Auto Leaf Spring

SINCE **1993** Profession constructs
high quality

COMPANY PROFILE

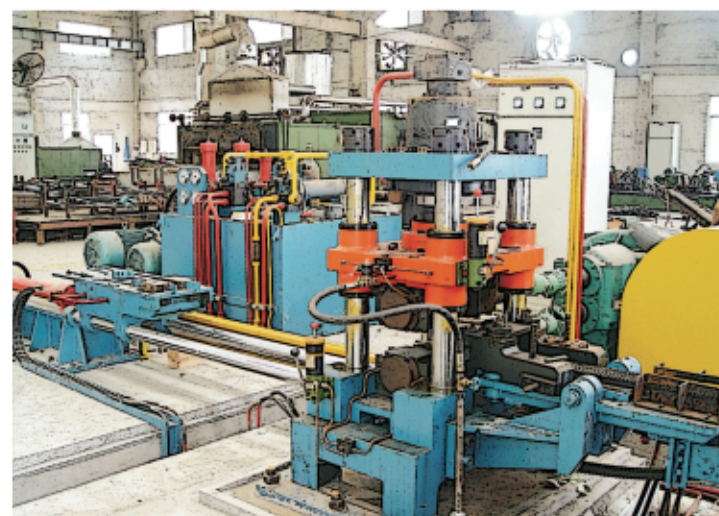

Zhonglin Industry Co., Ltd., a large scale company specializes in manufacturing an entire range of leaf spring assemblies for different kinds of vehicles ranging from trucks, trailers, agriculture vehicles, to light or heavy-duty vehicles. The company is located in Longyan City, the west of Fujian, China. It takes 2 hours from the Xiamen port to the company by car. Here the traffic is convenient and the surrounding environment is very suitable.

The company was established in 1993. Through more than 20 years of effort, the company has produced advanced automobile spring leaf assemblies and production lines, superior testing equipment and powerful technical force, perfect sales channel and obtained ISO/TS 16949 Quality System Authentication Certification. This allows us to be confident in meeting our customers most stringent requirements

For more than twenty years, we have been supplying our customers with the premium leaf springs as specified, which is made of 60Si2Mn(SUP6), 55CrMnA(SUP9), 50CrVA(SUP10) and etc. All these materials are up to the international standard. Now the company has a monthly output of more than 1500 tons of leaf springs. We are qualified to do the OEM service and guarantee that all our products meet the overseas advanced examinations as well.

Today all the staff incessantly work hard to offer you competitive prices, uncompromising quality products and fast delivery service. All the customers at home and abroad are always welcome to visit our company. We sincerely look forward to cooperating with you one day.
