

JISO ILUMINACION

| Lighting specialists in an exciting and creative world. Lighting is an art that can transform any space and make it attractive. JISO helps you to create them.

THE ESSENCE --- FAMILY BUSINESS

JISO is a young and dynamic family business. Its values are quality, creativity and a job well done.

JISO Lighting has been growing for more than 20 years and creating incredible spaces that can only be achieved thanks to the power and the essence of light. JISO started this adventure in 2001 with the aim of offering customers luminaires that would transform each room, enriching it with new colours and ambiances.

The company has evolved since then and currently offers high-quality lighting solutions, always at the leading edge technologically, aesthetically and in terms of environmental sustainability.

OUR CATALOGUES

✓ TOP DESIGN

In the world of lighting, design, quality and energy efficiency are key factors in creating cutting-edge projects. In our TOP Design catalogue you will find high-end lighting fixtures with the latest technology.

✓ PRO PROFESSIONAL

Luminaires for professionals, with an extensive range of products that adapt to any space and need. JISO also offers control and adjustment options to optimise performance and energy savings.

TOP DESIGN

The luminaires in our TOP catalogue provide added value to lighting projects.

Exclusive and personalised products for architecture studios, interior designers, decorators, etc.

High quality TOP luminaires tested by our R&D+i department that offer quality and innovation.

INDOOR

Quality lighting solutions for interior spaces. We have a wide range of products, such as recessed luminaires, pendants, magnetic rails or dots that adapt to the needs of each project. Our luminaires have a high aesthetic level and high energy efficiency, and offer different possibilities for customisation in terms of finishes, openings, colour temperatures, regulation and control. Creating lighting environments that enhance the beauty and comfort of spaces.

| CAVE. Ambience

With the intensity and majesty in which light reaches a cave, Cave surprisingly penetrates into any stay. Its large size and design evokes the bombast in nature of this light.

| OWL. Dots

Points that glimpse in the dark to the smallest detail, such as the eyes of an owl. OWL with its small and elegant luminaires brings light to any room in your rooms.

| HAWK. Dots

Our Hawk model is inspired by the wings of falcons, in its aesthetics, but also in its characteristics. An easily combinable model that allows you to create a multitude of luminaires within a single one.

| TURTLE. Tubule

Retractable like the neck of a turtle. Turtle adapts its length to the needs of each client with a simple and elegant design.

| LIANA. Pendant

As if it were in the jungle, LIANA adapts to your room, creating a network of intelligent magnetic guides that will run through ceilings and walls to illuminate all kinds of rooms.

| LAKE. Ambience

The lights of LAKE illuminate like the reflection of the sunset in the waters of the lake. A sense of peace and vastness presented by nature and LAKE lighting.

| EAGLE. Dots

The eagle's vision is powerful and capable of focusing any point at a great distance. Eagle takes this wonder of nature to develop luminaires capable of bringing any element into focus in your interiors.

| CATERPILLAR. Magnetic

Caterpillar is a magnetic system capable of gripping any surface with the ease of a caterpillar. Its guides will cut through walls and ceilings creating a smart magnetic track that will allow you to easily install spotlights and lights.

| SPIDER. Tubule

Fast and smart, these lamps will sweep down walls and ceilings like spider webs to illuminate and personalize all kinds of rooms.

| DRAGON. Big

In traditional Chinese culture, the dragon among other things symbolizes power. This imposing luminaire amazes with its simplicity and size, turning each space into a stage full of light and brilliance.

LOW VOLTAGE 48V

MAGNETIC CATERPILLAR

Caterpillar is a magnetic system capable of gripping any surface with the ease of a caterpillar. Its guides will cut through walls and ceilings creating a smart magnetic track that will allow you to easily install spotlights and lights.

