- ▶ In response to **market demand**, Dr. Motor is introducing products that which will facilitate the work of all car repair shops.
- ▶ more than **thirty years of experience** and technical knowledge of product managers, has enabled the efficient selection of materials and methods of production,
- ▶ **our goal** is to create a **wide range of engine parts** – for passenger cars and light commercial vehicles.

- ▶ In the independent aftermarket, parts for the BOSCH injection system are mainly available
- ▶ Our program includes parts for all systems
Bosch / Siemens / Denso / Delphi
- ▶ **Unique** products that inspire customers' trust
exmp.. oil cooler gasket / injector bolts
- ▶ We react quickly to the needs of the market / customers
- ▶ Monthly, we introduce from several to a dozen new references
