DIESER KATALOG IST INTERAKTIV

Die ONLINE Version diese Kataloges ist interaktiv aufgebaut, um Ihnen ein leichteres Navigieren auf Ihrem PC, Tablett und dgl. zu ermöglichen. Im unten stehenden Beispiel finden Sie die Erklärung welche Elemente im Katalog interaktiv sind.

BEISPIEL:

Bei klicken auf die Deckenleuchte gelangen Sie direkt auf die Seite der Leuchte (S. 69)

Bei klicken auf die Hängeleuchte gelangen Sie direkt auf die Seite der Leuchte (S. 123)

Bei klicken auf die Leseleuchte gelangen Sie direkt auf die Seite der modularen Leseleuchte (S. 266)

Bei klicken auf die Leseleuchte gelangen Sie direkt auf die Seite der Serie Bucket Stehleuchten (S. 133)

Bei klicken auf die Icons gelangen Sie direkt zur Icon Beschreibung

Bei klicken auf das 2F Logo gelangen Sie ebenfalls auf das Inhaltsverzeichnis

BEWÄHRTES LEBENDIG HALTEN - TRADITION MATTERS

Im Herzen der Salzburger Berge, mitten im wildromantischen Lammertal sind wir zu Hause. Die Familie als Rückgrat unseres Unternehmens bildet die stärkende Basis für das Selbstbewusstsein und die nötige Motivation, den Herausforderungen der unternehmerischen Gegenwart und Zukunft, in einer harmonischen Verbindung von traditionellen Werten, sorgsam und mit der nötigen Konsequenz zu folgen.

Als Familienunternehmen leitet uns eine gut entwickelte Unternehmenskultur sowie ein hohes regionales Verantwortungsgefühl. Unser Produktionsstandort in Abtenau bei Salzburg, hat Tradition an der wir festhalten, denn mit der regionalen Wertschöpfung steigt auch die Wertschätzung für das Produkt.

2F GESCHICHTE

Das Unternehmen 2F-LEUCHTEN wurde 1972 als Familienbetrieb gegründet und steht seit 2002 im Besitz von Maria und Hans Buchegger. Ursprünglich wurden traditionelle Leuchten in Holz und Schmiedeeisen hergestellt. Heute fertigt das Unternehmen hauptsächlich individuelle Leuchten und Lichtobjekte für Hotels und Shops. Über 80 Mitarbeiter sichern nationalen und internationalen Kunden kurze Lieferzeiten und hohe Flexibilität.

Unser Team kommt zum Großteil aus der Region und verfügt über die unterschiedlichsten Fähigkeiten. 15 Handwerke unter einem Dach vereint: Schlosser, Schmiede, Maler, Tischler, Schneiderinnen, Elektrotechniker, Maschinenbauer, Lichtplaner und Konstrukteure – Spezialisten und Spezialistinnen aus allen Bereichen vereinen ihr Können zu einem großen Ganzen. Jedes Projekt ist individuell und wir unterstützen Kunden und Architekten dabei Einzigartigkeit zu schaffen.

2F-LEUCHTEN ist eine Manufaktur, die sich immer neu erfinden kann. Jedes einzelne gefertigte Modell aus der Vergangenheit oder von Heute, sehen wir als Chance uns zukunftsweisend zu definieren und unsere Lichtlösungen modern zu interpretieren. Wir sind in jeder Phase unseres Schaffens bereit, auch unerforschte Wege zu gehen und neue Wege zu bauen. Wir wachsen mit unserem Handeln und handeln um zu wachsen.

VON DER IDEE ZUR LEUCHE | 5 HANDWERKE UNTER EINEM DACH

Den kreativen Ideen von Architekten und Designern sind in Sachen Leuchten und deren Produktion keine Grenzen gesetzt. In unserer 2F-Werkstatt trifft altes Kunsthandwerk auf moderne, industrielle Methodik – eine Kombi, die es ermöglicht, beinahe alle Entwürfe in die Realität umzusetzen.

