

## Kati® Blitz compact 2.0

The original, only better

New design -  
better function

Electricians esteem the reliability and durability of the **Kati® Blitz** for many years. It makes pulling cables into conduits a quick and easy job.

With the **Kati® Blitz compact 2.0** Katimex® creates a milestone in cablepullingsystems. The Kati® Blitz compact 2.0 is the best tool for real professionals. It impresses not only with its modern design, but especially with its user friendly handling. Our project team developed the device in conjunction with electricians and tested it in the field extensively.

Advantages at one glance:

- Ergonomic and practice-oriented design
- Handy crank to wind in the rod for the 20 and 30 m version
- The combination of **Rod End 2.0** and **Flexi-Sonde 2.0** enables a very tight bendig radius of only 30 mm
- Hard-wearing rod guide
- Handy service box with many accessories and captive lid
- Reliable **Katimex®** quality

20 m	300 g	101320
30 m	400 g	101330
50 m	600 g	101350

### Our recommendation:

#### Glit® Lubricant

*different formulations available designed to match the type of application*

- reduces friction during cable pulling up to 90 %
- for all kinds of pulling rods and cables
- put it on the cable sheathing during you pull the cable in
- silicone-free, non-flammable, skin-friendly
- put it in the guide head already before you insert the Polykat® in the conduit
