

QUALITY. PURE AND SIMPLE.

QUALITY. PURE AND SIMPLE.

PRODUCTS THAT MEET THE TOUGHEST INDUSTRY STANDARDS

Pure Guard is a line of high performance and top quality lubricants distributed through a reputable network of marketers and retail outlets around the world. **Pure Guard's** products are specially formulated with premium base oils and advanced additive technology to provide outstanding protection to on-road and off-road equipment applications in a wide range of operating conditions.

Every **Pure Guard** product is certified to meet or exceed the latest specifications set forth by the Original Equipment Manufacturers (OEMs), the American Petroleum Institute (API), SAE, ILSAC, ACEA and other international agencies.

EXTENSIVE LINE OF TOP-QUALITY PRODUCTS

Pure Guard's extensive line of products includes premium products for passenger cars, commercial vehicles, off-highway applications, marine, construction, manufacturing and agriculture equipment. Few other suppliers can match **Pure Guard's** depth of product selection. Our products are packaged in a wide variety of sizes and styles including 2.6oz., 32oz. and 1 gallon bottles; 5 gallon pails, 55 gallon drums and 275 gallon totes. High quality products are also available in bulk, ISO containers and Flexibags.

ADVANCED TECHNOLOGY CREATES HIGH PERFORMANCE PRODUCTS

Multiple levels of stringent quality control testing are carried out in our ISO 9001 and A2LA Certified Laboratory to stay on the cutting edge of lubricant technology. Seven fully automated packaging lines with state-of-the-art inspection stations further ensure **Pure Guard's** quality. These stations are equipped with infrared fluid level and cap seal verification, bar code scanners, and vision systems for label accuracy. We also constantly monitor the quality of our raw materials, safety standards, shipping processes and deadlines. All of this is done to maintain the highest levels of quality and customer satisfaction.

GASOLINE Engine Oils

Pure Guard is engineered to provide superior engine performance, outstanding engine cleanliness, and exceptional protection against heat, deposit and wear, while minimizing vehicle maintenance, increasing fuel efficiency and prolonging engine life. It is approved for all automobile and light truck gasoline engines including turbocharged models.

Pure Guard offers a range of advanced engine oils for your car, including synthetic, synthetic blend, multi-grade, high mileage and non-detergent motor oils.

Full Synthetic European Motor Oil

Fully synthetic motor oil specially formulated with ultimate active cleansing technology to provide the highest level of protection demanded by high-performance engines.

Available in: SAE 0W-30, 0W-40, 5W-30, 5W-40, 10W-30

Full Synthetic dexos® Motor Oil

dexos1™ Gen 2 is a full synthetic lubricant that provides high quality engine protection. The dexos specification holds motor oils to the same stringent requirements as GM's most advanced engine technology. GM dexos1™ Gen 2 testing contains specific proprietary tests that are not included in current industry standards. Meaning, GM dexos1™ Gen 2 approved oils exceed the performance of today's conventional oil.

Available in: 0W-20, 5W-20, 5W-30

Full Synthetic Motor Oil

Fully synthetic motor oil provides protection under all driving conditions. It is specifically formulated to provide extra protection against the harmful effects of city driving, where cars undergo a higher stress due to constant stop-and-go conditions.

Available in: SAE 0W-20, 5W-20, 5W-30, 5W-40, 10W-30, 10W-40, 20W-50

Synthetic Blend Motor Oil

Our low friction formula helps improve gas mileage for long engine life and helps protect against rust, corrosion, startup wear and varnish build-up.

Available in: SAE 5W-20, 5W-30, 5W-40, 10W-30, 10W-40

Multi-Grade Motor Oil

Provides high quality engine protection under all driving conditions and is specifically formulated to provide extra seal protection to minimize oil leaks, and control deposits and sludge in higher mileage vehicles.

Available in: SAE 5W-30, 10W-30, 10W-40

High Mileage Motor Oil

Premium highly refined motor oils that provide extraordinary oxidation and thermal stability under the most extreme driving conditions.

Available in: SAE 5W-20, 5W-30, 10W-30, 10W-40, 20W-50

Non Detergent Motor Oil

Blended with selected premium base oils and anti-foaming additives to provide superior protection against deposits, foam and sludge formation.

Available in: SAE 10, 30, 40, 50

DIESEL Engine Oils

Pure Guard is designed to help minimize the cost of operation and lubricant ownership, while maximizing equipment utilization. **Pure Guard** has been tested in both current and older emission engines and meets the requirements for enhanced performance.

