THE COMPANY

Arlucce S.p.A. is an Italian company specialized in the design and manufacture of indoor and outdoor lighting solutions.

Founded in 1989, Arlucce works with architects, designers and design studios all over the world, promoting a culture of high quality and creativity that has always characterized its products.

The company has been constantly growing over the years thanks to the continuous focus on research and development.

From the very concept to the finished product, Arlucce manages each step of the entire manufacturing process at its headquarters in San Zenone al Lambro, close to Milan.

Arlucce's know-how, constant innovation and attention to details result in lighting products characterized by elegant and functional design, able to satisfy the technical and aesthetic requirements of any project.

All Arlucce products are manufactured thanks to the latest technologies and with cutting-edge and sustainable components that guarantee reliability and long lasting efficiency.

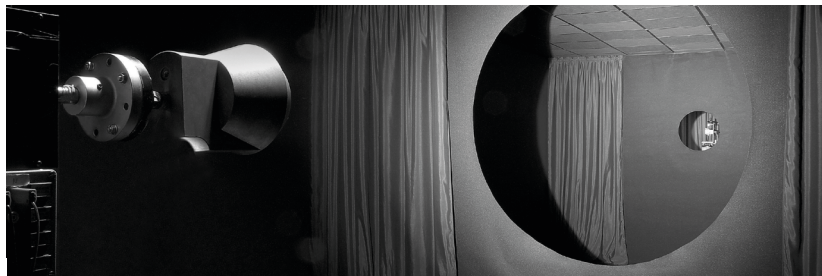

SPECIALIZED KNOW-HOW

Highly specialized technical expertise, together with a great passion for the light sector and a long-standing tradition of excellence, make Arlucce the best partner for your lighting project.

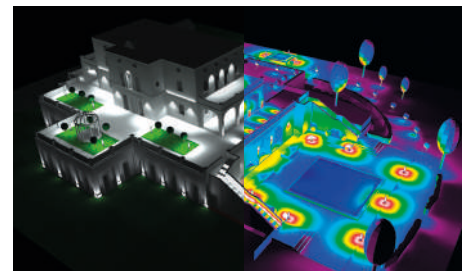

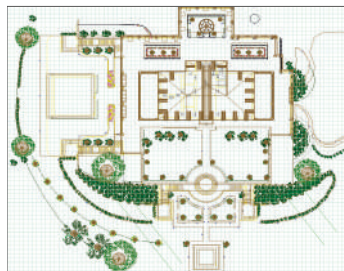

INNOVATION

For over 30 years of activity, Arcluce has never stopped renewing and innovating its product design in order to respond to the technological progress that distinguish the lighting sector.

CERTIFIED QUALITY

All Arcluce products undergo an accurate testing process to verify their compliance with the existing regulations and adherence to the highest standards of quality.

