

ENGINEERED FOR SPEED

GOLF EXPRESS

In 20 years, we've sold sufficient Golf products to cover the length of Hadrian's wall...eleven times! Combined with an impressive product success rate of 99.7%, the Golf range is a firmly established favourite among our customers. Welcome the newest addition, the **Golf Express**. You're fast, but now you can be even faster. This surface fitting comes fully equipped with multi-wattage selection (10W, 15W, 20W) and is engineered to enhance your installation speed. With a single twist, you can effortlessly mount the diffuser and lock it in place with a single screw. The polycarbonate push & pop casing allows you to loop in your conduit of choice from whichever side you prefer. Inside, the LED tray sits on a hinge, keeping your hands free to configure the CCT selectable, wattage options, sensor and emergency pack underneath. Golf Express consolidates all your needs into one convenient product. Burn through your installation, and then shoot off to the next.

KEY FEATURES

- Convenient multi-wattage selection between three power options 10W, 15W and 20W so you won't have to go back to the store if a change is required.
- CCT3 selectable with six different settings across 3000K, 4000K and 6000K to cater to your client's preference.
- Standard emergency pack and 10m microwave (which can offer Master/Slave functionality) are included for a time-saving all-in-one fitting.
- Standout LED hinge tray holds at 90° angle for effortless installation.
- Select from eight distinct bezel options that simply snap onto the fitting, each combining various eyelid and grill styles.
- High efficacy of 85-117Lm/W.
- IP65 rating and IK08 impact rating, suitable for use in retail shops, social housing, public buildings, communal areas, sports centres, stairwells, corridors, and walkways.
