TECHNOLOGY. INNOVATION. SOLUTIONS.

**WE CREATE THREADS FOR LIFE
AND YOUR BUSINESS**

SARLA PERFORMANCE FIBERS LTD.

#SARLAYARN

**Each thread tells a story of how we
make your life better**

**"THE FIBERS THAT MADE IT POSSIBLE TO
CREATE THINGS UNIMAGINABLE AND
PROPEL THE HUMAN GROWTH STORY"**

POLYESTER & NYLON

IN THE WORDS OF
SARLA PERFORMANCE FIBERS LTD.

CORE PRODUCT

#NOT EVERY FIBER RESISTS WATER SO WELL AND BECOMES A PERFECT COMPANION OF ATHLETES

#NOT EVERY FIBER HAS THIS MUCH ELASTIC PROPERTIES THAT IT CAN BE USED IN PERSONAL AND INDUSTRIAL APPLICATIONS BOTH

#NOT EVERY FIBER IS ABRASION-RESISTANT, HEAT-RESISTANT & RESILIENT

**The wonder Fiber
is Nylon!**

Environmentally sustainable
MANUFACTURING

CORE PRODUCT

#NOT EVERY FIBER ALLOWS THE ABILITY
TO BE WORN FOR 68 DAYS STRAIGHT
WITHOUT THE NEED OF IRONING AND YET
LOOK PRESENTABLE

#NOT EVERY FIBER IS DURABLE ENOUGH
TO LAST GENERATIONS AND
ADDITIONALLY, TO BE PASSED ON TO THE
NEXT

#NOT EVERY FIBER COMES WITH THE
DUAL BENEFITS OF COMFORT AS WELL
AS FASHION WHILE BEING SUPREMELY
AFFORDABLE

Surprisingly, we all have been using such a
fiber since half a century and we never
even realised...

**The Fiber is
Polyester!**

Have a look around you

From mittens that keep the new
born's hands and feet warm
to the threads that stitch together
your undergarments, leather shoes,
socks, jackets and even the upholstery
of your car

**Our polyester, nylon and
blended yarns are
everywhere!**

□ SOUTH CAROLINA

□ PORTUGAL

□ MUMBAI

**SERVING YOU
GLOBALLY.**

Exports to over 60 Countries across
6 Continents

Sarla Performance Fibers Limited

An ISO 9001:2015 Certified Company, Sarla Performance Fibers Limited (formerly known as Sarla Polyester Limited) is engaged in the manufacturing and export of polyester and nylon textured, twisted and dyed yarns, covered yarns, high tenacity yarns and sewing thread.

Our strength lies in customizing the product as per each individual customer's requirements and specifications.

Vision & Mission

Passion to perform

Sarla Performance Fibers Limited (SPFL) is committed to a policy of continuous improvement and shall strive for excellence in all its endeavors. Each individual in the team shall work towards total quality culture aiming for customer satisfaction.

To be a professional Organization manufacturing the highest quality performance yarns while enhancing our relations with all our stakeholders.

