

TECHNOLOGY. INNOVATION. SOLUTIONS.

**WE CREATE THREADS FOR LIFE
AND YOUR BUSINESS**

SARLA PERFORMANCE FIBERS LTD.

#SARLAYARN

**Each thread tells a story of how we
make your life better**

**"THE FIBERS THAT MADE IT POSSIBLE TO
CREATE THINGS UNIMAGINABLE AND
PROPEL THE HUMAN GROWTH STORY"**

POLYESTER & NYLON

IN THE WORDS OF
SARLA PERFORMANCE FIBERS LTD.

CORE PRODUCT

#NOT EVERY FIBER RESISTS WATER SO WELL AND BECOMES A PERFECT COMPANION OF ATHLETES

#NOT EVERY FIBER HAS THIS MUCH ELASTIC PROPERTIES THAT IT CAN BE USED IN PERSONAL AND INDUSTRIAL APPLICATIONS BOTH

#NOT EVERY FIBER IS ABRASION-RESISTANT, HEAT-RESISTANT & RESILIENT

**The wonder Fiber
is Nylon!**

CORE PRODUCT

#NOT EVERY FIBER ALLOWS THE ABILITY
TO BE WORN FOR 68 DAYS STRAIGHT
WITHOUT THE NEED OF IRONING AND YET
LOOK PRESENTABLE

#NOT EVERY FIBER IS DURABLE ENOUGH
TO LAST GENERATIONS AND
ADDITIONALLY, TO BE PASSED ON TO THE
NEXT

#NOT EVERY FIBER COMES WITH THE
DUAL BENEFITS OF COMFORT AS WELL
AS FASHION WHILE BEING SUPREMELY
AFFORDABLE

Surprisingly, we all have been using such a
fiber since half a century and we never
even realised...

**The Fiber is
Polyester!**

Have a look around you

From mittens that keep the new
born's hands and feet warm
to the threads that stitch together
your undergarments, leather shoes,
socks, jackets and even the upholstery
of your car

Our polyester, nylon and
blended yarns and
threads are everywhere!

**SERVING YOU
GLOBALLY.**

Exports to over 60 Countries across
6 Continents

Sarla Performance Fibers Limited

An ISO 9001:2015 Certified Company, Sarla Performance Fibers Limited (formerly known as Sarla Polyester Limited) is engaged in the manufacturing and export of polyester and nylon textured, twisted and dyed yarns, covered yarns, high tenacity yarns and sewing thread.

Our strength lies in customizing the product as per each individual customer's requirements and specifications.

Vision & Mission

Passion to perform

Sarla Performance Fibers Limited (SPFL) is committed to a policy of continuous improvement and shall strive for excellence in all its endeavors. Each individual in the team shall work towards total quality culture aiming for customer satisfaction.

To be a professional Organization manufacturing the highest quality performance yarns while enhancing our relations with all our stakeholders.

The Genesis

SPFL

STARTED AS A MANUFACTURER OF COMMODITY YARNS IN 1995

The Evolution

Manufacturer of specialized
and higher value-added yarns

Specific and niche end
applications

OUR STRENGTH LIES IN CUSTOMIZING THE PRODUCT AS PER EVERY CUSTOMER'S REQUIREMENTS AND SPECIFICATIONS

Niche Sectors

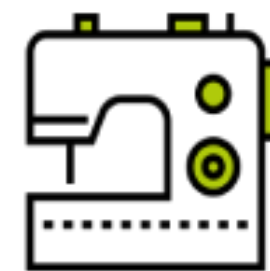

For Narrow Fabric & Elastic tape Manufacturers

- Textured Polyester Yarns
- Textured Nylon Stretch Yarns
- Bulklon
- Covered Yarn

For Socks & Hosiery Manufacturers

- Textured Polyester Yarns
- Textured Nylon Stretch Yarns
- Bulklon
- Covered Yarn

For Sewing Thread Consumers

- Textured Sewing Thread
- High Tenacity Yarns & Threads
- Mattress Threads
- Embroidery Threads
- Bonded Threads

For Dye Houses

- Nylon Muffs/Hanks
- Textured Poly on Dye Tubes
- High Tenacity Nylon & Polyester on Dye Tubes

