1. PCB ASSEMBLY

We have PCB assembly machines, which are controlled by skilled workers. They allow us to produce high efficiency LED strips and LED boards designed by our technical department and fully crafted in our factory.

We can totally customize power, CCT and pitch.

2. LASER CUT

Thanks to our laser cutting machines and skilled workers, we can model plastics and aluminum to face any request from our customers. This allow us, above all, to create one of our most important and sold products: the edgelight panel. Different shapes and sizes, maximum uniformity of light in only 13mm thickness.

3. THE MECHANIZED WAREHOUSE

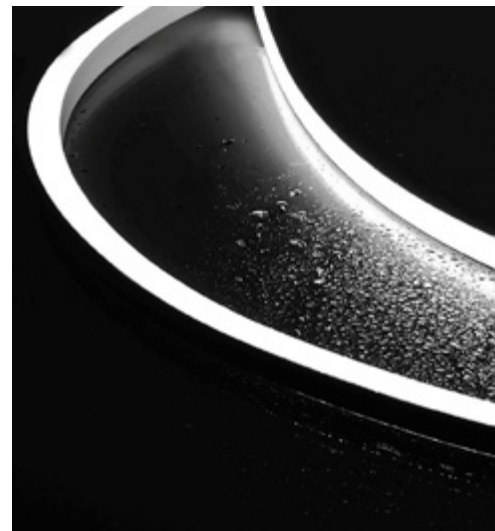

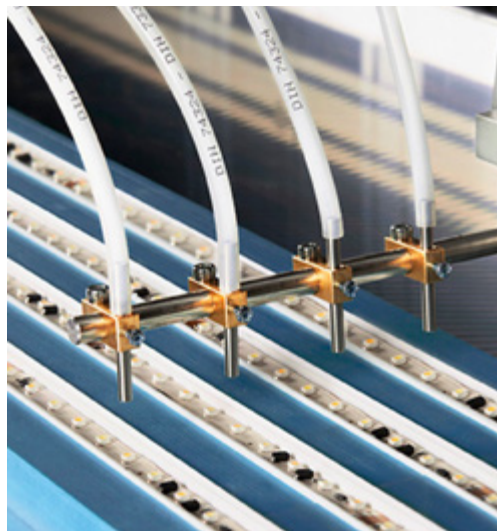

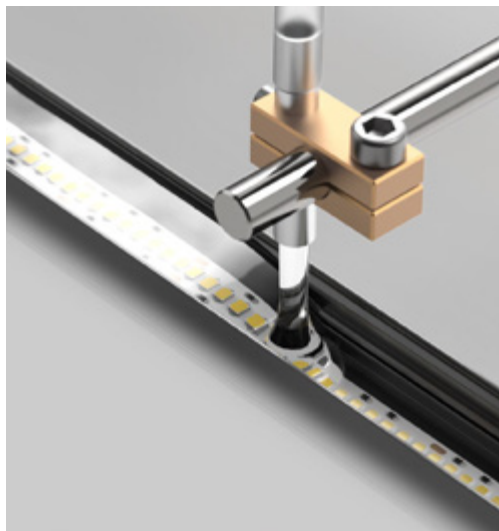

We can deliver: Strip LED & PCB, downlights, tracklights, aluminum profiles and wall lamps within 24h.

Thanks to our stock of raw materials and crafted lighting fixtures, combined with the technology of the mechanized warehouse we are able to ship several different goods in the shortest possible time.

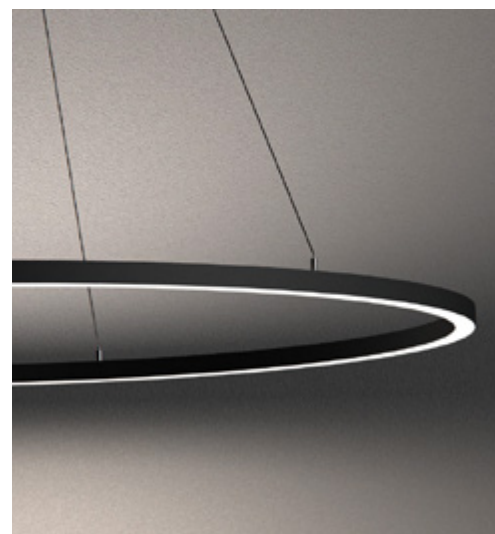

4. ALUMINUM PROCESSING

In our factory managed by skilled manpower, we have all the tools for aluminum bars processing such as cutting (with different angle) and milling. We can deliver custom length profiles in the next 24h after the confirmation order. 100% Made In Italy profiles. +100 different alu molds in stock

5. ENCAPSULATION

STEALTH LIGHT GROUP has an internal encapsulation line that allows you to offer IP68 lighting fixtures in a very short time. STEALTH LIGHT GROUP is at your disposal to carry out the encapsulation treatment process of LED bars in aluminum profiles, allowing the achievement of different degrees of IP protection, on electronic boards or any electronic device.

6. CUSTOM BENDING

Stealth Light Group, among the numerous services, also offers the bending process almost of our made in Italy extruded profiles.

We also have some standard rings such as 600mm, 900mm, 1270mm 1800mm in stock.

+ 100 MADE IN ITALY profile molds

+ 200.000 meters LED strip always in stock

Anti-UV, anti-yellowing filter. 

Heat resistance. 

Functionality unchanged over time. 

Walkable. 

 IP Compliance with International Protection standards (eg IP65-68).

 Combinable with colored or opal additives (to increase the scattering effect).

 Excellent transparency.

 Easy to clean.

UL CERTIFICATION

The UL Mark (Underwriters Laboratories Inc.) indicates that it has representative samples of a product, evaluating them as suitable for the expected standards or other requirements, in relation to their potential risks of fire, electric shock and mechanical hazards. The UL Mark on a product demonstrates the constant conformity of the manufacturer with the current safety regulations. Worldwide, over 20 billion products received the UL Safety Mark every year. UL is the only independent certification authority to issue the UL Mark.

CERTIFICATE OF COMPLIANCE

Certificate Number 20180327-E498249
Report Reference E498249-20180116
Issue Date 2018-MARCH-27

Issued to: STEALTH LIGHT SRL
VIA LAVORATORI AUTOBIANCHI 22 F
20832 DESIO, ITALY

This is to certify that representative samples of LOW-VOLTAGE LIGHTING SYSTEMS, POWER UNITS, LUMINAIRES AND FITTINGS
Low Voltage LED Luminaires. Dry Locations Only. Located in Class 2 Circuit
Profilo R18-10, Profilo R18-11, Profilo R18-12, Profilo R18-RGB
Low Voltage LED Luminaire, Class 2, Suitable for Dry Locations, Ceiling Surface Mounted
PAN XX-YYYY/ZZ-AA, PRO XX-YYYY/ZZ-AA
Where XX identify the type of aluminum panel/profile, YYYY identify the type of LED Board, ZZ identify the nr. Of LED/meter and AA identify temperature color.

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: UL 2108, Low Voltage Lighting Systems
UL 8750, Light Emitting Diode Light Sources for use in Lighting
CSA-C22.2 No. 9.0., Luminaires

Additional Information: See the UL Online Certifications Directory at www.ul.com/database for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

Look for the UL Certification Mark on the product.

Bruce Mahrenholz, Director North American Certification Program
