

Company presentation

An aerial night photograph of a city, likely São Paulo, showing a dense urban landscape with illuminated buildings and streets. A prominent blue circular graphic with a white outline is centered over the image, partially obscuring some buildings. The city lights create a warm, golden glow, while the blue circle adds a modern, technological feel.

elvaco

Reliability is not about the right product

It is about entirety

Elvaco is a complete supplier of products and services within automated energy metering

On a technology driven market, where most actors represent equal technical product level, we see the decisive factor in something else – overall responsibility and customer support.

About Elvaco

Elvaco provides open end-to-end solutions for utility metering for district heating, water, real-estate, electricity and gas industries.

We are specialized in energy connectivity and infrastructure, from meters and sensors to cloud based systems and services.

Elvaco is part of Bemsig which is a fully owned business unit of Latour Industries.

What we do is about what you do

*We do not have the best solution for all.
Only the best solution for you.*

We help companies of all sizes around the world to succeed in their metering projects, regardless of industry. We know how valuable it is to be able to get accurate metering data delivered in a reliable and smart way that suits your business.

We take responsibility for the complete metering chain and deliver quality-assured data. We handle the metering so that you can stay focused on your core business!