OUR CLAIM TO FAME

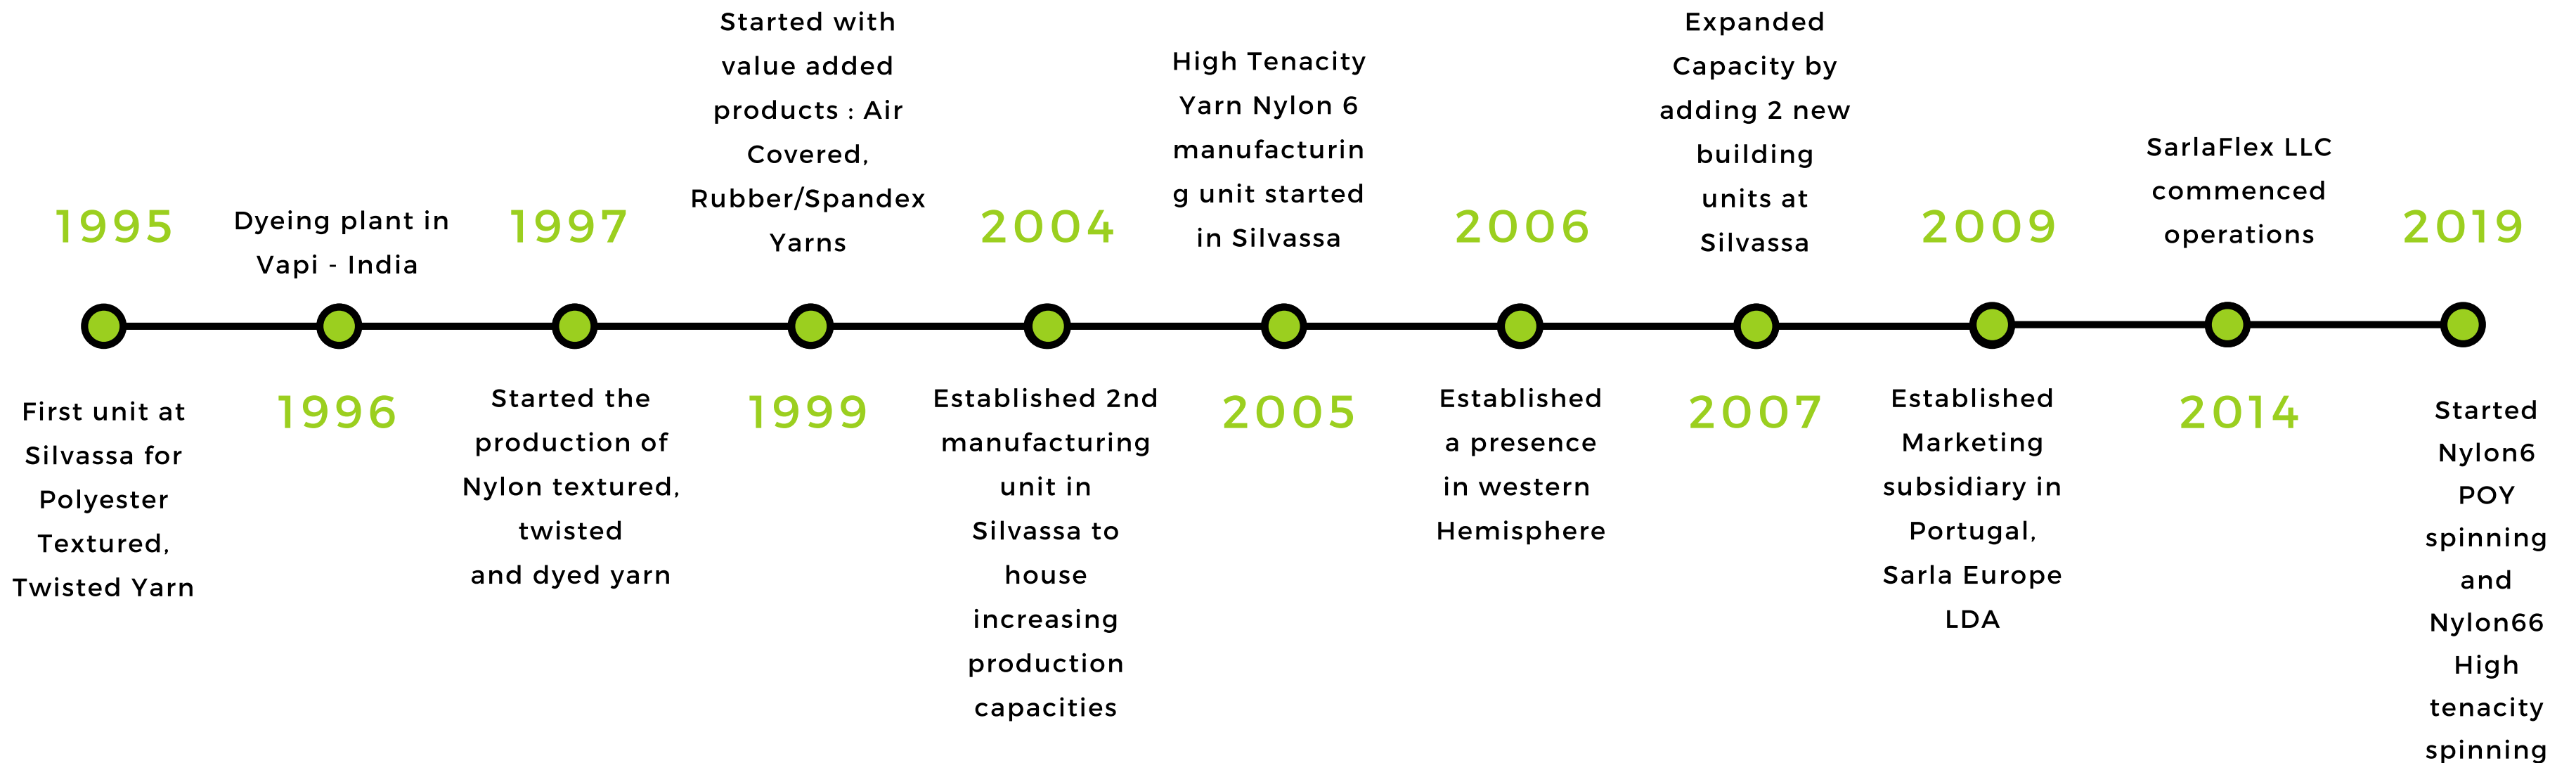

Custom-Manufactured product as per each customer's requirements and specifications.

SPFL had very humble beginnings, We started out as a manufacturer of commodity yarns back in the 90's era.

But, as soon as we realized the need of the hour, the company also successfully shifted its focus and established itself as a manufacturer of specialized and higher value added yarns.

Key Milestones

in the companys journey

Policy on Recycling

**Never to do
business at the
cost of our
Environment**

Policy on Sustainable Energy

SPFL has 9 wind turbines contributing a total of 14.75 MW in terms of wind power generation, and additionally 200000 units of electricity is produced annually at our factories with solar panels.

& This is just the beginning

Our Quality Policy

To manufacture and deliver quality, value added nylon & polyester yarns and threads which meet customer requirements in terms of product performance, consistency, delivery and service.

CERTIFICATIONS

our commitment to quality

Specialist for **Sewing Thread Industry**

Sewing thread stitches objects and we spend considerable time developing these high quality threads that remain firm and seamless, providing durability in your products.

Over the years, we have mastered the art of manufacturing various types of high quality sewing threads for Underwear, Swimwear, Leisurewear, Sweaters, Baby-wear and Home textiles sector

SPECIALIZING IN SEWING THREAD 1

Polyester twisted threads (from virgin and recycled raw material)

It is a continuous filament twisted polyester thread which gives a soft feel and make it ideal for use on over-locking and cover seaming machine loopers.

COMPARISON BETWEEN TWISTED AND SPUN THREAD