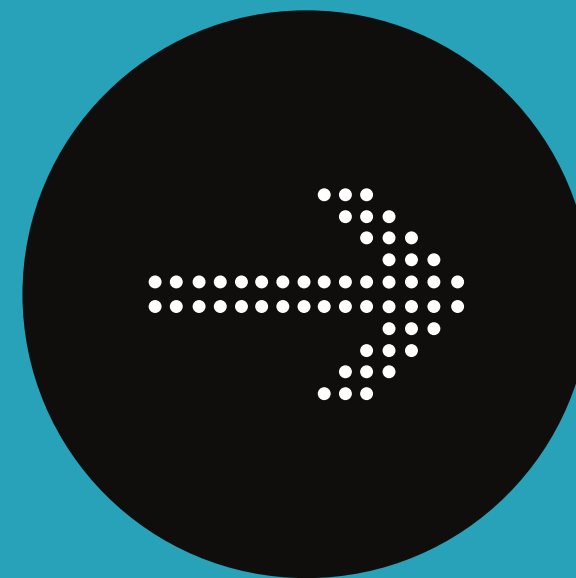

The Genesis

SPFL

STARTED AS A MANUFACTURER OF COMMODITY YARNS IN 1995

The Evolution

Manufacturer of specialized
and higher value-added yarns

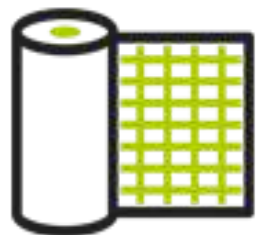

Specific and niche end
applications

OUR STRENGTH LIES IN CUSTOMIZING THE PRODUCT AS PER EVERY CUSTOMER'S REQUIREMENTS AND SPECIFICATIONS

Niche Sectors

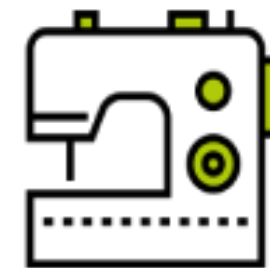

For Narrow Fabric & Elastic tape Manufacturers

- Textured Polyester Yarns
- Textured Nylon Stretch Yarns
- Bulklon
- Covered Yarn

For Socks & Hosiery Manufacturers

- Textured Polyester Yarns
- Textured Nylon Stretch Yarns
- Bulklon
- Covered Yarn

For Sewing Thread Consumers

- Textured Sewing Thread
- High Tenacity Yarns & Threads
- Mattress Threads
- Embroidery Threads
- Bonded Threads

For Dye Houses

- Nylon Muffs/Hanks
- Textured Poly on Dye Tubes
- High Tenacity Nylon & Polyester on Dye Tubes

