WELCOME TO MAGNITECH

Magnitech is a pre-eminent and trusted supplier of high-quality industrial, commercial and public amenity lighting. For over 55 years, we have prided ourselves in delivering an expert and innovative service, ensuring our clients benefit from our accumulated experience, attention to technical quality and fit-for-purpose design.

Founded in 1969, our reputation for providing fit-for-purpose quality lighting products and service-excellence has made Magnitech a market-leader. Our products can be found in mines, factories, power stations, ports, highways and harbours, and are sought after by the largest industrial operators, mining houses, and their subsidiaries, both locally and internationally. Our products are specified by the world's leading consulting engineers.

Magnitech's reach extends throughout Africa as well as the Middle East, Australia, and South America, where our SANS/IEC and ISO9001 compliant products have met and surpassed stringent international standards such as UL and the Australian Test Authority.

OUR SERVICES

Magnitech's innovative lighting solutions are backed by our commitment to service excellence. Our team of knowledgeable and accredited experts are here to assist you from inception through to post-installation.

LIGHTING AUDIT

We provide investigative lighting audits to measure conditions against standards as well as to determine where cost-effective changes can be made.

AFTER SALES

Magnitech offers quality after-sales support, ensuring we are always here for you when you need us.

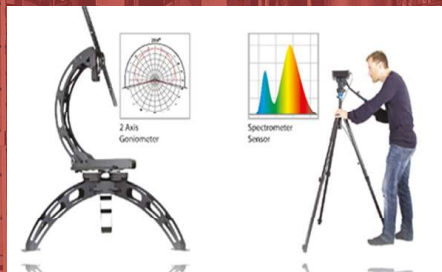

LIGHTING DESIGN

We provide professional lighting design services, ensuring your project meets specification as well as your exact needs.

ENERGY AUDIT

We provide in depth energy audits with a view to reducing the amount of energy utilised without negatively affecting light output.

ADVANCED TECH

Our technical team hold a wealth of knowledge when it comes to lighting, which ensures every possible scenario has been covered when designing our lighting solutions.

CUTTING EDGE DESIGN

To complement our highly qualified and skilled sales team, our technical department is the backbone to our services, ensuring our products remain the benchmark of quality.

OUR HERITAGE

From humble beginnings, Magnitech was born, and it is with humility that we continue growing.

Founded in 1969 by Leon Talerman, a survivor of the Holocaust, Leon sought to provide clients with a fit-for-purpose solution to their lighting needs.

Our heritage and guiding light has always been to approach our product offering by truly understanding, and then solving, our clients' existing problems. Thus was born the concept of 'maintenance through modularity and accessibility'. This guiding ethos led us to adopt and develop solutions which enhanced energy efficiency whilst ensuring ease of maintenance and fit-for-purpose design.

Magnitech's reach continues to grow throughout Africa, with successful installations of Magnitech product in Botswana, Namibia, Zimbabwe, Zambia, DRC.

Magnitech develops the HP10

1984

Magnitech secures one of the largest lighting contracts of the decade in South Africa, to replace all Highbays across all of Iscor

Magnitech secures contract to upgrade 165,000 Xenon Sodium lamps across Eskom power stations

MEMBERS OF MANAGEMENT

From humble beginnings, Magnitech was born, and it is with humility that we continue growing.

HOWARD PAGE

GROUP CHAIRMAN

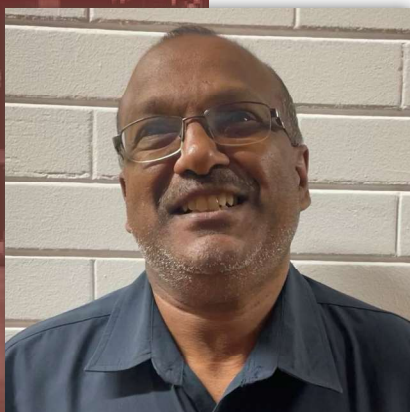

Howard Page, a pioneer of the Southern African lighting industry is Magnitech's Group Chairman. Howard has been in the lighting industry for over 40 years and runs three companies within the group. Howard's motto of being 'a light unto the nations' has become Magnitech's own aspiration in all that we do.

ARI BUDIN

CHIEF EXECUTIVE OFFICER

Ari is the Chief Executive Officer at Magnitech and has been involved in manufacturing for over 20 years. Ari firmly believes in the concept that products should be engineered to be 'fit-for-purpose' – a trait that has cemented Magnitech as a market leader in both the industrial and amenity lighting sectors, not only in South Africa, but globally.

AMAR SINGH

CHIEF OPERATING OFFICER

Amar is the Chief Operating Officer at Magnitech and guides the business's day-to-day operations. Amar has been in the lighting industry for over 30 years and has successfully managed and grown the Magnitech brand to what it is today - leaders in industrial and mining lighting.

OUR VALUES

Integrity – To be honest and truthful and to show a consistent and uncompromisable adherence to moral and ethical values.

Customer First – To live a customer first culture by providing a personalised experience and putting customer priorities ahead of anything else.

Service Excellence – To consistently meet and exceed customers' expectations and to deliver an industry leading experience.

Quality – To be committed to a result of intelligent effort and a high degree of excellence.

Innovation – To be creative thought leaders of better solutions; to anticipate innovative benefits and be the first to respond to change.

Continuous Improvement – To be better than yesterday and remain relevant; to be the front runners who need to be better than tomorrow for growth and progression.

Sustainability – To be environmentally, socially, and economically focused on longevity and elimination of waste. To respect, care, be responsible.

MISSION

To deliver an expert and innovative service, ensuring our clients benefit from our accumulated experience, attention to technical quality and fit-for-purpose design.

VISION

To be the pre-eminent and trusted supplier of high-quality industrial, commercial, and public amenity lighting.