PRODUCT	50/2 Spun	T-18 Twisted	40/3 Spun	T-35 or T-45 Twisted	40/2 Spun	T-24 Twisted
Yards/lb	21000	25950	11200	12941	16800	21260
Yield advantage	4950 yds	23%	1741 yds	16%	4460 yds	26%

Features & Benefits of SPFL twisted thread

- Low shrinkage property ensures no seam distortion after washing
- High degree of color fastness
- Exceptional seam cover and softness resulting in neat and comfortable seams

Uses

- Underwear, Leisurewear, Sweaters, Baby-wear, Home textiles

Polyester embroidery threads

Made of trilobal polyester filament, it has superior luster, durability and smooth operation. It is applicable to high-speed embroidery and used for embroidering items such as jeans, shoes, hats, etc

Features & Benefits

- Excellent luster and extensive range of colors and durability
- Superior color fastness and chemical resistance
- Unique lubrication resulting in high productivity
- Superior abrasion resistance for demanding end-uses

Uses

- Jeans, Shoes
- Ladies Innerwear
- Outdoor Wear
- Caps, bags and casual wear

SPECIALIZING IS SEWING THREAD

3

Polyester high tenacity threads

Made from high tenacity continuous filament polyester. It is an excellent sewing thread for all types of leather and offers good abrasion resistance.

Features & Benefits

- The higher strength to fineness ratio makes very fine seams possible in the footwear
- It is treated with specially formulated lubricant that offers excellent frictional characteristics during high speed sewing

Uses

- Outdoor goods and sports equipment.
- Suitcases, Leather footwear.
- Lift slings, Leather goods, Multineedle quilting, Mattresses.

SPECIALIZING IS SEWING THREAD

4

Poly Poly threads

A core-spun thread that combines a high tenacity polyester filament core with a polyester fiber wrap. It is ideal for delicate garments as well as jeans and work wear.