Unser Team verfügt über die unterschiedlichsten Fähigkeiten: Schlosser, Maler, Tischler, Schneiderinnen, Elektrotechniker, Maschinenbauer, Lichtplaner und Konstrukteure – Spezialistinnen und Spezialisten aus allen Bereichen vereinen ihr Können zu einem großen Ganzen.

LICHT FÜR MENSCHEN

Unsere Arbeit richtet sich an den Menschen und seinen Bedürfnissen. Unser professionelles Team mit seinen ambitionierten Mitarbeitern erarbeitet mit Feingefühl und Sensibilität aus Geschmack, Vorliebe, Fantasie und Designanspruch unserer Auftraggeber, außergewöhnliche Beleuchtungslösungen die den Benutzer komfortabel und inspirierend begleiten und dabei wirkungsvoll auf Ästhetik, Energieeffizienz, funktionale und technische Anforderungen reagieren.

Intensive Betreuung führt zur nahtlosen Produktabstimmung. Bereits in der Vorbereitungsphase bieten wir an, die Baustellen zu besuchen und die Situation vor Ort zu verstehen. Mit unseren eigenen Augen sehen wir welche Maßnahmen erforderlich sind, um eine optimale Produktion, Verarbeitung und Qualität unserer Beleuchtungslösungen zu gewährleisten.

FERTIGUNG

Dezent oder opulent, klassisch oder modern, Reproduktionen von Leuchten aus vergangenen Epochen (Jugendstil, Empire, Gründerzeit, Klassizismus) auf hohem Niveau handwerklich gefertigt oder ikonische Entwürfe des Art déco, Leuchten aller Stilrichtungen von einfach bis repräsentativ. Traditionelle Materialien kombiniert mit moderner Technik erfordern Experten in der Fertigung und Installation unserer Leuchten. Die Flexibilität, das Geschick und Know-how unserer Mitarbeiter ist unser höchstes Gut. Mit Gespür, Liebe zum Detail und unter Einhaltung der technischen Vorgaben entstehen Meisterwerke der Lichtkunst.

Der von uns angebotene Mix aus Planung, Konstruktion und Entwicklung, Produktion, schneller Lieferung und wenn gewünscht auch Montage, ermöglicht uns eine hohe Flexibilität beginnend von unikatlen Einzelstücken oder Kleinserien bis hin zur Serienfertigung von dekorativen oder technischen Beleuchtungselementen.

PLANUNG

In enger Zusammenarbeit mit Hotelketten, Architekten, Lichtdesignern, Bauunternehmen, Planungsbüros, Kunstinstitutionen und Behörden begleiten wir Ihr Projekt mit Fachwissen, Innovation und jahrzehntelanger Erfahrung im Leuchtenbau.

Individuelles Kundenerlebnis zu personalisieren und unvergesslich zu machen steht im Fokus der Projekte. Die Bedürfnisse von Gästen und Kunden im Kontext von Stil, Präsenz, Wohlfühlfaktor, Variabilität, Energieeffizienz, Nachhaltigkeit, langer Lebensdauer, sowie intelligenten Lichtsteuerungen und innovativer Technik, zählen zu den wichtigsten Prioritäten einer professionellen Lichtplanung. Unterschiedliche Bereiche werden in verschiedenen Funktionen von Menschen genutzt und sind deshalb auch für die Beleuchtungsplanung von besonderer Bedeutung. Licht soll das Erlebnis der visuellen Umgebung verbessern.

Zuverlässige und frühzeitig durchdachte Lichtplanungen sorgen im Vorfeld nicht nur für die Auswahl der richtigen Leuchten. Eine Vielfalt an unterschiedlichen Beleuchtungsthemen wie Arbeits- und Grundbeleuchtung, Hintergrundbeleuchtung, Akzentbeleuchtung, Erlebnisbeleuchtung benötigen eine jeweils differenzierte Betrachtung.

