CLEANROOM SERVICES ...

FOR ALL CLASSIFICATIONS

Competence and awareness are essential when cleaning cleanrooms and especially process equipment. Trained and experienced comprei employees decontaminate over 200 cleanrooms and machines every day. These include pharmaceutical and micro-technical systems.

All cleaning steps are carried out in accordance with documentation to SOP. Analysis and risk assessment are undertaken with the customer to make any needed process adjustments to ensure quality improvement.

Should your premises require unscheduled or short-term special cleaning, we can guarantee the prompt deployment of a comprei team.

TRAINING ...

HANDS-ON, PROCESS-ORIENTED AND TAILOR-MADE

All training to high
standards ISO 21001
and ISO 29993

Successful contamination control depends largely on well-trained personnel. Regular retraining is also needed to reinforce good practices and keep them up-to-date. comprei training programmes have been designed to achieve this for all levels of competency across your business. Hands-on, process-oriented, tailor-made – training goals are defined in advance, and each curriculum is individually adapted to your processes and exact needs. Our programmes motivate employees to

go beyond mere compliance by imparting a deep understanding of the underlying logic behind procedures. Your team will be motivated and sustainably equipped to handle whatever comes their way.
