

Press note. Technical Promotion Dept. Presentation

New Technical Promotion department at JISO Iluminación

JISO Iluminación is introducing a new Technical Promotion and Lighting Design department that will be responsible for providing advice and lighting solutions to its customers, from a technical and aesthetic perspective. According to the company's directives *"this service will allow our customers to achieve efficient, functional and attractive lighting, to highlight the beauty and functionality of their spaces"*.

The team of professionals who work in the Technical Promotion and Lighting Design department have extensive experience in the field of lighting, which enables them to offer customised solutions that are adapted to each customer's specific needs, as well as an exclusive technical lighting study for each project.

JISO offers personalised solutions that are adapted to each project, for both indoor and outdoor lighting, taking into account factors such as energy consumption, budget, efficiency, performance and visual comfort. The design department also uses the latest advances and technology to create unique and exclusive spaces.

Their services are designed for professionals in the engineering, architecture, lighting design, interior design, installation and public administration sectors, among others. They work closely with their customers to ensure that each project is a success.

Press note. Technical Promotion Dept. Presentation