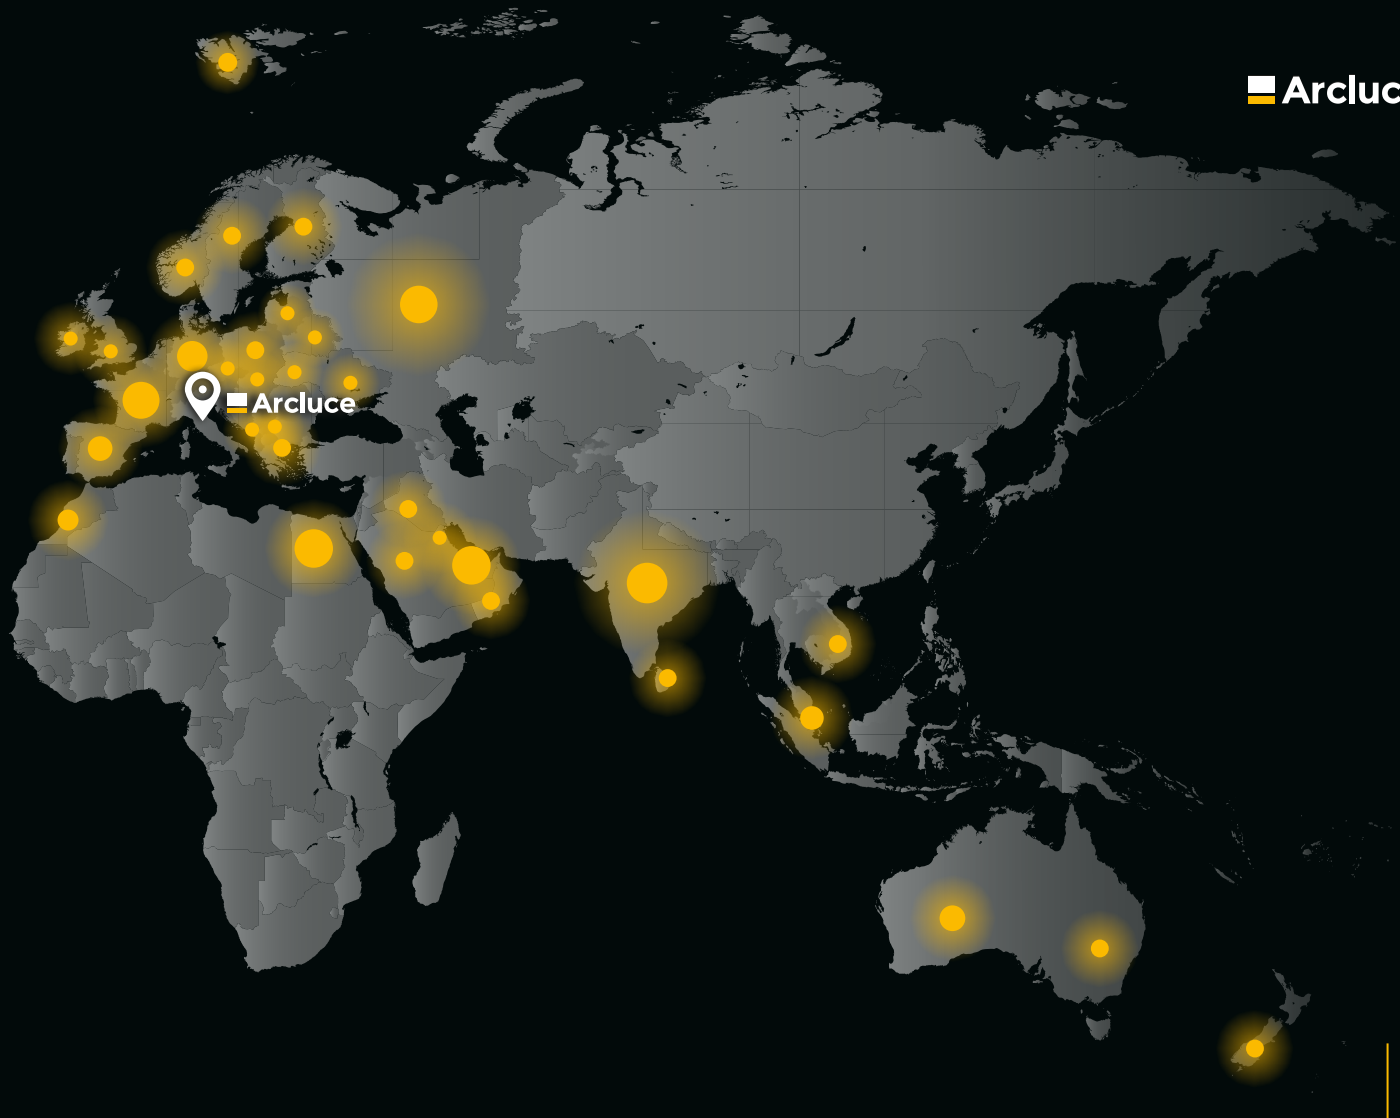

CONSULTING

Arcluce offers a complete lighting consultancy service, supporting designers and architects in identifying the best solutions for the functional and environmental requirements of any project. Our technicians use Dialux to design lighting projects and oversee all stages, from the initial concept to the installation of products.

La luce dà forma agli oggetti, crea significati e racconta quello che l'oscurità cela.

La luce si amplifica, si riduce, si plasma in un eterno gioco di metamorfosi, dando così vita a fenomeni di straordinario fascino e naturale armonia. Di fronte a tanta perfezione, l'uomo può solo tentare di emulare l'incantevole spettacolo che la natura crea.

È per noi motivo di orgoglio far parte del processo di creazione di forme ed elementi che concorrano ad esaltare ed immortalare tanta bellezza.

Light gives shape to objects, creates meanings and shows us what darkness hides.

The light is amplified, reduced and modeled in an eternal play of metamorphosis, giving life to phenomena of extraordinary charm and natural harmony. Faced with such perfection, humans can only attempt to emulate the enchanting spectacle of nature.

We are extremely proud to be part of the process of creating forms and elements that contribute to enhance and capture such beauty.
