

# Sustainability

Our commitment to protect the planet isn't just something we talk about, it's been in our DNA for over 10 years.

So, it was only natural that we take the same eco-friendly approach for our clients when creating new solutions for them. Having been the first to make LEDs the norm, to recycle our garlands and revolutionize our illuminations thanks to BioPrint - a recyclable and biodegradable material - we have also launched Recyprint, a range of decorations designed from plastic bottles.

We also have our NORDIKA tree which looks just like a real Christmas tree but avoids deforestation and ORCHESTRA: the app that allows for smart, optimised illumination and electricity management.

Common sense and compassion also underpin how we behave as a business as we aim to significantly and sustainably reduce our carbon footprint.

We are taking action in this area including making our communication tools paperless wherever possible, recycling our waste, generating green energy at our wind farm, installing solar panels and replacing our fleet with hybrid vehicles. We are also involved in the process of obtaining ISO 14001 certification.

## Accessories for Nordika and trees

Who hasn't dreamt of a huge Christmas tree? However, a natural tree takes 30 or 40 years to reach a height of 12 m. To avoid being involved in deforestation and cutting down these majestic four-decades-old trees, we have invented Nordika. Pre-illuminated with a SlowGlow effect, and easy to put up and store away, they are perfect replicas of their natural cousins thanks to their design and incredibly realistic look.

### Our eco-designed Nordika range

We have based our environmental approach on a simple principle: saving at least as much carbon emissions as released. To do so, we use only biocompatible materials that we recycle at the end of their life. We are also putting our best efforts to reduce the carbon dioxide emissions in our own production and those of our stakeholders.

### Base and tree topper

4 tree toppers are available for an additional magical touch to your Nordika tree.

Bases can also be featured with all Nordika trees.

Tree topper	ø	Reference
cimier star7	0,80m	<b>CIME7</b>
cimier bella	1,00m	<b>CIME2</b>
cimier mia	1,00m	<b>CIME6</b>
cimier aiguille	1,00m	<b>CIME4</b>