Features & Benefits

- Specially lubricated to deliver outstanding sewing performance in the most demanding applications
- The high strength polyester filament core allows the use of finer thread sizes, giving better seam appearance without compromising seam strength
- Excellent abrasion resistance makes it ideal for jeans and workwear

Uses

- Ladies-wear, Menswear, Blouses, Shirts, Slacks/Ladies trousers, Jackets,
- Underwear, Swimwear,
- Workwear, Uniforms, Denim/Jeans, Leather Wear, Leather goods

SPECIALIZING IS SEWING THREAD

5

Polyester medium tenacity threads

It is a hybrid sewing thread designed to deliver excellent machine performance high seam strength, excellent seam elongation and durability.

Features & Benefits

- Unique construction and lower fault levels deliver superior sewing performance
- No surface hairiness results in a neater / cleaner seam appearance
- Higher tenacity provides improved seam strength
- Almost zero faults, improves productivity
- Low friction sewing lubricant helps provide good sewing performance

Uses

- Mattresses

Nylon 6 & 66 twisted threads

A continuous multifilament textured Nylon 6.6 thread. It is mainly used where high seam elasticity and/or soft seams are required.

Features & Benefits

- Low friction sewing lubricant helps provide good sewing performance
- High bulking characteristics providing excellent seam covering properties and seam softness
- The high elasticity value allows the seams to extend and contract without undue distortion
- Very low rate of breaks in the sewing process minimizing repairs

Uses

- Swimwear,
- Underwear,
- T-Shirts, Leisurewear, Sweaters, Baby-wear

SPECIALIZING IS SEWING THREAD

7

Nylon 66 bonded threads

It is a resin bonded continuous filament Nylon 6.6 thread available in a variety of colors suitable for general stitching applications.

Features & Benefits

- High tenacity CF nylon 6.6 bonded to deliver excellent tensile strength
- Specially formulated lubricant for consistent thread tensions
- Wide range of dye house dyed colors and bobbins available
- Consistent diameter and excellent ply security when bonded
- Available in natural, white, black and colors from our own color card

Uses

- Luggage and travel goods,
- Outdoor goods and sports equipment,
- Leather goods, Belts, Leather Wear, Furniture Upholstery, Footwear

Our General Product Portfolio

TEXTURED POLYESTER YARN

Features & Benefits of SPFL Textured Polyester

- Low shrinkage characteristic
- Good abrasive properties for extended fabric life
- High degree of colorfastness to withstand extensive washing
- Facilitates excellent yarn evenness in weaving and knitting process
- Available in Twisted on Dye Tubes (ready to dye form)

RECYCLED POLYESTER YARN

TEXTURED NYLON STRETCH YARN

Features & Benefits of SPFL Textured Nylon

- SPFL dyed textured Nylon has higher percentage of crimp rigidity
- Products are designed for maximum stretch and recovery
- Ability to withstand Commercial laundering
- Good Resistance to Ultra-Violet Light

AVAILABLE IN

- Nylon 6 and 6.6
- Twisted in ready to dye form
- Muff or Hank Dyed

HIGH BULK TEXTURED POLYESTER YARN

Features & Benefits of SPFL Bulklon

- Good color retention
- Exhibits excellent Bulk: Bulk & Softness comparable to Nylon.
- Excellent choice for direct-to-skin fabric applications
- Ability to withstand commercial laundering
- Excellent abrasive properties for knitted and fabric products

HIGH TENACITY YARNS

Features & Benefits of SPFL High Tenacity Yarns

- Special lubrication to ensure smooth sewing on high speed machines
- Bonding to prevent filamentation and ply separation during fast sewing operations
- Ability to deliver exceedingly strong seams
- Good resistance to High Heat
- Good resistance to both Acid and Alkali

AVAILABLE IN

Nylon 6 and 6.6

Twisted in ready to dye form

for more options please refer to our brochure

COVERED YARNS

Features & Benefits of SPFL Covered Yarn

- Yarn Stretch Properties last the life of the garment
- Gives the individual product stretch and elasticity as required for their specific end use
- Good color retention
- Ability to withstand commercial Laundering

for more options please refer to our brochure

DYED YARNS AND THREADS

All SARLA's products can be custom dyed in any shade in our in-house dyeing plant. Dyed yarns would be available in customised packaging for different end applications.

Our Execution Strategy

Good effort with great timing

Our Sampling Process

Good effort with great timing

MASTER SAMPLE

● **STEP 1**
Analysis of master sample

● Spectrophotometer

● **STEP 2**
Pipetting

● **STEP 3**
Beaker Dyeing

● **STEP 4**
Spectro reading Sample Matching

● 200gm sample
(Baby Cone)

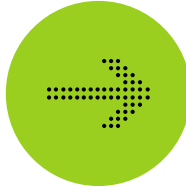

● Kilo dyeing

● **STEP 5**
Spectrolight Sample Matching

● **STEP 6**
Quality testing