Synthetic Blend Oil

Synthetic Blend Diesel Motor oils specially formulated with the highest quality synthetic and premium base oils to provide higher performance versus conventional oils, while prolonging today's high performance engines' life.

Available in: SAE 5W-40, 15W-40

- Outstanding protection against deposits and sludge formation
- Extended TBN reserves which provide improved acid neutralization and corrosion protection
- Ensures oil remains in grade through all seasons and under severe loads
- Extraordinary soot and oxidation control, and thermal stability
- Exceed toughest US standards for gasoline engines requiring API CK-4, CJ-4, CI-4 PLUS, CI-4, CH-4, SP, SN PLUS, SN, SM, and SL

Conventional Oil

Engine Oil with advanced soot control to lubricate and protect today's high performance, fuel-efficient, low emission diesel and gasoline engines. It ensures that the oil remains in grade through all seasons and under severe loads. It exceeds requirements of API CI-4 PLUS for enhanced engine protection.

Available in: SAE 5W-30, 10W-30, 15W-40 10TBN, 15W-40 12TBN , 20W-50

- Excellent soot handling capabilities
- Maximizes oil flow to the critical bearing surfaces during start-up
- Contains properties which provide anti-wear and anti-scuff
- Extended drain capabilities—excellent water tolerance
- Exemplary thermal stability and oxidation control

FLEET Motor Oils

Fleet vehicles don't get days off. They have to perform day after day, in heavy traffic, bad weather and with frequent starts and stops. Fleet vehicles require special formulations to meet the demands these vehicles endure.

Pure Guard Fleet Motor Oils were created specifically for these road warriors. Their low friction formula boosts gas mileage, extend engine life, reduce start-up wear, and protect against thermal breakdown. Helping fleet vehicles get the job done.

Mono Grade Fleet Motor Oil

Blended with high quality base oils and formulated with superior additive packages to exceed the toughest U.S. standards for today's high performance engines.

Available in: SAE 10, 30, 40, 50

- Exceptional protection against rust, corrosion, and startup wear and varnish build-up
- Suitable for light and heavy duty trucking, and construction, quarrying and agriculture applications
- Low friction formula helps improve gas mileage and protect critical components in both on and off highway applications

Multi Grade Fleet Motor Oil

Formulated with superior base oils and advanced additive technology to combat sludge build-up and component wear, maintaining advanced levels of engine protection and cleanliness.

Available in: SAE 10W-40, 15W-40, 20W-50, 25W-50, 25W-60

- Suitable for on-road and off-highway applications
- Superior soot control, thermal break-down resistance, and corrosion protection
- Outstanding protection over long-drain intervals
- Lowers friction and improves gas mileage

TRANSMISSION Fluids

Pure Guard Transmission fluids give you superior slippage reduction, for faster, firmer shifts. So you feel your vehicle's total performance.

Available in: 32oz., 1 Gallon, 5 Gallon, 55 Gallon Drum, 275 Gallon tote

**Full Synthetic
Global ATF**

Fluid Type F**

HYDRAULIC Oils

Available in: 5 gallon pail, 55 gallon drum and 275 gallon tote

Tractor Hydraulic Fluids

No Sheen Hydraulic Oil

Available in: ISO Grade 32, 46, 68 and 100

XL Synthetic AW Hydraulic Oil 68

Torque Fluids

Available in: ISO Grade 10, 30 and 50

XL-6000, XL-5000 and XL-2500 AW Hydraulic Oils

XL-6000 available in: ISO Grade 22, 32, 46, 68, 100
XL-5000 available in: ISO Grade 15, 22, 32, 46, 68, 100, 150
XL-2500 available in: ISO Grade 32, 46, 68

El Hydraulic Oil

Available in: ISO Grade 32, 46, 68 and 100

GREASE

Pure Guard greases are designed for use in automotive and industrial equipment. Developed using the highest quality base stocks and the latest additive technology to provide superior lubrication.

Available in: 14 oz., 1 lb., 35 lb. Pail, 120 lb. Keg, 400 lb. Drum

High Temperature EP Grease

A lithium complex grease of the highest quality made from natural fatty acids, highly refined mineral oils and additives. Recommended for use in industrial and automotive bearings, chassis components, universal joints and disc brake wheel bearings operating under normal service conditions to severe.

