

COMPANY PROFILE

We are Novolux Lighting

Novolux Lighting has been manufacturing and commercialising a wide range of high-quality luminaires since 1981 and, nowadays, it offers global lighting solutions for indoor and outdoor lighting applications.

With headquarters in Barcelona and a strong network of local distributors and partners established in Europe, the Middle East, Latin America, Africa and Asia, the company has a worldwide presence in more than 40 countries.

Lineal lighting system

indeluz^{lighting}

Our range of **technical indoor lighting** products focused on lighting projects with demanding technical requirements and that we can provide solutions thanks to the "in company" manufacturing with highflexibility in terms of deadlines and dimming possibilities, optics, CCT,special leds and luminous fluxes. We also have a fast movers section for daily solutions that can be kept in stock.

exo^{lighting}

Collection of versatile and **decorative interior lighting** solutions for daily residential needs and contract/hospitality channel as well as luminaires with high contribution of author's design. In-house production with high reactivity to urgent delivery times, as well as the likelihood of bespoke product series.

Dopo^{lighting}

Range of **outdoor lighting luminaires** in the residential sector with a high level of stock for the variants with the highest rotation and demand in the market. Good value for money covering the usual needs for domestic lighting solutions for private and hotel gardens, small public spaces...

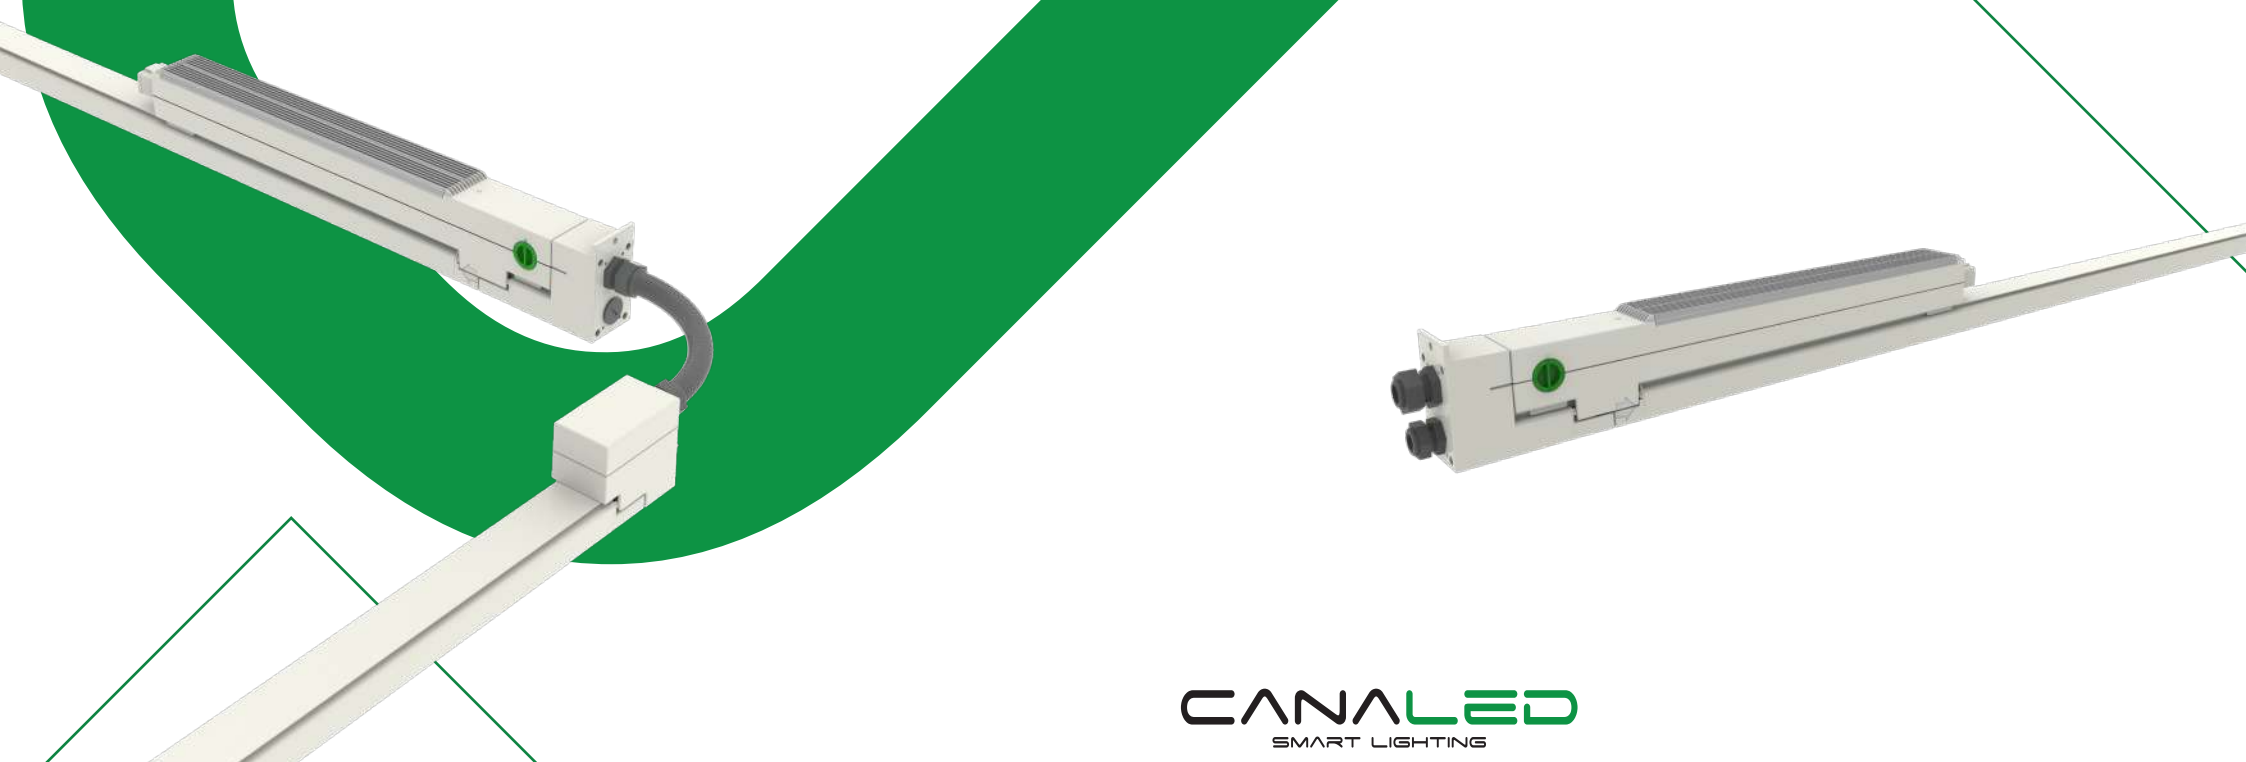

Cristher^{lighting}

Superior stage in **architectural outdoor lighting luminaires** where the design concept and technical characteristics of professional lighting projects meet. High flexibility in terms of timing and dimming possibilities, optics, CCT, special LEDs and luminous fluxes, as well as weather-resistant and shock-resistant finishes.

Sustainability and local production

In Novolux Lighting we are committed to local manufacturing, so we are engaged with local industry and production close to our manufacturing centres.

In addition, we care about the environment and every year we implement new measures to reduce our carbon footprint in all production processes.

Passion for light

We are passionate for light and we understand lighting as a vital element to improve not only the physical characteristics of spaces but also the activities that are carried out there, as well as the well-being of the people that live or spend time in those spaces.

Our team is committed to offering the best lighting solution for your project. Thanks to our customised consulting service, we study the specific needs of each task to provide a solution that meets the requirements of your project.
