

NEW PRODUCT LAUNCH

AT SUPPLIER SHOWCASE JAN 22 – 23, 2024

➔ 1,0 BAR MASTERSEAL

When it comes to extreme requirements with heavy professional use, there is now a new high-performance option: World's first 1,0 bar (14.5 PSI) water- & airtight polymer zipper. TIZIP® – engineered and made only in Germany for durable performance.

➔ FDA COMPLIANT MASTERSEAL

Based on the initial aim to safely transport food in soft coolers, TIZIP has successfully developed the unique FDA approved waterproof and airtight MasterSeal zipper for direct food contact. Even usable for a wide range of applications in medicine, chemistry, and biology.

➔ LIFETIME EXTENSION KIT

The patented Lifetime Extension Kit stands for a quick and simple solution to extend the durability of the gear you love. A key element and major milestone to save waste, limited resources or even extensive zipper replacement costs.