TECHNIK

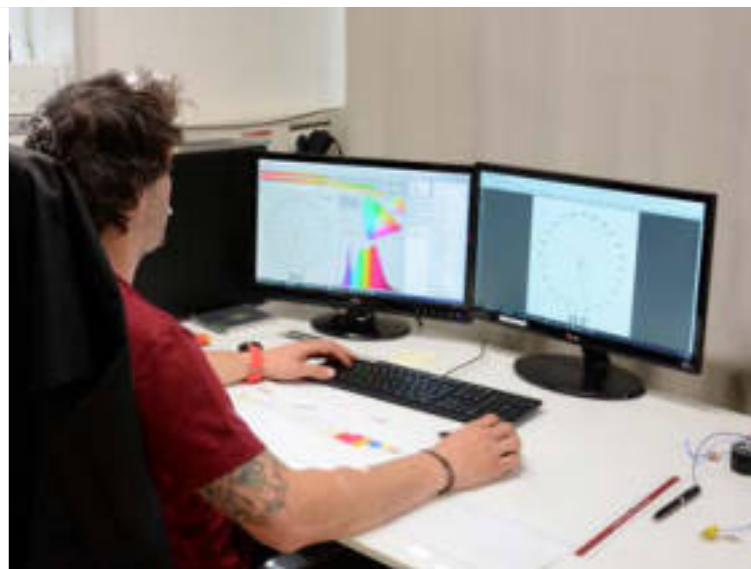

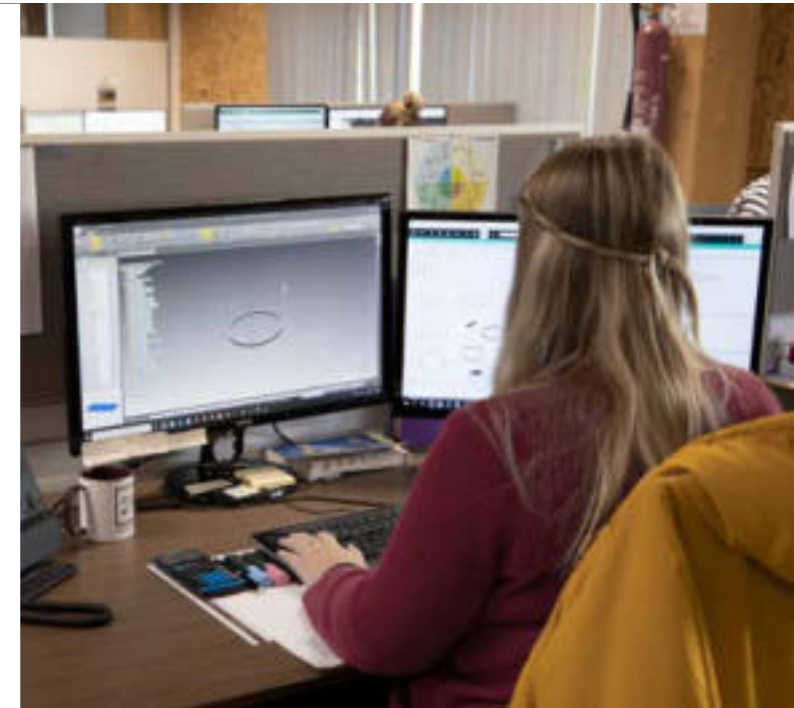

Bei Licht geht es nicht nur um Beleuchtungsstärken, sondern verstärkt um die visuelle Wahrnehmung. Speziell bei der Verwendung von LED's, die über eine sehr hohe Leuchtdichte verfügen, ist es wesentlich, Streustrahlung zu vermeiden, das Licht exakt zu verteilen und klare Bereiche zu definieren.

