

WWW.APCAT.EU

The new online catalogue **APCAT** allows a quick search and selection of spare parts for cars, vans and motorbikes based on: AP internal number, manufacturer or OE part number, VIN and KBA number as well as by vehicle model and by means of graphic selection. In countries that allow it, the search is done using the number plate. Thanks to the extended search tree, you will also always find the right universal parts.

Furthermore, you have the possibility to create sub-accounts and assign them to your end customers. The time you used to spend collecting and transferring orders from your end customers to AP can now be used for new customer acquisition, for example.

With the new Margin Tool 2.0, you have the possibility to personalize the user interface of the online catalogue as much as possible (your own company logo, setting the price profiles for your end customers according to manufacturer, product group, etc.).

Reflect your stock in the APCAT? From now on, this too is child's play and your customers will see at a glance which goods are ready for immediate collection.

Our name
is our promise!

www.autopartner.com

www.autopartner.com

Within **30 years in the automotive aftermarket**, we have become one of the most innovative and dynamic wholesalers of spare parts for cars, vans and motorbikes in Europe. However, the core of our business is still focused on **target-oriented cooperation** with our partners.

We offer our partners a **platform for distribution and logistics** of just-in-time deliveries, which not only includes a very wide range of well-known manufacturers of **car parts, motorbike parts, chemicals, accessories, and much more**. Our trademark is, above all, complex IT solutions both for the efficient and fast picking and ordering of goods, which we offer to our partners. We also understand the challenges and demands that our partners face in their day-to-day business and always strive to create targeted solutions and make them **available to our partners**.

With more than **2,000 employees**, we reach out to our trading partners every day throughout Europe. We currently supply **30 foreign markets** and work with **over 350 aftermarket** and OEM suppliers from all over the world. Our range of products includes over **250,000 references** to date.

An excerpt of the manufacturers in our range:

Our suppliers include global brands such as: **ATE, Bosch, Castrol, Continental, febi, LuK, MEYLE, Schaeffler, Textar, TRW, Valeo, ZF Aftermarket** and many more, as well as brands for which we are the exclusive sales partner, i.e. **Quaro, ROKS** and our own brand **MaXgear**.

Key data:

A total warehouse area of almost **200,000 m²**.
Including over **30,000** pallet spaces.
1 central warehouse and **4** HUBs.
Currently over **110** branches.

Over **1100** delivery vans.
Over **950** routes daily.
Over **17,000** routes every week.
A monthly total of over **5,500,000** kilometers travelled.

Over **15,000** pallets delivered per month.
Over **300,000** parcels delivered per month.
Over **12,000,000** parts delivered per month.
Over **20,000,000** parts always available in stock.

Since 01.01.2017 have been a member of the purchasing alliance **Global One Automotive**.
