

Suspension systems for Signalisation and promotion boards

For the suspension of signalisation boards, Velda Cable Technics closely works together with board signalisation companies. Because this kind of businesses prefers to offer a total package, it delivers a complete signalisation system to its customers, including our custom-made and assembled suspension systems. The same heading also includes the suspension systems for promotion boards for shops and shopping centres.

Large chain stores, supermarkets, banks, fast food chains, real estate agencies and department stores across Europe show off colourful promotion signs and neon lights with the qualitative Velda custom suspension systems.

Quality cables since 1935

Suspension systems for Signalisation and promotion boards

Why opt for Velda Cable Technics?

As a European-based company with a high-performance unit in Asia, we focus on big-volume cable production and assembly following the European certification systems.

Our logistic activities are coordinated and centralized in Europe. The smaller series are produced in our Belgian production unit. This combination guarantees flexible stock conditions and just-in-time deliveries at sharp prices.

In short, Velda combines flexibility and sharp prices with European top quality.

Custom made goods

We control and supervise the entire production process. We can produce almost any kind of cable, suspension, etc. on demand. Contact our commercial department to inquire about your specific needs.
