

## AUTOMOTIVE HOSES

Be it straight, preformed or branch with or without connector - we do it

Materials: EPDM, NBR, NBR/PVC CR, AEM, NR

Type of Yarn: Polyester, Nylon, Aramid, Cloth

Reinforcement: Knitting, Braiding, Spiral, Cloth Knitted

Standards: SAE J20, J30, DIN 73379, DIN 73411

## RUBBER MOLDED PARTS

Be it simple all rubber, complex or rubber to metal bonded - we do it

Designed to order - no quantity is too big or small.

Capability to produce parts up to 1200 x 1500mm.

In-house tooling to save cost, ensure quality, reliability and timely delivery.

Materials used are EPDM, CR, NBR, SBR, NR, NBR/PVC and AEM.

## METAL & PLASTIC PARTS

We offer a wide range of Automotive sheet metal components as per the CUSTOMIZED requirements and specifications.

Precision Fabrication for all engineering needs from quality to volume quantities as per your specifications and requirements in mild steel / stainless steel / brass / aluminum or any metal.

These Automotive Plastic Components are made up from PP, PA6 GF, ABS, PC-ABS grade plastic.

Materials used are EPDM, CR, NBR, SBR, NR, NBR/PVC and AEM.

## a tradition of quality

Since 1953 Darson has been at the forefront of manufacturing industrial rubber products. Darson's manufacturing facilities comprise a completely integrated plant to manufacture the products right from compounding, calendaring, extrusion, fabric, braiding, knitting, spiral reinforcement, molding, testing and on to the finishing stage.

With the advent of automobile manufacturing era in Pakistan, Darson diversified to add to its line a range of automotive hoses, and since then has become the most preferred source for preformed molded hoses. With addition in its manufacturing capacity Darson is now selling automotive hoses across the globe.

The growth of automobile industry alongside has developed many supporting industries, off which wiring harness and air conditioning have become prime customers for Darson.

## Mission

Leveraging our heritage of a decades of rubber processing, we thrive on building lifelong relationships with our ever-growing family of reliable suppliers, competent employees, and happy customers while contributing to the community's sustenance.

## Vision

The most preferred manufacturer/supplier of fluid transfer, anti-vibration, and protection parts in the global automotive market.

## Values

Building Relationships  
Creating Opportunities  
Being Prudent  
Winning as a Passionate Team  
Leading with Integrity

## Core Philosophy

Change  
Optimize  
Rationalize  
Energize

## Certifications

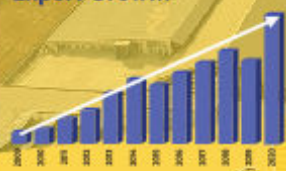

IATF 16949:2016  
ISO 9001:2015

ISO/IEC 17025:2017
