

DR. PETRY  
TEXTILE AUXILIARIES

The background of the lower half of the page is a photograph of a warehouse. In the foreground, there are several rows of blue industrial drums with black lids, arranged in perspective. In the background, there are white industrial drums and metal shelving units. The lighting is bright and even.

# Textilchemie Dr. Petry GmbH Company Profile

DR. PETRY  
TEXTILE AUXILIARIES

## TEXTILE-CHEMICAL PRODUCTS FOR YOUR REQUIREMENTS

As an innovative family company, we have been developing and producing textile auxiliaries since 1974. We offer specialty chemicals for the entire textile chain from spinning and fiber auxiliaries, to yarn lubricants, as well as classical textile finishing agents and products for garment finishing.

### “PROCESS OPTIMIZATION IS OUR STRENGTH”

The founder of our Company, Dr. Jörg Petry, was a pioneer with his ideas on how to improve textile-chemical finishing of stockings and yarns. He developed a revolutionary single-bath process for the washing, dyeing and finishing of polyamide stockings.

In order to achieve a more sustainable, more ecological and water-saving textile industry, process optimization has been and continues to be our main priority in the development of our innovative products and procedures. Together with a strong focus on customer service and solution orientation, we continue to develop new, high quality textile auxiliaries to meet the growing demands of the industry.

## SOLUTIONS FOR YOUR TECHNICAL TASKS

In addition to **textile auxiliaries** which are optimized to fulfill requirements of the textile sector, we also offer **technical application consulting**. Our specialists have **many years of practical experience** in the textile industry. Our textile engineers and chemists speak the language of our customers. Based on their vast experience, they have a great understanding of the challenges in the industry. In our modern laboratories, we are able to simulate **customer-specific applications** and **manufacturing processes** in order to develop **customized solutions**.

## TAILOR-MADE TEXTILE AUXILIARIES

We provide our customers with **optimal products** and process recommendations for their **individual practical requirements**. We offer textile auxiliaries for all chemical areas of the textile chain, from textile **finishing, spinning, weaving preparation, to sewing and embroidering**. Of course, we also develop new and custom products which are perfectly adapted to the demands, processes and machinery of our clients.

## QUALITY ACCORDING TO HIGHEST STANDARDS

Developing **high-quality products** is important to us. We dispatch our textile finishing auxiliaries only after they have passed our high **quality control standards**. Our company is certified according to international **quality standard DIN EN ISO 9001, environmental management standard DIN EN ISO 14001** and is audited on a regular basis. Furthermore, we also promote ecological and social standards for sustainable textile production, such as **GOTS, STANDARD 100 by OEKO-TEX®, bluesign® system** and **ZDHC**.

## PRODUCTS AND SERVICES ARE AVAILABLE WORLDWIDE

Our textile auxiliaries and services are **internationally available**. Our teams in Reutlingen, Germany, at our international subsidiaries, as well as our representatives are dedicated to providing **competent services** for our customers all over the world. In order to find the **optimal solutions** for technical inquiries, our technicians and engineers also offer **on-site field trials**. It is important to us to help our customers **as quickly as possible**. Therefore, **short lead times** are one of our highest priorities.

## TEXTILE CHEMISTRY FOR THE WHOLE TEXTILE CHAIN

- Spinning and Fiber Auxiliaries
- Sizing Agents
- Pretreatment
- Dyeing
- Finishing
- Yarn Lubricants
- Softeners
- Coating
- Printing
- Garment Finishing

## OUR STRENGTHS

- Long-term experience in textile chemistry since 1974
- Innovative, medium-sized German family business
- Products and services available worldwide
- Personal consulting from experienced textile finishing specialists
- Customer-oriented development of tailor-made textile auxiliaries
- Modern, sustainable products and ecological procedures
- Quick laboratory and application services
- Short, flexible lead times
- High quality according to German norms and standards
- Quality management DIN EN ISO 9001
- Environmental management DIN EN ISO 14001
- Ecological standards: GOTS, STANDARD 100 by OEKO-TEX®, bluesign® system, ZDHC

## OUR HISTORY IN SHORT

- 1974 Foundation of Textilchemie Dr. Jörg Petry in Reutlingen, Germany
- 1976 Transformation into Textilchemie Dr. Petry GmbH
- 1981 Establishment of our subsidiary Dr. Petry Chemie AG in Sennwald, Switzerland
- 1992 Construction of new production, laboratory and administration building in Reutlingen-Betzingen, Germany
- 1994 Initial certification in accordance to DIN EN ISO 9001 for quality management
- 1996 Establishment of our subsidiary Dr. Petry TYM LTD ŞTİ. in Istanbul, Turkey
- 1996 Initial certification in accordance to DIN EN ISO 14001 for environmental management
- 1997 Expansion of headquarters in Reutlingen-Betzingen and acquisition of additional warehouse
- 2005 Appointment of Dr. Friedrich Petry as Managing Director
- 2007 Establishment of our subsidiary Dr. Petry Guangzhou Textile Auxiliaries Co., Ltd. in Guangzhou, China
- 2017 Relocation of Turkish subsidiary from Istanbul to Cerkezköy, Turkey
- 2018 Launch of the new Garment Technology Center in Reutlingen, Germany