- Protects against rust and corrosion.
- Outstanding water and oxidation resistance
- Extreme pressure grease
- Designed for high operational temperature
- High mechanical stability
- High retention test bearing (stickiness)

Multi-Purpose EP Grease

General purpose lubricant grease made with minerals base oils, lithium soap and antioxidant additives. It is suitable for use in industrial and automotive bearings, agricultural and industrial water pumps, and universal joints and chassis points for passenger trucks, buses, tractors and mobile equipment.

- Good load carrying capability
- Excellent mechanical stability
- Drip temperature above 180° C
- Operating temperature up to 135° C
- Superior protection against rust and oxidation
- Good resistance to water washout

GEAR Lubricants

Pure Guard automotive gear oils are specially formulated to withstand the super high pressures of ring and pinion sets, transmissions and final drives, protecting against scuffing, scoring and rust, even in the worst conditions. They offer smooth running gear operation under various temperature conditions.

GL-5 SynGuard - Full Synthetic Gear Oil

Advanced 100% synthetic technology provides long lasting lubrication to transmissions and final drives. They are designed for extreme pressure offset spiral bevel and hypoid gear sets.

Available in: 75W-90, 75W-140, 80W-140

GL-5 High Performance Gear Oil

Premium multi-purpose gear lubricant formulated with high quality base oils and a select extreme pressure additive system to provide anti-weld, anti-scuff and anti-wear properties that are necessary in heavy-duty service gear lubricants. They are designed to be used in limited slip differentials.

Available in: 80W-90, 85W-140

GL-1 High Performance Gear Oil

GL-1 Gear Oil is manufactured with high quality base stocks to provide exceptional protection under the most extreme conditions in commercial transmissions, newer and older drive train applications.

Available in: SAE 90, 140, 250

SMALL ENGINE

2 STROKE Oils

Pure Guard Small engine oils are formulated to maximize performance in strenuous environments. These oils provide protection under a wide range of operating conditions.

2-Cycle Engine Oil

2-Cycle Engine Oil is specifically designed for use in newer high performance air-cooled engines, but can be used in any air-cooled engine where low ash oils are recommended.

Available in: 2.6oz., 6.4oz., 12.8oz., 16oz., 32oz., 1 Gallon

- Excellent engine protection in both variable ratio injection systems and fuel/oil pre-mix applications. It is pre-diluted to provide easy mixing
- Fully compatible with low octane, oxygenated/gasohol fuels
- Burns cleanly and helps keep port clear for maximum output. It also protects ball and needle bearings during high RPM use

TC-W3® Engine Oil

Superior quality ashless 2-cycle lubricant, formulated with premium base oils and modern ashless detergent additive package to maximize performance and to protect outboard engines including high horsepower units.

Available in: 16oz., 32oz., 1 Gallon, 5 Gallon Pail, 55 Gallon drum, 275 Gallon Tote

- Pre-diluted for ease of mixing and may be used in injection systems
- Meets NMMA TC-W3® performance requirements
- Excellent performance in 2-cycle engines of motorcycles, chain saws, lawn mowers and snowmobiles
- Registration Number RL-93051R

MOTORCYCLE Oils

Pure Guard Motorcycle oils are formulated to maximize performance in strenuous environments. These oils provide protection under a wide range of operating conditions.

Full Synthetic 4-Cycle Motorcycle Oil

It is a 100% synthetic lubricant for 4-cycle motorcycle engines formulated with high viscosity index base oils and premium additives.

Available in: 10W-40, 15W-50, 20W-50

- Multi-grade formula allows easier cold starts while maintaining high temperature film strength
- Excellent protection for transmissions and wet clutches
- Meets JASO MA2 and API SN requirements

Premium 4-Cycle Motorcycle Oil

It contains a new and improved formulation that meets and exceeds API's highest standards for gasoline engine lubricants with a service requirement of SL. This blend is specifically formulated for use in a variety of 4-cycle engines such as lawn mowers, garden equipment, small tractors, power generators, power tools, all terrain vehicles, snowmobiles, motorcycles and water pumps.

Available in: 5W-30, 20W-50, 10W-40, 25W-50

- Superior additives keep engines cool, clean running and free from build up of rust, corrosion, sludge and varnish
- Specially selected base oils for a quick cold start, plus optimal protection and lubrication under severe conditions
- Meets JASO MA1 / MA2 requirements