OUR CLAIM TO FAME

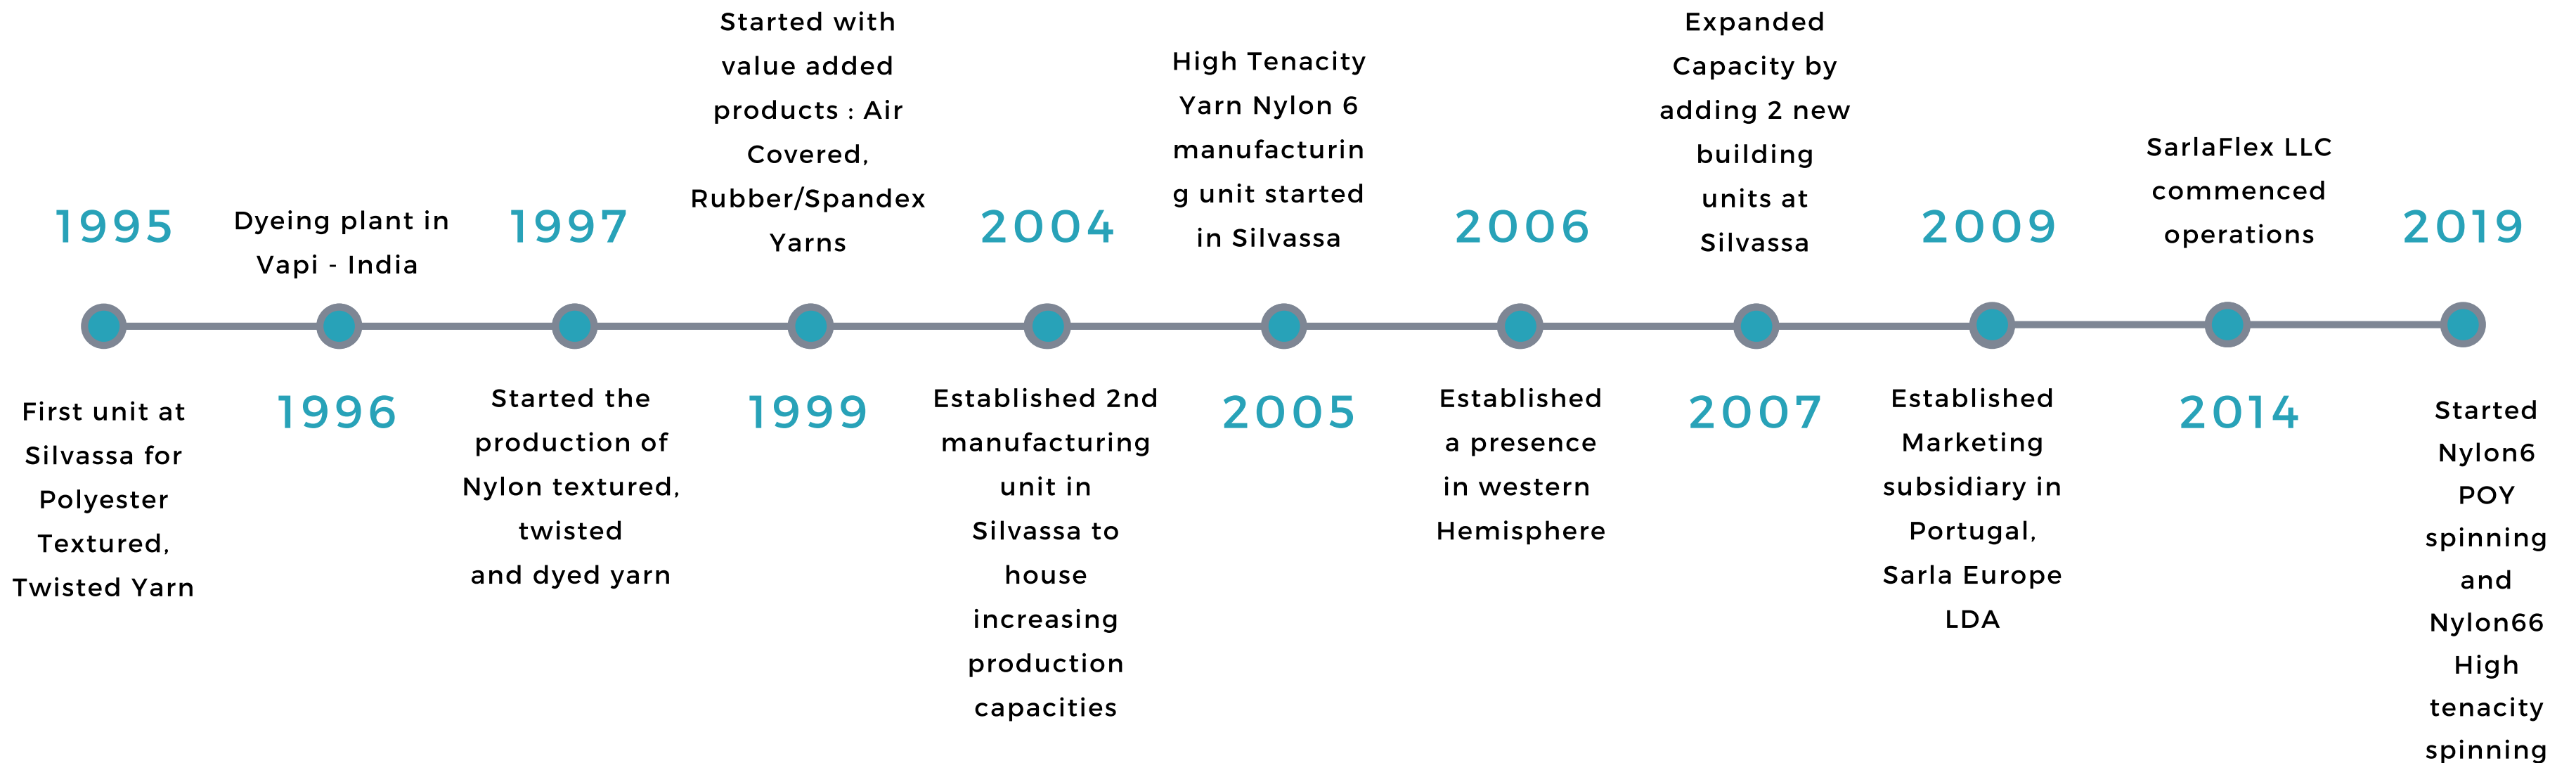

Custom-Manufactured product as per each customer's requirements and specifications.

