

PRODUCT CATALOG 2022

ABOUT US

For over 35 years, Holiday Tree has brought smiles to the faces of people during the holiday season. We know that Christmas only comes once a year so every detail has to be perfect. Nothing can go wrong, and there's no time for returns or repairs. It is with this attitude in mind that has carried our little factory for almost four decades.

Since then we have delivered Christmas trees, wreaths, and garlands to customers all over the world, garnering the praise of many with the chance to use our products. We've modernized our manufacturing processes, qualified for international standards, innovated with new technologies, and made strides in bettering the welfare of our staff along the way.

Today, we are still the same family-owned business with a dedication to quality and value. Our customers know this, which is why many of them continue to stay with us. Our culture remains the same, even when we have evolved with the times. We hope you can join us as well, and see what Holiday Tree can do for you!

TREES (NON-LIT)

The Christmas Tree is the one of the most enduring symbols of the holidays. That is why we've built our trees to last in addition to being beautiful- so that regardless which tree you choose it will bring you joy for years to come.

All of our trees are available either using hook-on branches or hinge branches. Hook-on branches are shaped and clipped onto the tree pole individually.

Hook-on trees come in a smaller box with the branches separate from the tree pole. The branches are color-coded and attached to each layer individually, allowing for easy adjustment. Assembly time is longer when compared to hinge trees.

Hinge trees have branches pre-attached to the tree poles via a hinge. The tree is assembled in multiple sections, like layers of a cake. Compared to hook-on trees, they can be assembled quicker but lack the flexibility of the hook-on tree's construction.

ABERDEEN PINE

			HOOK ON STRUCTURE			
	Size	Model No.	Pack	Cuft	CBM	
	5'	150cm	60-540-861	ea	1.38	0.0391
	6'	180cm	72-684-861	ea	1.97	0.0558
	6.5'	195cm	78-816-861	ea	2.41	0.0682
	7'	210cm	84-942-861	ea	2.75	0.0778
	8'	240cm	96-1326-861	ea	3.41	0.0965

The Aberdeen Pine is a simple tree with a tall and narrow profile suitable for small homes and apartments. This tree has thin round leaves that are easy to shape and decorate. Lots of space underneath for presents too!

Round Leaf

ALBERTA SPRUCE

			HOOK ON STRUCTURE		
Size		Model No.	Pack	Cuft	CBM

	9'	270cm	108-3118-241	ea	8.76	0.2479

Long and slender leaves of light green give the Sierra Pine a young and confident look. The interior leaves of the tree have a darker shade of green to bring out contrast and give the tree greater depth. Excellent for showcasing ornaments, the Sierra Pine will be sure to be fun for many Christmases to come!

TABLE TREES

Miniature versions of our full-scale trees, these small beauties are portable and adorable. They go great on a table, in the corner, by the fireplace, or anywhere else you can think of! Table trees come with a variety of customizable options, including flocked or frosted leaves, or non-lit and pre-lit. We also provide alternative bases for table trees, including burlap pots and wooden stands.

[Pre-lit] Our pre-lit table trees use the same technology as our wreaths and garlands. All are battery-powered and have two lighting options.

[Premium] For the truly discerning customer, we also have table trees based on premium Christmas Trees. Please ask if you'd like to see other trees miniaturized to tabletop size, let us know and we'll make it for you!

[Bases] A smaller tree means you can have more fun with its base! Choose between a burlap potted-plant aesthetic or wooden base for your table tree.

[Color/other] Table trees are an excellent way to really add novelty- let us know if you are looking for something truly unique and special. We'll be happy to customize your tree- let your imagination run wild!

PRE-LIT TREES

At Holiday Tree, we take pride in our innovations. One of these is the unique lighting system in our pre-lit products. No other Christmas Tree manufacturer integrates their electronics as thoroughly as we do. Lights are wrapped seamlessly into each leaf and branch to ensure a clean look.

Your safety is of paramount importance to us and especially so if using lights. For this reason, all our lights use low voltage and cool to the touch, allowing for easy and safe handling. Each light is precision-welded into place and encased in a plastic cover to prevent tampering and risk of electric shock. These features also make our pre-lit products more durable so that in the unlikely event of a light failure, the rest of the tree never fails with it.

For our trees, each branch (or section) is powered individually by connecting to the tree pole. This means that if there has been a failure with one of the lights, you only need to replace the branch and not the whole tree! We designed it so there is less waste generated if you ever have a light out.

Choose between Warm, Multicolor or Color Changing
Warm lights have a soft off-white glow reminiscent of candlelight and fluorescent bulbs of yesteryear. These single-color LEDs are also the most popular choice for our trees.
Multicolor lights include red, green, blue and yellow to give you the full breadth of lighting options. These will add variety to your display, complementing equally colorful and flashy decorations.
In addition to our two color options, our pre-lit products are also able to utilize a foot switch controller which can toggle between warm and multicolor lights. The foot switch also has twinkle and color-changing functions.

GARLANDS AND SWAGS

Deck the halls and adorn the walls with are beautiful selection of garlands and swags to complete that perfect Christmas look! Our garlands are made to the same exacting standards as our trees- premium virgin-grade materials with a handmade touch. Most of our garlands also come in swag configuration if you want that extra glamour.

Garlands and swags with pre-lit lights are battery-powered*. All electric components are tested prior to packaging so they’re sure to brighten up the holidays!

* For AC-powered versions, please refer to our Professional Products section.

WREATHS

Wreaths are a hallmark of the holidays but can also be used all year round for any season or holiday. They may be found almost anywhere- on doorways and windows, on the walls and tables. To make things easier, we dress our wreaths before packing so that they’re ready to use straight out of the box! Don’t miss out on this definitive essential-choose a luxurious multi-leaf wreath to make it easy, or start with a simple wreath to decorate by yourself.

All pre-lit wreaths are battery-powered* and tested prior to packaging. Rest easy knowing that they will light up and not leave you in the dark during Christmas!

Our selection of wreaths are also designed to complement our choice of garlands, with almost all designs have a garland counterpart.

* For AC-powered versions, please refer to our Professional Products section.

This single-leaf style wreath is the bushier, wide-leaf cousin of the Alaskan Pine Wreath. We recommend this one for anyone that takes decorating seriously- it is easy to shape and hang with the large, generous leaves. This wreath can be shaped narrow or wide to accommodate any number of ornaments. As an upscale product, it also comes in frosted and flocked options.

FLOCKED ITEMS

That luxurious feel of a snow-covered tree can be placed in your home with one of our flocked trees/products! These trees harken the atmosphere of freshly fallen snow without the freezing cold. Each branch is covered with just enough snow to achieve this appearance and not take any character away from the tree.

Unlike traditional flocked snow, ours is coated with a flame retardant so there is no danger to you or your family. Enjoy our flocked trees/products from comfort of the indoors with neither risk of cold or fire!

GIANT TREES

Holiday Tree is the only manufacturer of customizable giant trees in the world. These giant trees have been displayed all over the world and are a favorite amongst professional decorators. Our design boasts a lightweight and sturdy structure that is easy to assemble. This contrasts with other giant trees that require heavy rigging and custom foundations for support.

Our giant trees can be modified with openings for a truly unique display. A single-opening option reveals an interior to the tree that can be used as a small room for display. The double-opening option allows one to walk through the base of the tree like a tunnel.
