## Moorgen Smart Panel

### Swiss Series

A thermostat and a socket are unified in the style, color and aesthetics. Besides, original HVAC can be replaced with a 3-in-1 panel. When being pressed, the customized texts on keys can light up and vibrate. Key indicators will turn off automatically after activation. The colors of the key places are separately changeable in accordance with your preferences.

## Moorgen Remote Control

### M36 Series

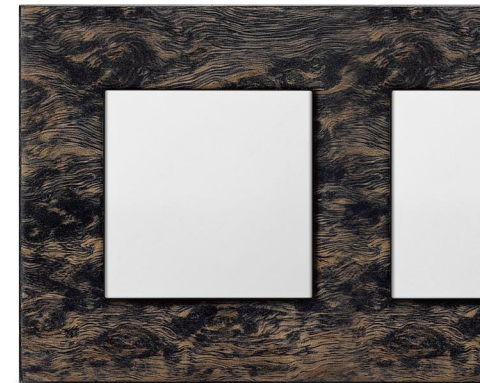

Equivalent to multi-functional remote control, this smart device can control the air conditioner, television, lighting, curtains, background music, and other devices. There are various modes for you, such as home mode and TV mode, which can also be controlled. The metal shell of the remote control adopts a dynamic curve, which fits your hand perfectly. According to the demands of your interior design, whether 12/24 keys, or text size, content, arrangement and language can also be customized.

## Moorgen Smart Panel

### Denmark Series

The smart panels, in the six sub-lines of the Denmark Series, are made from various rare materials: Swarovski Crystal, Gems, TABU, Leopard, Gold & Silver, Pure Black.

## Moorgen Remote Control

### M78 Series

The concave LCD touch screen adopts three ways to turn between pages-sliding, rotating or gesture. The screen saver displays the time, account name or a preset animation when not operated. The sound of rotation is clattering, the same as dialing. With the help of wireless charger, it is easier to recharge the devices.

## Moorgen Remote Control

### M18 Series

The four keys on the dial not only control the dimming of lights, lamps, spotlights and LED strips, also adjust the color temperature of lights, angle of the shutters, opening of sunshades, closing of curtains, and volume of background music. All devices equipped with adjustable levels can be controlled. For example, users can customize and modify devices through the APP on their phones. Some users may prefer three rotary functions with the remaining key for scene control.

## Moorgen Remote Control

### M58 Series

The oblique angle of the rotary surface is based on the philosophy of Handling Affinity, an ergonomic design principle that considers the feeling of rotation and recognition of key icons. Not only the brightness and color temperature of lights, the volume of background music, the angle of shutters, the opening of sunshades, the closing of curtains; but any device with adjustable levels can be controlled. For example, users can customize and modify devices through the APP on their phones.

## Moorgen Remote Control

### M50 Series

The streamlined design and metal shell provide a perfect combination of configure, tactile sense and handle with a complementary center of gravity. The text on curved keys illuminates when picking up the device, ensuring easy operation in every shade of day or night. The light turns off when the remote control is placed down, automatically adopting eco mode.

## Moorgen Smart Panel

### Finland Series

Control all devices and scenes in the living room, from wall to floor, air conditioning and ventilation. Combining multiple panels into one makes the wall cleaner and aesthetically pleasing. Set the screen saver to display clock, your name or animation when not operated.

## Moorgen Smart Panel

### Steve Leung Super Car Series

Designed by Master Designer Steve Leung, the panel appears sleek with only the "Super" Tail-Lights always on. When users approach, this light fades and the panel text gradually illuminates. Departure for 5 seconds, the text fades and the Tail-Lights in the seam of the panel return. A 3-in-1 thermostat can also replace original air conditioning, floor heating and fresh-air panels. When being pressed, the customized keypress lights and vibrates, with 7 colors available.

## Moorgen Smart Panel

### ZHD Landmark Series

Inspired by nature and designed by renowned British design firm, Zaha Hadid, this is their first smart product. The Landmark Panel truly breaks the boundaries, pioneering in the adoption of the Split-level Key, which presents a whole different visual experience either from the front or the side view.
