ABOUT SUPER CIRCLE

We manufacture a wide range of high quality, precision engineered automotive parts. We are a leading name in friction products like brake pads, brake shoes and brake linings.

Over 65% of our production is exported to more than 70 countries worldwide in Europe, North and South America, Australia, Asia and Africa. In India, our products are supplied to many OE customers. Furthermore, we have long standing contracts with various government and defence departments.

Our manufacturing unit has high-end production facilities and is situated on prime industrial location near the nation's capital Delhi.

We have always delivered high technology at low cost. The resolve for quality, combined with a vast and well-knit marketing and sales network, interactive customer support services and a 50+ year old track record of product reliability and market stability, have made Super Circle a name people trust.

PC BRAKE PADS

Our brake pads provide excellent braking performance, high resistance to fade and consistent brake pedal feel. The brake pads are made in vehicle-optimized formulations in semi-metallic, non-asbestos organic and ceramic compositions for superior performance. We are supplying brake pads to many OEMs.

PC BRAKE SHOES

We manufacture high performance brake shoes for cars and three-wheelers. The brake shoes are bonded with rigid or rubberised brake linings as per the requirement. The special adhesive used for bonding the brake shoes is capable of absorbing high temperatures. Our brake shoes have unique features and unmatched quality.

CV BRAKE PADS

We bring you safe and reliable brake pads which are efficient and give high performance even in extreme conditions. With stable co-efficient of friction even at very high temperatures, these brake pads give extra durability and reduced disc wear. All our CV brake pads are ECE R90 homologated.

PC BRAKE LININGS

We have established a very high capacity production line to manufacture car brake linings. Our linings give an excellent performance and braking comfort. With high accuracy moulding machines, automated billet cutting machines & grinding machines, we are catering to huge OEM requirements of many important players in Europe.

CV BRAKE LININGS

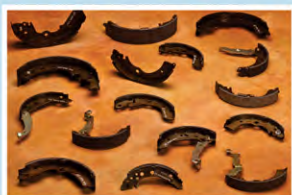

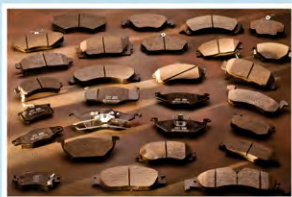

We make brake linings, brake blocks and brake billets in special non-asbestos compositions that are designed to suit your requirement and the application. Most of our brake linings are ECE R90 homologated.

MC BRAKE PADS

We have set-up special production lines to make motorcycle brake pads in bulk quantities at economical prices. All the brake pads have special materials which give a great braking experience and a long life.

Roko Linings (India) Private Limited manufactures asbestos-based and asbestos-free moulded roll linings.

The company's asbestos-free roll linings are made in organic and metallic compositions. All kinds of moulded roll linings are made with wire backing also. A general purpose flexible moulded material, roll linings are suitable for bonding purposes. Roll linings are designed for multi-purpose usage for passenger cars, two / three wheelers and for industrial purposes. They display smooth stopping power and a consistent performance record. The company has latest testing equipments in the laboratory.

Roll linings are currently being exported to more than 25 countries across the globe. Over the course of 20 years of customised production services, the clients have come to know the company for reliability.

PRODUCT RANGE

RS124	Asbestos-Free Organic - Economy
RS555	Asbestos-Free Organic - Premium
RS777	Asbestos-Free Metallic
SR20	Asbestos - Economy
SR27	Asbestos - Premium

SIZE RANGE

Width : 25mm - 330mm
Thickness : 3mm - 12mm

MOULDED ROLL LININGS / BRAKE ROLL LININGS

APPLICATIONS

Roll Linings are being used widely for the following applications:

AUTOMOTIVE

Brake Shoes for Passenger Cars
Brake Shoes for Light Commercial Vehicles
Brake Shoes for Two / Three Wheelers

INDUSTRIAL

Sugar Industry
Textile Industry
Elevators for mining operations
Other general purpose machinery requiring braking operation