SPFL had very humble beginnings, We started out as a manufacturer of commodity yarns back in the 90's era.

But, as soon as we realized the need of the hour, the company also successfully shifted its focus and established itself as a manufacturer of specialized and higher value added yarns.

Key Milestones

in the companys journey

Policy on Recycling

**Never to do
business at the
cost of our
Environment**

Policy on Sustainable Energy

SPFL has 9 wind turbines contributing a total of 14.75 MW in terms of wind power generation, and additionally 200000 units of electricity is produced annually at our factories with solar panels.

& This is just the beginning

Our Quality Policy

To manufacture and deliver quality, value added nylon & polyester yarns and threads which meet customer requirements in terms of product performance, consistency, delivery and service.

CERTIFICATIONS

our commitment to quality

Yarn Specialist for Socks & Hosiery Industry

Socks is an integral part of our body wear. It helps us protect our feet, provide comfort during walk or run, helps improve performance during sports, increase our fashion quotient and can be used for medical purposes too.

Over the years, we have mastered the art of manufacturing various types of high quality yarns for the sock industry ranging from fashion and dress wear to sports, athleisure, and medical sector

SPECIALIZING IN SOCK YARN1

Textured Polyester yarn which can be intermingled or twisted, available in different deniers, plys and filament counts.

Denier	Dtex	Filament	Ply
50	55	34,36	1
75	78	34,36,48 & 72	1,2,4 & 6
100	111	34,36 & 48	1,2 & 4
150	167	34,36,48,108 & 288	1 & 2
200	220	34,36 & 48	1

- **Melange/Heather Yarns** in any 2 colors to offer an inherent design pattern to your socks
- **Microfilament Yarns** for exceptional softness
- **Recycled yarns** for customers who are keen to promote sustainability
- All the above yarn counts which we have mentioned can be dyed in any colour and any quantity ranging from 1 kg to 600 kg.

SPECIALIZING IN SOCK YARN

High bulk & High Stretch Polyester yarn

Denier	Dtex	Filament	Ply
75	78	34	2 & 4
100	110	34	2 & 4

- This yarn is uniquely made for the requirements of those in the socks industry who are looking for a yarn at the price of polyester but with the softness & feel of nylon, Making it a perfect fit for any type of sock at a very competitive price. This is available in the above counts specifications.
- **Super Soft Polyester yarn** This is a unique yarn created by SPFL for the sports socks segment.
- All the above yarn counts can be dyed in any colour and any quantity ranging from 1 kg to 320 Kg.

SPECIALIZING IS SOCK YARN

- **Textured Nylon yarn** which can be intermingled or twisted, available in different deniers, plys and filament counts.
- We dye our nylon using the hank dyeing process which is specifically for the socks end application as this process allows the nylon to retain its softness

Denier	Dtex	Filament	Ply
30	33	13	1 & 2
40	44	13,34	1 & 2
70	78	17,23,24,34,68	1,2,3 & 4
100	110	24,34	1,2,4 & 6

- **Toe closing thread** available in the above nylon counts
- **Microfilament Yarns** for exceptional softness
- All the above yarn counts which we have mentioned can be dyed in any colour and any quantity ranging from 1 kg to 200 kg.

SPECIALIZING IS SOCK YARN

- Covered yarns which are offered in a wide variety of permutations combinations with nylon and polyester being covered with rubber/spandex or lycra in any count. We have the possibility of offering Air covering, Single & double conventional covering

We answer your questions

Do you specialize in Sock yarns or is it one of the many things you do?

We do a few things but we believe in doing them in the best possible way. While yarn manufacturers may think of getting into fabrics as they grow, we focused on identifying niche areas to create high quality and innovative products. Socks is a sector we identified years ago and now Brands trust our yarn.

We answer your questions

What are the properties of the yarn you supply for sock manufacturing?

- Very good stretch & elasticity
- Very soft feel on body
- Anti-microbial properties
- We also offer recycled yarn for sock
- Anti-yellowing properties
- Good color retention and wash fastness
- Wide range of colors to choose from.
- Custom quantities

We answer your questions

Why should a manufacturer select us as their preferred yarn supplier?

