

# MERCANVEE

Established in 1996, our factory is located in Danzao Town, Foshan City of Guangdong province, where is one of the main production center of commercial lighting across China. We have been providing OEM service to numerous industry-leading brands all over the world since 1996 and we always try our best to keep the spirit of constantly striving for excellence and technological innovation. In order to meet the development needs of the LED lighting market, our own brand “MERCANVEE” was established in 2011. Bearing the company philosophy of “Optical, Technology, Charming” in mind, MERCANVEE have become a modern enterprise integrating research, development, production and sales of high-end LED lighting products.

Dedicated to technological innovation, MERCANVEE always try to fuse elements like energy-saving, chromatology, optics, aesthetics, architecture, history, humanities, commerce, environment, physics, psychology, physiology, life, etc. into the lighting science. And by doing so, we are able to provide more professional and more responsible lighting products and optical solutions for our customers.

We love the cause of LED lighting and we respect the physical form of the light. We deeply explore the principles and application characteristics of optics and try to blend them into humanity, nature, architecture, vision and environment to create a harmonious effect. Meanwhile, energy-saving and environmental protection will always be MERCANVEE's core values. We will keep emphasizing optical research, lighting control technology and visual management and keep pushing our boundaries so that we can help building a healthier, more eco-friendly and safer society.

MERCANVEE, designers' favorite professional lighting provider.

## ELITE 30 Series

The Elite 30 Series is a multi-functional track system with unlimited possibility for re-creation.  
DC 24V low-voltage input makes the product safer.  
The introduction of various intelligent controls allows to create better lighting effects in space.  
Perfect interpretation of functional and artistic integration in lighting. Meeting the aesthetic requirements and the development trend of industrial design.

## Philippe Series

Round shape downlight with cut-out of 30mm

Rimless downlight with cut-out of 40mm

Decorative downlight with cut-out of 40mm

Rimless pinhole downlight with cut-out of 40mm

Adjustable downlight with cut-out of 40mm

Spotlight with cut-out of 40mm

Wall washer with cut-out of 40mm

Round shape downlight with cut-out of 50/65/75mm

Square shape downlight with cut-out of 50×50/65×65/75×75mm

Dual-head downlight

Triple-head downlight

Quintuple-head downlight

## DONGFENG Series

1

Easy removal for the reflector

2

Heatsink can also be detached or attached quickly. Easy replacement on the lens.

## BOOM Series

## INNOVATIVE DESIGN

By tightening the screws, it can adapt to ceilings of thickness within 6-24mm.

## FAVOR series

### 48V Low voltage magnet track system

MVT1001A-W2-D

MVT1001A-W1-D

Conductive surface

Conductive surface

PC cover

### Universal rail joint

1. For tracks connection must use parts MVT1001A-W2-D and MVT1001A-W1-D
2. One universal rail connector could be connected with 2-6 tracks (single-circuit track length should less than 12meters)
3. Standard angles between tracks are 60°, 90°, 120°

### Universal joint connection method

Straight line connection 180°

Pentagonal connection 72°

Triangle connection 120°

Hexagonal connection 60°

Cross connection 90°

Cross Connection 90°
