Your powertrain specialist!

OUR HISTORY

- 1979  **Creation of the company in sole proprietorship by André NEICHEL**
Since his childhood, André Neichel was fascinated by mechanics.
Since his first gearbox repair, passion, work and motivation have proven themselves.
- 1987  **Construction of the buildings in Seltz**
Creation of the LLC (French SARL)
- 1992  **Transformation of the LLC to a public limited company (French SA)**
- 1998  **Buildings expansion**
- Modernisation of the offices
- Expansion of the storage capacity
- 1999  **Capital increase to €300,000**
Certification: ISO 9002
- 2002  **Capital increase to €420,000**
Certification: ISO 9001:2000
- 2003  **Expansion of the storage area to 3,000m²**
- 2005  **Certifications: ISO 14001 and OHSAS 18001**
- 2011  **Expansion of the storage area to 3,500m²**
- 2012  **Logo redesign**
Creation of the trade name NEICHEL Automotive
- 2013  **Takeover of the company by Audrey NEICHEL**
- 2016  **Certification: ISO 26000:2010**

About NEICHEL Automotive

OUR PHILOSOPHY

As a B to B stakeholder on the Aftermarket, our mission is to ensure offering you the highest products and services - no matter whether genuine or interchangeable (OEM quality), according your needs and your customers ones.

We work exclusively with **partners recognised for the quality and reliability** of the products and services offered.

With more than 35 years of experience, our family-owned business offers a comprehensive service and specialised advice. Our **technical knowledges**, the **number of parts** of our extensive stock and our **know-how** account for **our success**.

"We attach priority to offer our customers products and services of the highest quality. In order to meet your expectations, we carefully select our suppliers and partners."

Your powertrain specialist!

One of your vehicles had a breakdown? Now fast and reliable help is required!
Neichel Automotive provides high-quality solutions - for spare parts and complete aggregates
- according to your expectations for the aftermarket.

Our products

NEICHEL Automotive sells and develops high-quality spare parts and equipment for axles, gearboxes, clutches and engines for industrial vehicles, trucks, buses and construction equipment.

"Consulting and repair, we offer a comprehensive service"

validation.

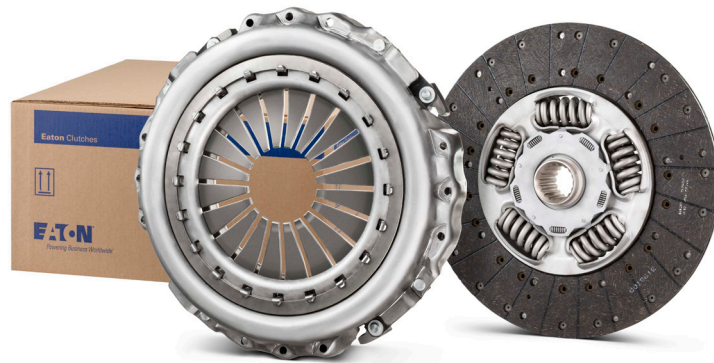

Clutches

NEW EQUIPMENT

Diameter 430 mm

A complete range to meet the individual requirements of every customer.

Clutches are available with various options:

- Manual or automatic adjustment,
- Different torsion dampers,
- Single or double clutch,
- Traction and propulsion - front-wheel or rear-wheel drive,
- Ceramic or organic facings

Our product range covers **more than 98%** of the european market for commercial vehicles (new and old models).

The notoriety of EATON products guarantees you quality products.

A thousand clutches are available in our shop for brands such as RENAULT Trucks - VOLVO SCANIA - IVECO - MERCEDES - MAN ...

Product plus

New products without **old core return!**

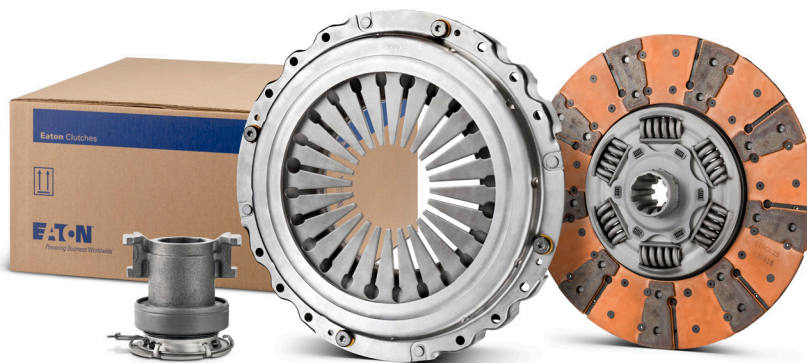

Clutches for severe applications

NEW EQUIPMENT

Latest generation: ceramic facing

Are your clutches failing frequently?
This technology is made for you!

Major characteristics:

- Better thermal resistance than organic products
- Increased coefficient of friction
- Longer life
- Excellent comfort
- High strength
- Alternative to 400mm Twin-plate

Product plus

EATON patented products!

Applications concerned:

- For use at high torque in difficult conditions
- As a replacement for twin-plate
- As a replacement when the engagement quality is a critical element

Axles

SPARE PARTS NEW EQUIPMENT STANDARD EXCHANGE OVERHAUL

Depending on your needs, we are able to offer you an extensive choice of parts:

- High-quality original and interchangeable parts
- Complete equipment: New, standard exchange or remanufactured

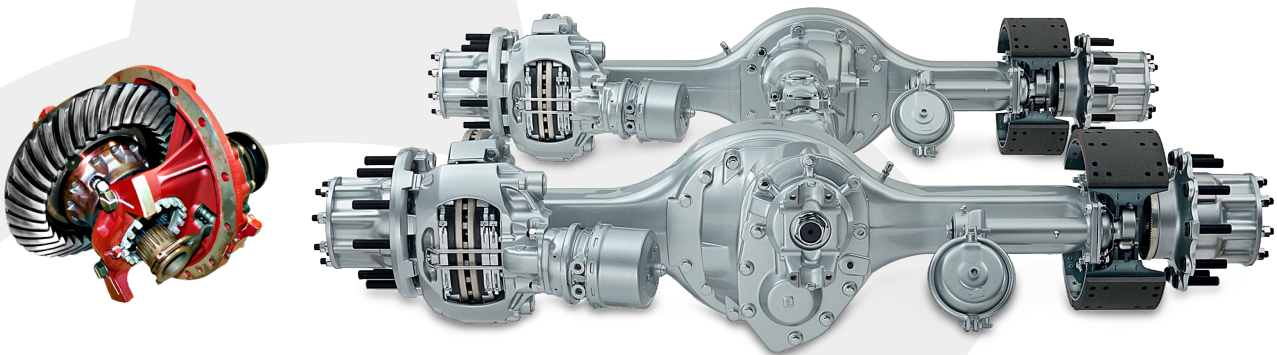

MERITOR Distributor

The **MERITOR** brand is preferably deployed as original equipment by **Renault Trucks, Volvo, Iveco, Irisbus** and other manufacturers.

In France, **every third vehicle** is equipped with an **OE MERITOR** axle (24% of the vehicles in Europe).

Each **MERITOR** spare part is produced according to the specifications and quality requirements of the original equipment. The spare parts can be mechanically modified on request to guarantee long life and optimum performance.

MERITOR axles are available as new, standard exchange or remanufactured.

Axle remanufacture

We are able to remanufacture all trucks and construction equipment axles with a **12 month guarantee, parts and labour.**
