business partner program

Dear customer,

Moorgen Smart Home is a globally renowned smart home brand. In order to establish closer cooperation with more customers, we are officially launching a 2-year business partner program, partnering with you to open the door to wealth creation!

As our business partner, you will enjoy the following preferential policies:

1. Zero cost, high returns: We will provide you with display cases worth market prices of €1,600 to 2,000. You can place the display cases in the showroom for sale or install functional products in the showroom for display. If the display cases are unsold during the promotional period, you only need to return them and we will fully refund your deposit (to ensure the interests of both parties, a deposit of €1,333 will be required for each display case).
2. Sales incentives: When you successfully sell 5 display cases, we will reward you with 1 free display case to help you further expand your business and increase revenue.
3. Flexible cooperation period: The cooperation period for this program is 2 years. If you have other plans or decide to withdraw during the cooperation period, no fees will be charged.
4. Customer development incentives: During the promotional period, if you become our distributor, 25% of the payment for purchasing display cases can be used as payment deduction for future orders. If you successfully refer potential customers to us and they become our distributors, we will give you a certain amount of commission as a token of appreciation.

We once again sincerely invite you to join us in our business partner program and create a new era in the smart home market together. If you are interested in this program or have any questions, please feel free to contact us.

Moorgen Smart Home is looking forward to working with you!

Best regards,
Moorgen Smart Home
