POWERGEAR[®]

EUROPE

Is a strong global brand in lighting track systems and universal adapters for the professional lighting market. Powergear offers a high quality 3 circuit (3-phase) lighting track system which is compatible with 3-phase adapters of most major brands. The comprehensive range of innovative accessories – like the twisted L and T connectors – gives the designer maximum freedom to create the ultimate track plan. To guarantee cost-effectiveness and flexibility, we make use of our own manufacturing facilities with our products being produced under certified ISO9001, ISO14001 and ISO14064 regulations and ENEC, CE and UL labels which are relevant for the European and/ or US market.

Customer service

From our European head office for sales, service and distribution we offer swift and efficient deliveries and strive to provide the highest level of customer service possible. The growing Powergear distribution centre network ensures availability throughout all European countries, making Powergear the winning brand in Lighting Track.

Flexible solutions

Due to our strong customer focus, Powergear is willing and able to offer flexible opportunities to fulfill the specific needs of a customer. From a fully customized product to our standard product and every step in between is part of the Powergear offer and service. This means that Powergear can offer a solution in own package or label of the customer, but also a complete private label concept. In general it means that we walk the extra mile to satisfy our customer.

High quality standards

your ultimate trackplan*

3-CIRCUIT TRACK SYSTEM

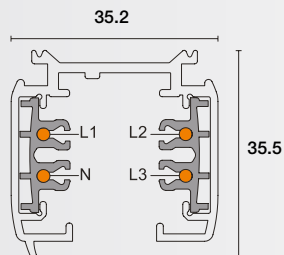

Powergear's high quality 3-circuit track system for the professional lighting market is suitable for track lights with 3-circuit adapters of all major brands.

A comprehensive range of innovative accessories give designers maximum freedom to create unique track plans. For both surface mounted and recessed 3-circuit track the same accessories can be used. The unique Powergear Twisted L and T connectors enable a quick and easy installation with less items to take care of.

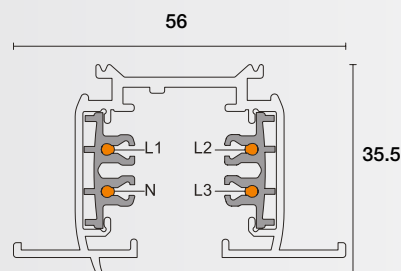

Powergear track can be easily shortened and is immediately ready to install as there is no need to adjust wires. The "EZCLICK" mounting features make the track system quick and easy to install.

A new, innovative and competitive range of Powergear Ultimate adapters is at your disposal. As the LED driver is concealed in the adapter you can continue to miniaturize your track lights.

To make your 3-circuit system Bluetooth controllable, Powergear offers Ultimate adapters with Casambi technology.

TWISTED T AND L CONNECTORS

Powergear Twisted T (and L) connectors enable maximum flexibility to create the ultimate trackplan with less connectors to use, and provide the installer with maximum freedom to make adjustments at the building site. Simply unscrew the cover plate and change L1 into L2 or R1 into R2. Powergear's twisted connectors can also be used to power the track.

MINI 1-CIRCUIT TRACK SYSTEM

The latest addition to our range: the mini 1-circuit track system. Inspired by the subtle profile of the 48V Track System, this compact and minimalistic 230V Track System is designed to meet the requirements for residential and B2B projects. The system is suitable for combining it with a wide range of accessories.

The Powergear mini 1-circuit track system is versatile and adapts to the specific requirements of each project. Easily create unique configurations that seamlessly align with your needs and style using our wide range of accessories such as L, T, and X connectors. Furthermore, fixtures and an external power supply, as these are required with 48V track systems, are not necessary due to the 1-Phase 230V connection. This not only simplifies installation but also expands the versatility of this track system.
