROOM CLEANING

Simply rinse protected surfaces with water or wipe with a cloth! Reduces cleaning cycles.

### PREVENTS LIMESCALE BUILDUP

Instead of sticking to your surfaces, water, suds and dirt will just slip away!

### SAVES TIME AND MONEY

No need to scrub your bathroom with expensive/harmful chemicals. Better for the environment!

All included DIY packages, designed to provide the very best in protection through easy steps.

**HBC coating**  
**ALLOY WHEEL PROTECTION SHIELD**  
 DIRT, WATER & SALT REPELLENT COATING

A unique, long-lasting, coating that creates a hydrophobic (water repellent) surface on alloys wheels.

**LASTING WHEEL PROTECTION**  
 For all alloy, steel, chrome-plated, polished and diamond cut wheels.

**BRAKE DUST PROTECTION**  
 A durable coat that provides excellent protection against brake dust and its corrosive effects.

**EASIER CLEANING**  
 Harsh wheel cleaners and scrubbing will no longer be required and cleaning time is reduced.

**LASTING WHEEL PROTECTION**  
 For all alloy, steel, chrome-plated, polished and diamond cut wheels.

**BRAKE DUST PROTECTION**  
 A durable coat that provides excellent protection against brake dust and its corrosive effects.

### All packages include

Protection Shield Cleaner (100 ml)

Protection Shield Coat (100 ml)

Applicator sponge,  
Soft cloth, Instructions

HAND

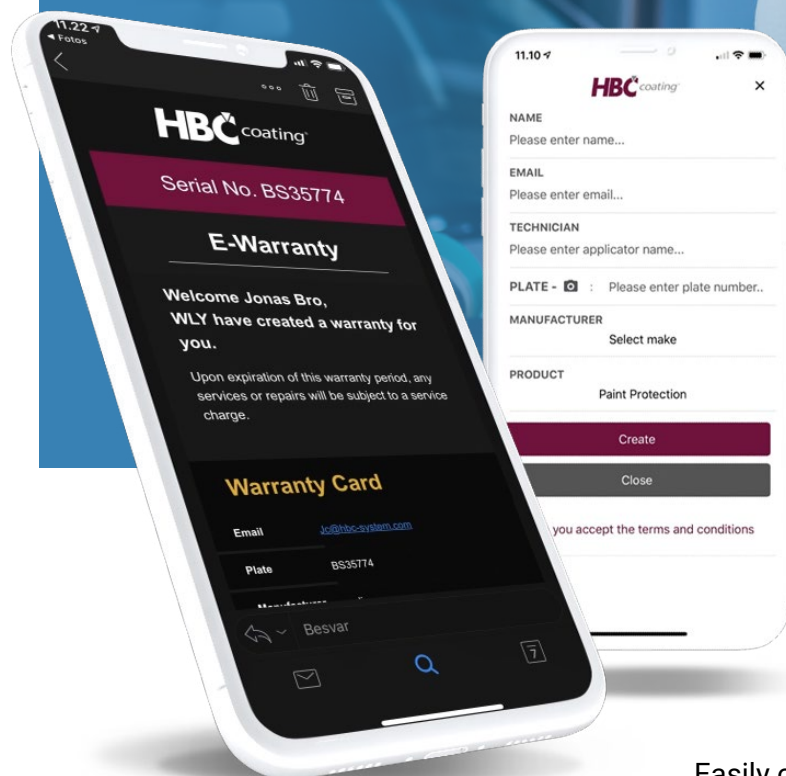

**FORMULATED TO BE  
EFFECTIVE BY HAND OR  
BY MACHINE**

# WARRANTY APP

## CUSTOMER WARRANTY MANAGEMENT

1. APPLY TREATMENT
2. SCAN LICENSE PLATE
3. CONFIRM WARRANTY

The polish range is powered by our Warranty App. With the App you can issue warranties, once the coating or polish has been applied. The customer is notified when a warranty is about to expire and reminds them to get a new treatment.

## CUSTOMER RETENTION AND MANAGEMENT MADE SIMPLER

Easily create warranties on a mobile platform. Register customer details, choose what kind of application has been completed. The customer then receives a E-Warranty.

We have created a licence plate scanner to capture the reg. number with just a picture. We support 90+ countries. Including motorcycles, buses, trucks.