In unseren jüngsten Serienproduktentwicklungen setzen wir daher ganz klar auf innovative state of the art Technologien. Kundenspezifische Anforderungen an Funktionalität, Effizienz, Abstrahlcharakteristik, visuellen Komfort, High Performance und Eleganz führen wir in eine konsequent zeitgemäße Mariage von Form und Funktion (Technischer Katalog von 2F-Leuchten „YOUR LIGHT YOUR CHOICE“).

LEISTUNGEN

- Beratung
- Planung/Projektierung
- Entwicklung von individuellen Beleuchtungskonzepten
- Konstruktion und Machbarkeitsstudie
- Anwendungsbezogenes Prototyping und Musterbau
- Technische Planung und Produktion der Beleuchtung
- Lieferung
- Installation, Montage und Programmierung der Beleuchtungssteuerung (auf Wunsch)

Symbol	Beschreibung	Symbol	Beschreibung
	Leuchte wird mit Wippschalter geliefert		Betriebsgerät ist in der Leuchte verbaut
	Leuchte wird mit Drucktaster geliefert		DALI steht für "Digital Addressable Lighting Interface" und ist ein Protokoll für die standardisierte digitale Betriebsgerätschnittstelle der NORM IEC 62386
	Leuchte wird mit Kippschalter geliefert		Leuchte nicht dimmbar
	Leuchte wird ohne Schalter geliefert		Leuchte wird mit Kabelschalter und einer Kabellänge von 2m mit Stecker ausgeliefert
	Geschützt gegen feste Fremdkörper mit Durchmesser 12,5mm (Geschützt gegen den Zugang mit einem Finger) Kein Schutz gegen Wasser		Leuchte wird mit Fußschalter und einer Kabellänge von 2m mit Stecker ausgeliefert
	Geschützt gegen feste Fremdkörper mit Durchmesser 1mm / geschützt gegen den Zugang mit einem Draht Schutz gegen allseitiges Spritzwasser		Ladung mit USB Schnittstelle
	Geschützt gegen Staub in schädigender Menge (vollständiger Schutz gegen Berührung) Schutz gegen allseitiges Spritzwasser		In der Leuchte ist eine USB-A Schnittstelle verbaut
	Staubdicht (vollständiger Schutz gegen Berührung) Schutz gegen allseitiges Spritzwasser		Für die Leuchte ist ein Globe 125 Leuchtmittel vorgesehen (Fassung E27)
	Staubdicht (vollständiger Schutz gegen Berührung) Schutz gegen Strahlwasser (Düse) aus beliebigem Winkel		Drehbereich der Leuchte
	Leuchtdauer der Akkuleuchte 9 Stunden bei 100%		Schwenkbereich der Leuchte
	Ladezeit der Akkuleuchte 6 Stunden		Stoffgruppe 1, 2 und 3 möglich
	Betriebsspannung Akku 3,7 Volt		Wand - Einbauleuchte
	Betriebsspannung 24 Volt		Direkte Leuchtquelle
	Betriebsspannung 230 Volt		Indirekte Leuchtquelle
	LED Chip Leistung 2 Watt		
	Lichtstärke des Leuchtmittels 160 Lumen		
	Farbtemperatur des Leuchtmittels 2700 Kelvin		
	Betriebsgerät muss außerhalb der Lampe verbaut werden		

WIR GEBEN DEM LICHT EMOTION

Die Technik ist zwar wichtig für uns als Produzent, jedoch Nebensache für unsere Kunden, die mit dem Licht leben und es nur ein- und ausschalten wollen.
Wir bauen das Licht für Menschen und müssen daher mit dem, was die elektrische Beleuchtung beim Menschen an Gefühlen auslöst, sehr behutsam umgehen. Schließlich war der Mensch Jahrtausende lang nur an die Sonne und offenes Feuer als Lichtquellen gewöhnt.

Diese evolutionäre Prägung kann nicht bloß durch eine 135 Jahre alte Glühlampe ausgelöscht werden.
