Piraeus, Greece

1967 - 2017

Quality

Founded in 1967 as a family Company, evik first launched production of fish tapes, shucko rubber adaptors and industrial metallic wall switches in the Greek market.

Two generations later evik continues to focus on the production of cable pulling equipment investing in expertise and high quality, having a strong position in the market. Nowadays, evik has been converted into a company of international standards with partners worldwide.

evik's long tradition, advanced knowhow and high level customized services provide its customers with unique and superior long term partnership.

Safety

passing through. till the end.