LOW VOLTAGE 48V

Collection of 48V low voltage Track system with Magnetic system, to which we have added a more complex fixing system to prevent falls. Functional collection adaptable to multifunctional spaces such as restaurants, shops and different rooms. New system that we can use for surface, recessed or trimless installations and suspension. We offer designers multiple options both in installation, as well as a great variety of luminaires of different powers (from 5W to 30W), which can be moved at any time and can also be powered from a single power source.

NEW CLOSING SYSTEM

Multiple luminaires with different designs and powers in the same installation. Change the arrangement of the luminaires without changing the installation

After fix the light to the track make sure the lock is on position

PRO PROFESSIONAL

The PRO catalogue contains an extensive range of technical indoor and industrial luminaires. Quality products, easy to install, aimed at all types of facilities: shops, industries, offices, hotels, public spaces, residences, etc. Professional luminaires compatible with all regulation and control solutions on the market.

Control your light

SMART CONTROL

JISO Smart Control allows you to interact with the installation and create a much more versatile and customised lighting system. It is a control system that is compatible with conventional on/off systems and can be programmed automatically to adapt to routines or spaces. It also offers the possibility of controlling a single luminaire or grouping several to perform joint lighting functions quickly and easily.

I COMPLETE RANGE

Our LED strips offer technical solutions for all types of projects. A wide variety of light with color temperatures ranging from single color LED strips with cool white, natural white, warm white and super warm white options; the tunable White (2700K-6000K), as well as RGB, RGB+White or RGB+CCT solutions. Specific solutions for each need.

I ALL POWERS AND COMPLETE OFFER IN SEALING

LED strips with a wide range of powers 4.8W, 9.6W, 14.4W, 18W, 19.2W and 24W, adaptable to all kinds of lighting needs from signage to main lighting. They are available in IP20, IP65 and IP67 so they can be installed both indoors and outdoors.

I PERSONALIZED SERVICE

Our LED strips are supplied in 5m rolls, but we have 50m coils available and a custom cut service offering the possibility of having the exact size you need.

Our custom cut service LED strips will include 10cm of wire at one end for easy connection. The recommended serial connection is a maximum of 10 meters for the IP20 LED strips and 5m for the IP65 ones.

I FOR ALL KIND OF LIGHTS

JISO has LED strips for projects where ambient lighting or signage is sought. For this type of indirect lighting, also known as grooved lighting, the grooves in false ceilings are used to achieve a homogeneous light that is gently projected.

In other cases, what is sought is linear and direct lighting that marks the lines of the elements it illuminates. For them we have strips with a high density of LEDs that project perfect lines of light on any type of heat sink, avoiding points of light.

I CONTROL & REGULATION

JISO Iluminación offers a large catalog of controllers that allow our LED strips to be controlled and regulated with a wide range of the options available on the market. In a simple way, the light in each space can be adapted according to the needs of the moment, achieving fun environments that leave the monotony and linear lighting behind. Control intensity, colors, shades, ... quickly from the palm of your hand or through your voice without having to wire your installation or having to make new investments.

JISO has a dimmable driver Push Direct, Dali, 0/1-10V, Triac, on-off; in addition to APP Tuya and our JISO Smart Control system compatible with android and iOS.

I PROFESSIONAL PRODUCT 24V

JISO Iluminación incorporates a plus of advantages to its LED strips that make our family one of the most advantageous in the market. Among them, highlight a guarantee that goes from 3 to 5 years; a 3m double-sided adhesive that makes installation easy; a professional after-sales service with technical advice before, during and after the installation of your project; and promotional tools such as displays, sample cases or training videos, among others, that make our LED strips the best lighting option for any project.

INDUSTRIAL

In the industrial sector, lighting is a key factor in ensuring safety, productivity and energy savings. That is why we offer a wide range of luminaires adapted to the needs of each space. We have waterproof screens, dimmable and multi-power high bay and LED flood light. Our luminaires are designed to withstand extreme conditions of temperature, humidity, dust and vibration, and comply with current quality and safety regulations.