- Vast experience with various global manufacturers across various machines
- Yarns that exceed global quality requirements
- Price competitiveness
- Our R&D team works closely with the client in developing custom products
- We fulfill entire range of filament yarn requirements
- We are a client centric company

We answer your questions

Which all types of sock manufacturers you cater to and where all do you supply the yarn for sock manufacturers across the globe?

We provide yarn for dress socks, sports & fitness manufacturers and for specialty manufacturers also.

Let's just say, we supply to the manufacturers across all the 6 continents of the globe.

Our General Product Portfolio

TEXTURED POLYESTER YARN

Features & Benefits of SPFL Textured Polyester

- Low shrinkage characteristic
- Good abrasive properties for extended fabric life
- High degree of colorfastness to withstand extensive washing
- Facilitates excellent yarn evenness in weaving and knitting process
- Available in Twisted on Dye Tubes (ready to dye form)

RECYCLED POLYESTER YARN

TEXTURED NYLON STRETCH YARN

Features & Benefits of SPFL Textured Nylon

- SPFL dyed textured Nylon has higher percentage of crimp rigidity
- Products are designed for maximum stretch and recovery
- Ability to withstand Commercial laundering
- Good Resistance to Ultra-Violet Light

AVAILABLE IN

- Nylon 6 and 6.6
- Twisted in ready to dye form
- Muff or Hank Dyed

HIGH BULK TEXTURED POLYESTER YARN

Features & Benefits of SPFL Bulklon

- Good color retention
- Exhibits excellent Bulk: Bulk & Softness comparable to Nylon.
- Excellent choice for direct-to-skin fabric applications
- Ability to withstand commercial laundering
- Excellent abrasive properties for knitted and fabric products

TWISTED SEWING THREAD

Features & Benefits of SPFL Twisted Sewing Thread

- Availability of Sewing Thread on finished cones
- Provides excellent seam cover and softness resulting in comfortable seams
- Ensures good seam strength and seam security
- Good resistance to Bleach/Solvents & chemicals
- Low shrinkage properties which insures no seam distortion after washing & drying
- Excellent run ability on high speed sewing machines

SPECIALITY SEWING THREADS

MATTRESS THREAD

- Here, we offer the Top thread & bottom thread for mattress quilting.

BONDED THREAD

- Sarla offers high tenacity Bonded threads in various colors to the leather Industry.

DENIM THREAD

- For decorative and high speed stitching on Denim jeans and Denim stretch fabric, Sarla offers a wide range of sewing thread with greater elongation to suit the specific needs of this end application.
- We also offer our range of Denim threads made using recycled raw material.

EMBROIDERY THREAD

HIGH TENACITY YARNS

Features & Benefits of SPFL High Tenacity Yarns

- Special lubrication to ensure smooth sewing on high speed machines
- Bonding to prevent filamentation and ply separation during fast sewing operations
- Ability to deliver exceedingly strong seams
- Good resistance to High Heat
- Good resistance to both Acid and Alkali

AVAILABLE IN

Nylon 6 and 6.6

Twisted in ready to dye form

for more options please refer to our brochure

COVERED YARNS

Features & Benefits of SPFL Covered Yarn

- Yarn Stretch Properties last the life of the garment
- Gives the individual product stretch and elasticity as required for their specific end use
- Good color retention
- Ability to withstand commercial Laundering

for more options please refer to our brochure

DYED YARNS AND THREADS

All SARLA's products can be custom dyed in any shade in our in-house dyeing plant. Dyed yarns would be available in customised packaging for different end applications.

Our Execution Strategy

Good effort with great timing

Our Sampling Process

Good effort with great timing

MASTER SAMPLE

● **STEP 1**
Analysis of master sample

● Spectrophotometer

● **STEP 2**
Pipetting

● **STEP 3**
Beaker Dyeing

● **STEP 4**
Spectro reading Sample Matching

● 200gm sample
(Baby Cone)

● Kilo dyeing

● **STEP 5**
Spectrolight Sample Matching

● **STEP 6**
Quality testing
